

of efforts to amend the HMR to adopt standards for the design, construction, maintenance, and use of cylinders and multiple-element gas containers (MEGCs) based on the standards contained in the UN Recommendations on the Transport of Dangerous Goods. Aligning the HMR with the UN Recommendations promotes flexibility, permits the use of technological advances for the manufacture of the pressure receptacles, provides for a broader selection of pressure

receptacles, reduces the need for special permits, and facilitates international commerce in the transportation of compressed gases. Information collection requirements address domestic and international manufacturers of cylinders that request approval by the approval agency for cylinder design types. The approval process for each cylinder design type includes review, filing, and recordkeeping of the approval application. The approval agency is

required to maintain a set of the approved drawings and calculations for each design it reviews and a copy of each initial design type approval certificate approved by the Associate Administrator for the Office of Hazardous Materials Safety for not less than 20 years. The following information collections and their burdens are associated with this OMB Control Number:

Information collection	Total respondents	Total responses	Time per response	Total burden hours
UN Pressure Receptacle Approval—New Request	35	35	6 hours	210
UN Pressure Receptacle Approval—Modified Request	100	100	6 hours	600
UN Pressure Receptacle Approval—Recordkeeping	75	75	6 minutes	7.5

Affected Public: Fillers, owners, users, and retesters of UN cylinders.
Annual Reporting and Recordkeeping Burden:
Number of Respondents: 210.
Total Annual Responses: 210.
Total Annual Burden Hours: 817.5.
Frequency of Collection: On occasion.

Issued in Washington, DC, on August 4, 2021, under authority delegated in 49 CFR 1.97.

William A. Quade,
Deputy Associate Administrator of Hazardous Materials Safety, Pipeline and Hazardous Materials Safety Administration.
