

existence of any endangered or threatened species or result in the destruction or adverse modification of designated critical habitat. To ensure ESA compliance for the issuance of IHAs, NMFS consults internally, in this case with the West Coast Region Protected Resources Division, whenever we propose to authorize take for endangered or threatened species.

The only species listed under the ESA with the potential to be present in the action area are the Mexico Distinct Population Segment (DPS) and Central America DPS of humpback whales. The effects of this Federal action were adequately analyzed in NMFS' Biological Opinion for the Seattle Multimodal Project at Colman Dock, Seattle, Washington, dated October 1, 2018, which concluded that issuance of an IHA would not jeopardize the continued existence of any endangered or threatened species or destroy or adversely modify any designated critical habitat.

#### Renewal

NMFS has issued a Renewal IHA to WSDOT for the take of marine mammals incidental to conducting the Seattle Multimodal Project at Colman Dock Year 4 in Washington State, between August 1, 2021 and July 31, 2022.

Dated: July 16, 2021.
