**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice of intent.

**SUMMARY:** In accordance with Secretary's Order 3401, *Comprehensive Analysis and Temporary Halt on all Activities in the Arctic National Wildlife Refuge Relating to the Coastal Plain Oil and Gas Leasing Program*, the Bureau of Land Management (BLM) Alaska State Office, Anchorage, Alaska, intends to prepare a Supplemental Environmental Impact Statement (EIS) to the September 2019 Coastal Plain Oil and Gas Leasing Program EIS. The Supplemental EIS will provide a comprehensive analysis of the potential environmental impacts of the Program, including by addressing the deficiencies identified in Secretary's Order 3401.

**SUPPLEMENTARY INFORMATION:** The area comprising the Coastal Plain includes approximately 1.6 million acres within the approximately 19.3 million-acre Arctic National Wildlife Refuge. In September 2019 and in connection with Public Law 115–97, Dec. 22, 2017, the BLM completed the Coastal Plain Oil and Gas Leasing Final EIS. The BLM then issued a Record of Decision (ROD) for the Coastal Plain Oil and Gas Leasing Program on August 8, 2020 (85 FR 51754). The ROD approved a program to implement Section 20001 of Public Law 115–97, which directed the BLM to manage the oil and gas leasing program on the Coastal Plain in a manner similar to lease sales under the Naval Petroleum Reserves Production Act of 1976 (including regulations).

On June 1, 2021, the Secretary of the Interior issued Secretary's Order 3401, Section 4 of which directed “a temporary halt on all Department activities related to the [Leasing] Program in the Arctic Refuge” pending “a new, comprehensive analysis of the potential environmental impacts of the Program” to “address . . . identified legal deficiencies.”

The purpose of this public scoping process is to determine the scope of issues to be addressed and to identify the significant issues, including any legal deficiencies in the Final EIS, related to an oil and gas leasing program within the Coastal Plain. Information received during this process will influence the development of the Supplemental EIS and guide the scope of the environmental analysis. The BLM will work collaboratively with interested parties to identify the management decisions best suited to local, regional, and national needs and concerns.

The purpose and need of the Supplemental EIS is bound by statute and remains the same as for the September 2019 Final EIS, *i.e.*, to implement Section 20001 of Public Law 115–97. Potential new alternatives to be considered in the Supplemental EIS include, but are not limited to, those that would: Designate certain areas of the Coastal Plain as open or closed to leasing; permit less than 2,000 acres of surface development throughout the Coastal Plain; prohibit surface infrastructure in sensitive areas; and otherwise avoid or mitigate impacts from oil and gas activities.

The Supplemental EIS will evaluate impacts to various surface resources including, but not limited to, caribou, polar bears, birds, vegetation, and
