

recognize the significant efficiencies the Exchange experiences in dealing with a common manager for multiple issuers. As only a small percentage of listed companies are expected to qualify for the proposed discount, the Exchange does not believe that it will have any meaningful effect on the competition among issuers listed on the Exchange.

Intermarket Competition: The Exchange operates in a highly competitive market in which issuers can readily choose to list new securities on other exchanges and transfer listings to other exchanges if they deem fee levels at those other venues to be more favorable. Because competitors are free to modify their own fees in response, and because issuers may change their listing venue, the Exchange does not believe its proposed fee changes can impose any burden on intermarket competition.
