I. Abstract: The National Aeronautics and Space Administration (NASA) is

The NASA Serves the Public to Inspire Reach-Out and Engage (NSPIREHub) is a one-stop, web-based volunteer management system that streamlines communications, recruitment and marketing and enhances reporting and management of official outreach events. The NSPIREHub engages, informs and inspires current docents, employees (civil servants and contractors), interns and qualified members of the general public to share NASA's advancements, challenges and contributions through participation in official outreach (*i.e.* launch support, special events support activities, etc.).

The NSPIREHub utilizes a multiple tiered, role-based NAMS provisioning to empower system administrators to request and collect specific user information for the purpose of coordinating the carrying out of NASA's official outreach activities. These specific purposes include but are not limited to: Facilitating pre-event briefings, onsite and virtual support trainings, shadowing opportunities and assignment scheduling.

The information collected and protected within the NSPIREHub helps to ensure all outreach support team members, prior to serving, are equipped with the tools, skills and confidence necessary to share their stories in alignment with NASA's communication priorities. It also makes possible the efficient reporting of metric data relevant to the impact of official outreach on fulfillment of NASA's responsibilities as related to the Space Act, Section 203.
