

market impact surrounding the use of options.⁶⁹ As discussed above, the Exchange has proposed to increase the position and exercise limits for options on GLD, SLV, LQD, GDX, VXX, and UVXY from 250,000 contracts to 500,000 contracts. The proposed doubling of the position and exercise limits for these options would be a substantial increase from current levels, and raises the potential for adverse impacts in the underlying markets implicated by this proposal. The initial proposal did not provide sufficient information to explain why all of these underlying markets are sufficiently comparable to the markets underlying the option products currently subject to a 500,000 contract position limit or sufficient information to independently support a finding that all of the proposed position limit increases would not have an adverse market impact. Accordingly, the initial proposal did not provide an adequate basis for the Commission to conclude that the proposal would be consistent with Section 6(b)(5) of the Act.

The Exchange recently provided additional analysis and justification for its proposal in Amendment No. 1. Amendment No. 1 was submitted shortly before the expiration of the statutory deadline for the Commission to act on the Exchange's proposal, leaving the Commission, as well as any potential commenters, with insufficient time to carefully consider the new data and analysis before the deadline. In the proceedings that the Commission is instituting today, the Commission will be evaluating, among other things, the Exchange's amended statements, and invites comment on the extent to which they justify approval of the proposal.

IV. Procedure: Request for Written Comments

The Commission requests that interested persons provide written submissions of their data, views, and arguments with respect to the issues identified above, as well as any other concerns they may have with the proposal. In particular, the Commission invites the written views of interested persons concerning whether the proposed rule change, as modified by Amendment No. 1, is consistent with Section 6(b)(5), or any other provision of the Act, or the rules and regulations thereunder. Although there do not appear to be any issues relevant to approval or disapproval which would be facilitated by an oral presentation of

data, views, and arguments, the Commission will consider, pursuant to Rule 19b-4 under the Act,⁷⁰ any request for an opportunity to make an oral presentation.⁷¹

The Commission asks that commenters address the sufficiency and merit of the Exchange's statements in support of the proposal, as modified by Amendment No. 1, in addition to any other comments they may wish to submit about the proposed rule change. In particular, the Commission seeks comment on whether the position and exercise limit for each option as proposed could impact markets adversely.

Interested persons are invited to submit written data, views, and arguments regarding whether the proposed rule change, as modified by Amendment No. 1, should be approved or disapproved by September 1, 2021. Any person who wishes to file a rebuttal to any other person's submission must file that rebuttal by September 15, 2021. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include File No. SR-CBOE-2021-029 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549-1090. All submissions should refer to File No. SR-CBOE-2021-029. The file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the

⁷¹ Section 19(b)(2) of the Act, as amended by the Securities Acts Amendments of 1975, Public Law 94-29 (June 4, 1975), grants to the Commission flexibility to determine what type of proceeding—either oral or notice and opportunity for written comments—is appropriate for consideration of a particular proposal by a self-regulatory organization. See Securities Acts Amendments of 1975, Senate Comm. on Banking, Housing & Urban Affairs, S. Rep. No. 75, 94th Cong., 1st Sess. 30 (1975).

proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street NE, Washington, DC 20549, on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. All comments received will be posted without change. Persons submitting comments are cautioned that we do not redact or edit personal identifying information from comment submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File No. SR-CBOE-2021-029 and should be submitted by September 1, 2021. Rebuttal comments should be submitted by September 15, 2021.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.⁷²

1. Work-Disability Functional Assessment Battery (WD-FAB)—0960-NEW

Background

SSA uses continuing disability reviews (CDR) to determine continued eligibility of program benefits for Social Security disability insurance (SSDI), and Supplemental Security Income (SSI) recipients. SSA is requesting clearance to administer the Work-Disability Functional Assessment Battery (WD-FAB) assessment to a sample of working-age SSDI and SSI program recipients who are due for their CDR. The WD-FAB is a self-reported assessment measuring whole person-functioning at the activity level for eight work-related functional domains: (1) Basic Mobility; (2) Upper Body Function; (3) Fine Motor Function; (4) Community Mobility; (5) Communication and Cognition; (6)

Resilience and Sociability; (7) Self-Regulation; and (8) Mood and Emotion. SSA will use the data the WD-FAB collects to assess the feasibility and value of incorporating the WD-FAB into SSA's CDR process with the intent of improving the CDR process. Section 1110(a) of the Social Security Act (Act) gives the Commissioner of Social Security the authority to help fund research or demonstration projects relating to the prevention and reduction of dependency. SSA contracted with Westat to conduct the WD-FAB data collection.

WD-FAB Project Description

To assess the feasibility of incorporating the WD-FAB into the CDR process, this study will conduct two assessments. The first assessment is a baseline assessment of the WD-FAB and the second assessment, which we will conduct with the same individuals six months later, will detect any changes. Each survey will include three main components: Classification questions, WD-FAB questions, and follow-up questions. The classification questions and WD-FAB questions will be identical in each survey.

Survey 1 will cover questions in the following domains:

- Classification questions:
 - Demographic questions (age, gender, race, ethnicity, marital status, highest level of education completed);
 - Questions on general health, mental health status, and work-limiting conditions;
 - 4-item set of Healthy Days core questions included in the state-based Behavioral Risk Factor Surveillance System;
 - Questions from Form SSA-455, Disability Update Report
 - Veterans Item Health Survey;
 - Items from WD-FAB; and
 - 3-5 follow-up questions to solicit feedback on the WD-FAB about ease of use, clarity of instructions, and perceived burden.

Survey 2 will include the same classification questions included in Survey 1, and we will record responses using the WD-FAB Computer Assisted Telephone (CAT) system. CAT interviewers and respondents who complete the surveys via the web will access the same web version of the survey instruments ensuring data consistency between these two modes of data collection. The CAT methodology uses a computer interface that rapidly tailors questions to the unique ability level of each claimant, allowing for fewer items to be administered, while providing an assessment that is proven to be accurate, precise, comprehensive,
