

notify the entity that made the CBI claim at least 15 days prior to disclosing the CBI. In addition, under these new provisions, requesters (except in some emergency situations) are required to sign an agreement and may be required to submit a statement of need to EPA.

In accordance with the requirements of TSCA section 14(c)(4)(B), the guidance documents cover the content and form of the agreements and statements required under each provision, and include information on where and how to submit requests to EPA.

Burden statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to annual average 14.8 hours per response. Burden is defined in 5 CFR 1320.3(b).

The ICR, which is available in the docket along with other related materials, provides a detailed explanation of the collection activities and the burden estimate that is only briefly summarized here:

Respondents/Affected Entities: Entities potentially affected by this ICR are mainly government employees (federal, state, local, tribal), as well as medical professionals, such as doctors and nurses. The NAICS code for health care and social assistance is 62.

Respondent's obligation to respond: Voluntary.

Estimated total number of potential respondents: 3.

Frequency of response: On occasion.
Estimated total average number of responses for each respondent: 2.

Estimated total annual burden hours: 89 hours.

Estimated total annual costs: \$5,873.98. This includes an estimated burden cost of \$5,873.98 and an estimated cost of \$0 for capital investment or maintenance and operational costs.

III. Are there changes in the estimates from the last approval?

There is no change in the estimated total annual burden compared with that identified in the ICR currently approved by OMB, but there is an increase in the estimated burden costs and a decrease in the estimated number of total respondents. The change in estimated cost was caused by an increase in the hourly wages and a change in the methodology to calculate loaded wages (wages plus fringe benefits and overhead), and the change in the estimated number of respondents is based on EPA experience. This change is an adjustment.

In addition, this ICR reflects a change in format. OMB has requested that EPA

move towards using the 18-question format for ICR Supporting Statements used by other federal agencies and departments and is based on the submission instructions established by OMB in 1995, replacing the alternate format developed by EPA and OMB prior to 1995. The Agency does not believe that this change in format resulted in substantive changes to the information collection activities or related estimated burden and costs.

IV. What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** document pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**.
