Section 37 provides that banks should state clearly the definition of capital used in any aspect of its internal capital adequacy assessment process (ICAAP) and document any changes in the internal definition of capital. Section 41 provides that banks should maintain thorough documentation of its ICAAP. Section 43 specifies that the board of directors

should approve the bank's ICAAP, review it on a regular basis and approve any changes. Section 46 recommends that boards of directors periodically review the assessment of overall capital adequacy and analyze how measures of internal capital adequacy compare with other capital measures such as regulatory or accounting.
