**Notice of Lodging of Consent Decree Pursuant to the Clean Water Act**

On July 27, 2021, the Department of Justice lodged a proposed Second Amended Consent Decree (“Second ACD”) in the United States District Court for the Eastern District of Kentucky, Louisville Division in the lawsuit entitled *Commonwealth of Kentucky and United States of America v. The Louisville and Jefferson County Metropolitan Sewer District (“MSD”)*, Civil Action No. 3:05-cv-00236-CRS.

A Consent Decree resolving the Plaintiffs’ Clean Water Act (“CWA”) claims against MSD was entered by the Court in 2005. That Consent Decree was amended and the Amended Consent Decree was entered by this Court in 2009. The proposed Second ACD includes significant new work to enable MSD to meet the objectives of the CWA. The proposed Second ACD replaces and supersedes the 2009 Amended Consent Decree.

Under the proposed Second ACD, MSD is required to undertake critical infrastructure projects to ensure that the goals of the Clean Water Act are met. As a result of the greater priority and expense of this new work, the proposed Second ACD extends the deadlines for the few remaining projects required by the 2009 Amended Consent Decree. The proposed work required under the Second ACD is estimated to cost approximately \$1.1 billion. While the longest extension to one of the remaining projects is eleven years, most of the work will be completed much sooner.

The publication of this notice opens a period for public comment on the Second ACD. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to the *Commonwealth of Kentucky and United States of America v. The Louisville and Jefferson County Metropolitan Sewer District*, the D.J. Ref. No. 90-5-1-1-08254. All comments must be submitted no later than thirty

(30) days after the publication date of this notice. Comments may be submitted either by email or by mail:

**Notice of Lodging of Proposed Consent Decree Under the Clean Air Act**

On July 27, 2021, the Department of Justice filed a Complaint and simultaneously lodged a Consent Decree with the United States District Court for the Central District of California in *United States v. Advanced Flow Engineering, Inc.*, Civ. No. 5:21-cv-01249.

The proposed Consent Decree settles claims brought by the United States for violations of the Clean Air Act arising from Defendant’s manufacture and sale of motor vehicle parts that bypass, defeat, and/or render inoperative the vehicle’s installed emission controls, commonly known as “defeat devices.” See 42 U.S.C. 7522(a)(3)(B). The Consent Decree resolves these claims and prohibits Defendant from: (1)

Manufacturing, selling or installing defeat devices; (2) providing technical support for defeat devices; (3) transferring intellectual property for defeat devices; and (4) owning any interest in any person or entity that manufactures, sells, offers to sell, or installs defeat devices or earning income from the distribution or installation of defeat devices. It also requires Defendant to pay a civil penalty of \$250,000, which was based on its financial condition.

The publication of this notice opens a period for public comment on the proposed Consent Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division and should refer to *United States v. Advanced Flow Engineering, Inc.* D.J. Ref. No. 90-5-2-1-12079. All comments must be submitted no later than thirty (30) days after the publication date of this notice. Comments may be submitted either by email or by mail:
