relating to this hazard. In fact, only a small sample of tornadoes ever receive study, and most often those are only the largest tornadoes. No generalizable information on tornado warning response after real-world events exists. The National Weather Service (NWS) and National Severe Storms Laboratory have designed this data collection instrument to allow for more routine collection of this information. Respondents will include members of the U.S. public who have recently (within the previous 30 days) been in or near a tornado, and they will be asked questions about the ways they received, understood, and responded to NWS watch/warning information. The information would be collected by NWS forecasters using their Damage Assessment Tool (DAT) and also by members of the public who voluntarily access a web tool developed by the National Severe Storms Laboratory. The information will be used as part of a pilot study to explore methods for more systematically collecting post-event data in support of program evaluation for NOAA's tornado watch/warning system.

Affected Public: Individual Households.

Frequency: Whenever a tornado impacts an individual anywhere within the United States of America.

Respondent's Obligation: Voluntary.

Legal Authority: This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website *www.reginfo.gov/ public/do/PRAMain.* Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function and entering the title of the collection.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Chief Information Officer, Commerce Department.

New England Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The New England Fishery Management Council (Council) is scheduling a public meeting of its Groundfish Committee via webinar to consider actions affecting New England fisheries in the exclusive economic zone (EEZ). Recommendations from this group will be brought to the full Council for formal consideration and action, if appropriate.

DATES: This webinar will be held on Wednesday, August 18, 2021 at 9:30 a.m. Webinar registration URL information: https:// attendee.gotowebinar.com/register/ 5983603167717034766.

ADDRESSES: *Council address:* New England Fishery Management Council, 50 Water Street, Mill 2, Newburyport, MA 01950.

FOR FURTHER INFORMATION CONTACT: Thomas A. Nies, Executive Director, New England Fishery Management Council; telephone: (978) 465–0492. SUPPLEMENTARY INFORMATION:

SUPPLEMENTART INFORMATIC

Agenda

The Groundfish Committee will meet to discuss development of draft Framework Adjustment 63/ Specifications and Management Measures: Set 2022 total allowable catches for US/Canada management units of Eastern Georges Bank (GB) cod and Eastern GB haddock, and 2022-23 specifications for the GB yellowtail flounder stock: Set 2022-24 specifications for GB cod and Gulf of Maine (GOM) cod, and possibly adjust 2022 specifications for GB haddock and GOM haddock. They will adjust 2022 specifications for white hake based on the rebuilding plan. They will adopt additional measures to promote stock rebuilding, and develop alternatives to the current default system. Also on the agenda is discussion of progress on 2021 Council priorities for groundfish. There will be a preliminary discussion of possible 2022 Council priorities for groundfish. Other business will be discussed as necessary.

Although non-emergency issues not contained on the agenda may come before this Council for discussion, those issues may not be the subject of formal action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency. The public also should be aware that the meeting will be recorded. Consistent with 16 U.S.C. 1852, a copy of the recording is available upon request.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Thomas A. Nies, Executive Director, at (978) 465–0492, at least 5 days prior to the meeting date.

Authority: 16 U.S.C. 1801 et seq.

Dated: July 27, 2021. Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable

Fisheries, National Marine Fisheries Service. [FR Doc. 2021–16272 Filed 7–29–21; 8:45 am]
