

conclude before that time. Persons wishing to give public testimony in-person must register at the registration kiosk in the meeting room.

*Thursday, August 26, 2021; 8:30 a.m.–5 p.m.*

The Council will receive committee reports from Administrative/Budget, Shrimp, Mackerel, Habitat Protection and Restoration, Sustainable Fisheries, Data Collection, Law Enforcement, and Reef Fish Management Committees, and report on the Closed Session. The Council will receive updates from the following supporting agencies: South Atlantic Fishery Management Council; Texas Law Enforcement Efforts; NOAA Office of Law Enforcement (OLE); Gulf States Marine Fisheries Commission; U.S. Coast Guard; U.S. Fish and Wildlife Service; and Department of State.

The Council will discuss any Other Business items; and, hold an Election for Chair and Vice-Chair.

—Meeting Adjourns

The meeting will be an in-person meeting only. You may register for the webinar to listen-in only by visiting [www.gulfcouncil.org](http://www.gulfcouncil.org) and click on the Council meeting on the calendar.

The timing and order in which agenda items are addressed may change as required to effectively address the issue, and the latest version along with other meeting materials will be posted on the website as they become available.

Although other non-emergency issues not contained in this agenda may come before this group for discussion, in accordance with the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), those issues may not be the subject of formal action during these meetings. Actions will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under Section 305(c) of the Magnuson-Stevens Act, provided that the public has been notified of the Council's intent to take final action to address the emergency.

### Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aid should be directed to Kathy Pereira, (813) 348–1630, at least 5 days prior to the meeting date.

### National Oceanic and Atmospheric Administration

[RTID 0648–XB271]

#### Magnuson-Stevens Act Provisions; General Provisions for Domestic Fisheries; Application for Exempted Fishing Permits

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice; request for comments.

**SUMMARY:** The Gulf of Maine Research Institute has requested a change to a previously issued exempted fishing permit which would result in new regulatory exemptions for participating vessels. The Assistant Regional Administrator for Sustainable Fisheries, Greater Atlantic Region, NMFS, has determined that this request is outside the scope of the initially approved exempted fishing permit. As a result, regulations under the Magnuson-Stevens Fishery Conservation and Management Act require publication of this notification to provide interested parties the opportunity to comment on the proposed changes to the exempted fishing permit previously issued to the Gulf of Maine Research Institute.

**DATES:** Comments must be received on or before August 18, 2021.

**ADDRESSES:** You may submit written comments by the following method:

- *Email:* [nmfs.gar.efp@noaa.gov](mailto:nmfs.gar.efp@noaa.gov).

Include in the subject line “Modification to GMRI MREM EFP.”

**FOR FURTHER INFORMATION CONTACT:** Spencer Talmage, Fishery Policy Analyst, 978–281–9232.

**SUPPLEMENTARY INFORMATION:** On July 31, 2020, NMFS issued an exempted fishing permit (EFP) to the Gulf of Maine Research Institute (GMRI) in support of the development of maximized retention electronic monitoring (MREM) for the Northeast multispecies fishery. The EFP requires six participating vessels to retain all catch of undersized, allocated groundfish, with electronic monitoring (EM) used to verify compliance. The EFP currently exempts vessels from the requirement to adhere to their sector's

monitoring program at 50 CFR 648.87(b)(1)(v)(B)); minimum fish size requirements at § 648.83(a) and § 648.14(a)(7); minimum mesh size requirements at § 648.80; and Closed Area II Closure Area at § 648.81(a)(5) from April 16 through January 31.

Additionally, the EFP as originally issued allowed vessels to use a 4.5-inch (11.43 cm) mesh codend rather than a 5.5-inch (13.97 cm) mesh codend normally required while participating in the redfish sector exemption, provided that all other exemption area requirements were complied with. This provision was written into the terms and conditions of the EFP, and was not implemented through a regulatory exemption. Prior to the publication of Framework Adjustment 61 to the Northeast Multispecies Fishery Management Plan (86 FR 40353, July 28, 2021), the redfish sector exemption was administered through sector operations plans which are approved each year, and was not defined in the regulations.

When Framework 61 was approved and implemented, the redfish exemption was added to the list of universal sector exemptions, and a sector redfish exemption program, corresponding to the universal exemption, was described in the regulations. These new regulations define terms of the program, including vessel eligibility, area, gear, monitoring thresholds, and other administrative elements of the exemption program.

Because the new regulations defining the sector redfish exemption program did not exist when the EFP was issued to GMRI, the EFP does not currently exempt participating vessels from any of them. Because Framework 61 is now effective, vessels participating in this EFP are no longer able to participate in the sector redfish exemption program using 4.5-inch (11.43 cm) mesh as was intended.

On June 25, 2021, GMRI requested a modification to the EFP which would add an exemption to the minimum codend mesh size requirement for vessels fishing in the sector redfish exemption program, at § 648.85(e)(1)(vii)(A). Additionally, the modification would revise the conditions and requirements of the EFP that address the sector redfish exemption program to account for the additional exemption issued to vessels participating in the EFP. These modifications allow the participating vessels to continue fishing under the provisions of the sector redfish exemption program with 4.5-inch (11.43 cm) codend mesh, as they have since the original issuance of the EFP.

These modifications would not alter any other aspect of the EFP, including the remaining exemptions, remaining conditions and requirements, and study period. They do not change the impact of the EFP from what was previously issued.

The applicant may request further minor modifications and extensions to the EFP throughout the year. EFP modifications and extensions may be granted without further notice if they are deemed essential to facilitate completion of the proposed research and have minimal impacts that do not change the scope or impact of the initially approved EFP request. Any fishing activity conducted outside the scope of the exempted fishing activity would be prohibited.

## DEPARTMENT OF DEFENSE

### Department of the Air Force

[Docket ID: USAF-2021-HQ-0005]

#### Submission for OMB Review; Comment Request

**AGENCY:** Department of the Air Force (USAF), Department of Defense (DoD).

**ACTION:** 5-Day notice.

**SUMMARY:** Consistent with the Paperwork Reduction Act of 1995 and its implementing regulations, this document provides notice that DoD is submitting an Information Collection Request to the Office of Management and Budget (OMB) to formalize the collection of information for The Isolated Personnel Report (ISOPREP): Personnel Recovery Mission Software (PRMS) and The DD 1833 ISOPREP Form. Information collected for the ISOPREP is used to positively identify, authenticate, support and recover isolated or missing DoD persons of interest. DoD requests emergency processing and OMB authorization to collect the information after publication of this notice for a period of six months. **DATES:** Comments must be received by August 9, 2021.

**ADDRESSES:** The Department has requested emergency processing from OMB for this information collection request by 5 days after publication of this notice. Interested parties can access the supporting materials and collection

instrument as well as submit comments and recommendations to OMB at [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular information collection by selecting “Currently under 5-day Review—Open for Public Comments” or by using the search function. Comments submitted in response to this notice will be summarized and included in the request for OMB approval of this information collection. They will also become a matter of public record.

#### FOR FURTHER INFORMATION CONTACT:

Angela Duncan, 571-372-7574, or [whs.mc-alex.esd.mbx.dd-dod-information-collections@mail.mil](mailto:whs.mc-alex.esd.mbx.dd-dod-information-collections@mail.mil).

**SUPPLEMENTARY INFORMATION:** The Personnel Recovery Mission Software (PRMS) web application as part of the greater Personnel Recovery Command And Control (PRC2), USAF, system of record and the DD FORM 1833 sponsored by The Joint Personnel Recovery Agency (JPRA) both collect ISOPREP information from the following respondents: DoD Military, DoD Civilians, DoD Contractors authorized to accompany the force (CAAF), other US Government agency employees and Coalition military members supporting DoD operations overseas.

The ISOPREP collects Controlled Unclassified Information (CUI) in the form of full name and associates the name with sensitive Personal Identifiable Information (PII) including date of birth, Social Security number, pictures and fingerprints. The ISOPREP also collects confidential information as identified in the JPRA Personnel Recovery Security Classification Guide (PR SCG) in the form of personal authentication statements and codes known only to the individual who completes the ISOPREP. All personnel completing an initial ISOPREP are required to utilize the PRMS web application. In rare instances where personnel do not have access to PRMS a hardcopy DD FORM 1833 can be completed. When complete, ISOPREPS are stored in the PRC2 system on Secure internet Protocol Routing Network (SIPRNET), while a few hardcopy DD FORM 1833s are stored in other DoD classified environments.

In the unlikely event that personnel become isolated, the information on an individual’s ISOPREP is used to positively identify, authenticate, support and recover that person. In the interest of protecting the force and returning personnel who support the DoD to their units, families and country, the information collected for the ISOPREP is a force requirement for

those DoD military and civilians serving overseas.

*Title; Associated Form; and OMB Number:* Isolated Personnel Report (ISOPREP) PRMS web application and DD FORM1833; OMB Control Number 0701-ISOP.

*Type of Request:* New.

*Number of Respondents:* 1,200,000.

*Responses per Respondent:* 1.

*Annual Responses:* 1,200,000.

*Average Burden per Response:* 15 minutes.

*Annual Burden Hours:* 300,000.

*Affected Public:* Individuals or households.

*Frequency:* On occasion.

*Respondent’s Obligation:* Voluntary.

#### Request for Comments

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of DoD, including whether the information collected has practical utility; (2) the accuracy of DoD’s estimate of the burden (including hours and cost) of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including automated collection techniques or the use of other forms of information technology.

Dated: July 29, 2021.
