SUPPLEMENTARY INFORMATION: Section 101(c) of the Federal Mine Safety and Health Act of 1977 and Title 30 of the Code of Federal Regulations (CFR) part 44 govern the application, processing, and disposition of petitions for modification.

I. Background

Section 101(c) of the Federal Mine Safety and Health Act of 1977 (Mine Act) allows the mine operator or representative of miners to file a petition to modify the application of any mandatory safety standard to a coal or other mine if the Secretary of Labor determines that:

1. An alternative method of achieving the result of such standard exists which will at all times guarantee no less than the same measure of protection afforded the miners of such mine by such standard; or

2. The application of such standard to such mine will result in a diminution of safety to the miners in such mine.

In addition, sections 44.10 and 44.11 of 30 CFR establish the requirements for filing petitions for modification.

II. Petition for Modification

Docket Number: M-2021-004-M.

Petitioner: Genesis Alkali, LLC, 580 Westvaco Rd., Green River, Wyoming (Zip 82935).

Mine: Genesis Alkali @WESTVACO, MSHA ID No. 48-00152, located in Sweetwater County, Wyoming.

Regulation Affected: 30 CFR 57.22305 (Approved equipment (III mines)).

Modification Request: The petitioner requests a modification of the existing 30 CFR 57.22305 standard to permit an alternative, non-MSHA approved Powered Air Purifying Respirator (PAPR). The petitioner seeks approval for the use of the CleanSpace EX PAPR (CleanSpace EX) in its Class III underground, trona mine in areas in or beyond the last open crosscut and in areas where methane may enter the air current.

The petitioner states that:

(a) Genesis Alkali @WESTVACO is an underground trona mine. The petitioner has provided miners who wished to wear a PAPR voluntarily with one as a means to provide a fresh air flow over their face in a warm environment and to reduce exposure to nuisance dust. Some of the miners who choose to wear a PAPR work in by the last open cross cut. The petitioner historically purchased 3M Airstream Headgear-Mounted PAPRs. 3M discontinued these in 2020.

(b) Other intrinsically safe (IS) respirators available commercially have been approved by other certification bodies, e.g., European Union and the International Electrotechnical Commission (IEC). However, these other IS PAPRs have not been approved by MSHA pursuant to 30 CFR parts 18 through 36.

(c) The CleanSpace EX manufactured by CleanSpace was determined to be IS
