

Public Scoping Process

As previously discussed, APHIS seeks public comment on petitions deemed complete through notices published in the **Federal Register**. In accordance with our process, on August 19, 2020, APHIS solicited comments on the petition for 60 days and received 4,320 comments from the academic sector, farmers, non-governmental organizations, nonprofit organizations, industry, Tribes, and unaffiliated individuals.

APHIS is seeking additional public comment on this notice of intent to prepare an EIS to help identify potential alternatives, as well as relevant information, studies, and/or analyses that we should consider in evaluating the potential impacts of the proposed action on the quality of the human environment. Those who have already submitted comments on the ESF petition need not resubmit—we will consider these comments in development of the EIS. To promote informed NEPA analysis and decisionmaking, comments should be as specific as possible and explain why the issues raised are important for consideration in the EIS. Comments should include, where possible, references and data sources supporting the information provided in the comment. We encourage the submission of data, studies, or research to support your comments.

APHIS will accept written comments for a period of 30 days from the date of this notice. The petition is available for public review, and copies are available as indicated under **ADDRESSES** and **FOR FURTHER INFORMATION CONTACT** above.

Schedule for the Decision-Making Process

As part of the decision-making process regarding the petition, we are preparing a plant pest risk assessment (PPRA) and the EIS that is the subject of this notice. We plan to complete the PPRA within 6 months, and the EIS and record of decision (ROD) within 2 years of the date of this notice. This schedule is tentative and subject to extension.

Once we have reviewed the comments received in response to this notice, we will prepare and make available a draft EIS for a review and comment for a period of 45 days. A notice for public comment on the draft EIS will be provided in the **Federal Register**, and the draft EIS and associated documents will be made available on www.regulations.gov.

The commenting and review process on the draft EIS will be conducted in accordance with CEQ's NEPA regulations. Comments will be invited

from State, Tribal, and local governments and agencies, industry, environmental organizations, academia, and the public. APHIS will review all comments received on the draft EIS, provide responses to substantive comments, and incorporate relevant issues raised in the comments into development of a final EIS.

We will announce the availability of the final EIS in the **Federal Register** and file the final EIS together with comments and responses with the EPA, Office of Federal Activities, consistent with EPA's procedures and CEQ's filing requirements. The EPA will publish a notice in the **Federal Register** announcing the final EIS. APHIS will issue a ROD on the final EIS and petition 30 days after the EPA notifies the public that the final EIS has been completed and submitted. If necessary, APHIS may extend these timeframes.
