CONSUMER PRODUCT SAFETY COMMISSION

[Docket No. CPSC-2018-0005]

Agency Information Collection Activities; Proposed Collection; Comment Request; Survey on Smoke and Carbon Monoxide Alarms

AGENCY: Consumer Product Safety Commission.

ACTION: Notice.

SUMMARY: As required by the Paperwork Reduction Act of 1995, the Consumer Product Safety Commission (CPSC or Commission) requests comments on a proposed extension of approval for an information collection on a survey that will estimate the use of smoke and carbon monoxide alarms in United States households. The Office of Management and Budget (OMB) previously approved the collection of information under OMB Control No. 3041-0180. The current information collection will expire on October 31, 2021. CPSC will consider all comments received in response to this notice before requesting an extension of approval of this collection of information from OMB.

DATES: Submit written or electronic comments on the collection of information by September 21, 2021.

ADDRESSES: You may submit comments, identified by Docket No. CPSC-2018-0005, by any of the following methods:

Electronic Submissions: Submit electronic comments to the Federal eRulemaking Portal at: <https://www.regulations.gov>. Follow the instructions for submitting comments. CPSC does not accept comments submitted by electronic mail (email), except through <https://www.regulations.gov> and as described below. CPSC encourages you to submit electronic comments by using the Federal eRulemaking Portal, as described above.

Mail/hand delivery/courier Written Submissions: Submit comments by mail/hand delivery/courier to: Division of the Secretariat, Consumer Product Safety Commission, 4330 East West Highway, Bethesda, MD 20814;

telephone: (301) 504-7479.

Alternatively, as a temporary option during the COVID-19 pandemic, you may email such submissions to: cpsc-os@cpsc.gov.

Instructions: All submissions must include the agency name and docket number for this notice. CPSC may post all comments received without change, including any personal identifiers, contact information, or other personal information provided, to: <https://www.regulations.gov>. Do not submit electronically: Confidential business information, trade secret information, or other sensitive or protected information that you do not want to be available to the public. If you wish to submit such information, please submit it according to the instructions for mail/hand delivery/courier written submissions.

Docket: For access to the docket to read background documents or comments received, go to: <https://www.regulations.gov>, insert Docket No. CPSC-2018-0005 into the “Search” box, and follow the prompts. A copy of the proposed survey titled “SCOA ICR 2021 60-day” is available at: <http://www.regulations.gov> under Docket No. CPSC-2018-0005, Supporting and Related Material.

FOR FURTHER INFORMATION CONTACT:

Cynthia Gillham, Consumer Product Safety Commission, 4330 East West Highway, Bethesda, MD 20814; (301) 504-7991, or by email to: cgillham@cpsc.gov.

SUPPLEMENTARY INFORMATION:

A. Background

The Commission is authorized under section 5(a) of the Consumer Product Safety Act (CPSA), 15 U.S.C. 2054(a), to conduct studies and investigations relating to the causes and prevention of deaths, accidents, injuries, illnesses, other health impairments, and economic losses associated with consumer products. Section 5(b) of the CPSA, 15 U.S.C. 2054(b), further provides that the Commission may conduct research, studies, and investigations on the safety of consumer products or test consumer products and develop product safety test methods and testing devices.

In 1992, the CPSC sponsored a national in-home survey to collect information on the number of residential smoke alarms in actual use in homes and to evaluate the operability of the sampled alarms. The results were published in the 1994 report, *Consumer Product Safety Commission Smoke Detector Operability Survey Report on*

Findings.¹ Although the survey results were instrumental for many years in developing state and local codes and standards related to smoke alarms, subsequent changes in technology, installation codes, and state/local ordinances in the past 25 years have rendered the information outdated and less effective. Stakeholders’ groups for fire loss prevention have identified a need for an updated national survey to increase the installation and maintenance of smoke alarms in the United States. In addition, installations of CO alarms have increased since 1992. Accordingly, CPSC sought to update its data information collection related to smoke and CO alarm use through a new survey, the National Smoke and CO Alarm Survey (SCOA survey).

Although the SCOA survey initially commenced in January 2019, CPSC experienced lower response rates relative to expectations in the administration of the SCOA survey in fielding locations than had been established by the study’s approved methodology. To correct for this challenge, and to complete the number of homes surveyed in the contract, CPSC undertook a revised sampling method and contact protocol of participant recruitment. Among the revisions to the methodology, CPSC included a redesign of the recruitment, screening, and in-home survey based on a random walk door-to-door knocking sample methodology. The SCOA survey seeks to collect information from 1,185 households within the United States. The survey will be conducted only through face-to-face, in-home interviews. Following all COVID-19 safety precautions, survey professionals will provide pre-notification door hangers requesting participation in the survey. These households will be recruited, and willing participants will be provided with consent forms, and the survey team will administer questions regarding the residence type, and smoke and CO alarm availability and functionality in the residences. The survey team also will identify, test, and examine several of the alarms in the home, as time permits, and if they are found faulty, provide new alarms or batteries, if requested by the participant. No action will be taken if participants choose not to have the alarm fixed or replaced.

CPSC entered into a contract with Eureka Facts to conduct the SCOA survey through a national in-home survey that would estimate the use and
