The Survey Data and Assessment, DHRA 03, system of records maintains data about individuals who completed DoD-sponsored survey questionnaires or participated in DoD-sponsored focus group data collections, including military members, military spouses, civilians, persons eligible for DoD benefits (including retirees), and Service Academy students. It also maintains data about individuals involved in market research studies, including men and women of military age, and applicants to the military services.

This system of records uses this information to assess characteristics of DoD personnel and households to support manpower and benefits research; to assess DoD personnel attitudes, opinions, and/or experiences related to social issues; and to assess attitudes toward joining the military and reasons for leaving. This information is used to provide the DoD with fast, accurate assessments of the attitudes and opinions of the entire DoD community in order to evaluate existing programs/policies, establish baseline measures before implementing new programs/policies, and monitor the progress of programs/policies and their effects on the total force.

DoD SORNs have been published in the **Federal Register** and are available from the address in **FOR FURTHER INFORMATION CONTACT** or at the Defense Privacy, Civil Liberties, and Transparency Division website at <https://dpcl.dod.defense.gov/privacy>.
