Food Safety and Inspection Service

Title: Public Health Inspection System.

OMB Control Number: 0583–0153.

Summary of Collection: The Food Safety and Inspection Service (FSIS) has been delegated the authority to exercise the functions of the Secretary as provided in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601 et. seq.), the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451, et. seq.), and the Egg Products Inspection Act (EPIA) (21 U.S.C. 1031). These statutes mandate that FSIS protect the public by ensuring that meat, poultry, and egg products are safe, wholesome, unadulterated, and properly labeled and packaged.

Need and Use of the Information: FSIS uses a Web-based system that supports FSIS inspection operations and facilitates industry members' application for inspection, export, and import of meat, poultry, and egg products. Industry members use FSIS forms in the Public Health Information System (PHIS). Industry can submit some of these forms through a series of screens in PHIS; other forms are available in PHIS only as electronic forms. Paper forms will also be available to firms that do not wish to use PHIS. To submit information through PHIS, firms' employees will need to register for a USDA eAuthentication account with Level 2 access. To not collect the information would inhibit ability of FSIS to ensure that meat, poultry, and egg products are wholesome, unadulterated, and properly labeled and packaged.

Description of Respondents: Business or other for-profit.

Number of Respondents: 6,294.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 115,550.
