SUPPLEMENTARY INFORMATION:

Title: FERC-520 (Application for Authority to Hold Interlocking Directorate Positions).

OMB Control No.: 1902-0083.

Type of Request: Three-year extension of the FERC-520 information collection requirements with no revisions to the current requirements.

Abstract: FERC Form No. 520 is an application requesting FERC authorization for officers and directors of regulated public utilities to simultaneously hold positions of officers and directors of certain other entities. Section 305(b)(1) of the Federal Power Act (FPA)¹ prohibits the holding of specific interlocking positions unless the Commission has authorized the holding of such interlocks upon a determination that neither public nor

private interests will be adversely affected.

FERC-520 consists of three information collection activities. A “full application,” in accordance with 18 CFR 45.8, provides detailed information about the positions for which authorization is sought, including a description of duties. Submission of a more streamlined “informational report,” in accordance with 18 CFR 45.9, is a condition for an automatic grant of authorization to hold interlocking directorates. This automatic authorization is available only to certain types of officers and directors. Finally, a “notice of change,” in accordance with 18 CFR 45.5, is required within 60 days after an officer or director resigns or withdraws from Commission-authorized interlocked positions or if the applicant is not re-elected or reappointed to the interlocked position. However, no notice of change is required if the only change is: (1) A resignation or withdrawal from fewer than all position held between or among affiliated public utilities; (2) a reelection or reappointment to a position that was previously authorized; or (3) holding a different or additional interlocking position that would qualify for automatic authorization under 18 CFR 45.9.

Types of Respondents: Officers and directors of public utilities seeking authorization to hold interlocking directorates.

Estimate of Annual Burden: For full applications, 16 responses annually, and per-response burdens of 50 hours and \$69,600. For informational reports, 500 responses annually, and per-response burdens of 8 hours and \$348,000. For notices of change, 100 responses annually, and per-response burdens of 0.25 of an hour and \$2,175. The total estimated burdens per year are 616 responses, 4,825 hours and \$419,775. These burdens are itemized in the following table:

Number of respondents	Number of respondents	Annual number of responses per respondent	Total number of responses (column A x column B)	Average burden & cost per response ²	Total annual burden hours & total annual cost (column C x column D)	Cost per respondent (column E ÷ column A)
	A	B	C	D	E	F
Full Application	16	1	16	50 hrs.; \$4,350	800 hrs.; \$69,600	\$4,350
Informational Report	500	1	500	8 hrs.; \$696	4,000 hrs.; \$348,000	\$696
Notice of Change	100	1	100	0.25 hrs.; \$21.75 ...	25 hrs.; \$2,175	\$21.75
