## POSTAL SERVICE

### Privacy Act of 1974; System of Records

**AGENCY:** Postal Service™.

**ACTION:** Notice of modified systems of records.

**SUMMARY:** The United States Postal Service® (Postal Service) is proposing to modify several General Privacy Act Systems of Records (SOR) to support improved communication efforts within USPS Human Resources employee applications or systems, to sponsor and

support a voluntary wellness challenge and program initiative for employees to promote fitness and health, and to reflect recent organizational changes.

**DATES:** These revisions will become effective without further notice on September 17, 2021, unless, in response to comments received on or before that date result in a contrary determination.

**ADDRESSES:** Comments may be submitted via email to the Privacy and Records Management Office, United States Postal Service Headquarters ([privacy@usps.gov](mailto:privacy@usps.gov)). To facilitate public inspection, arrangements to view copies of any written comments received will be made upon request.

**FOR FURTHER INFORMATION CONTACT:** Janine Castorina, Chief Privacy and Records Management Officer, Privacy and Records Management Office, 202–268–3069 or [privacy@usps.gov](mailto:privacy@usps.gov).

**SUPPLEMENTARY INFORMATION:** This notice is in accordance with the Privacy Act requirement that agencies publish their systems of records in the **Federal Register** when there is a revision, change, or addition, or when the agency establishes a new system of records. The Postal Service is proposing revisions to existing systems of records (SOR) to facilitate improved employee communication efforts, to support a voluntary wellness challenge and program initiative for employees, and to update system manager titles consistent with the current organizational structure of the Postal Service.

## I. Background

The Postal Service utilizes a modern integrated Human Resources technology system to help optimize, manage, and develop the Postal Service workforce to meet identified business needs. It contains modules for learning, succession planning, performance evaluation, compensation, recruiting/on-boarding and analytical reporting.

The Postal Service is also developing a voluntary wellness initiative to assist participating employees in achieving their individual wellness goals. The voluntary wellness challenges and programs initiative is designed to provide motivation and enhanced engagement to participating employees that have expressed interest in improving their health or achieving wellness goals through the use of individual or team challenges and related wellness programs.

The wellness initiative will track and report challenge activities and summarize outcomes during each program cycle period using anonymous designations for individual employees. For example, participant alias names

will be used in all wellness program dashboard participant input and activity reporting to protect the privacy of individuals. In addition, at the end of each program cycle, top tier final results and/or random prize winners (when applicable) will be reported only after obtaining individual employee permission.

## II. Rationale for Changes to USPS Privacy Act Systems of Records

The Postal Service is proposing modifications to USPS SOR 100.000, General Personnel Records, USPS SOR 100.100, Recruiting, Examining, and Placement Records, USPS SOR 100.300, Employee Development and Training Records and USPS SOR 100.400, Personnel Compensation and Payroll Records to facilitate improved communication to employees. Human Resources requires the need to capture and store an employee's personal email and phone number for both pre-hire and after the effective date of the appointment in order to:

Communicate relevant Human Resource information to employees.

Communicate with employees about human resource related topics, employment, and gather feedback through surveys. Communicate with employees regarding training assignments and requirements both prior to and after effective date of employment or placement.

New purposes are also being added to SOR 100.300, Employee Development and Training Records to reflect enhanced capabilities and functionality for the USPS career learning and development portal. This portal provides a collaborative employee forum that promotes information sharing and cross-functional participation. Opportunities are also provided for sharpening professional skills and abilities, along with personal development.

New purposes are being added to SOR 100.400, Personnel Compensation and Payroll Records, in support of both improved communication efforts and the Voluntary Wellness Challenge and Program initiative described above. In addition, Categories of Records, Source Record Categories and Retention time for records related to the Wellness Challenge and Program participation are being modified to support the initiative and align with two new purposes for program administration, along with tracking activities and reporting summary results.

Finally, the Postal Service is proposing administrative changes for system managers within the four SORs

<sup>1</sup> See Docket No. RM2018–3, Order Adopting Final Rules Relating to Non-Public Information, June 27, 2018, Attachment A at 19–22 (Order No. 4679).

included in this **Federal Register** Notice to reflect recent organizational changes.

### III. Description of the Modified Systems of Records

#### ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:

Paper records, computers, and computer storage media are located in controlled-access areas under supervision of program personnel. Access to these areas is limited to authorized personnel, who must be identified with a badge.

Access to records is limited to individuals whose official duties require such access. Contractors and licensees are subject to contract controls and unannounced on-site audits and inspections.

Computers are protected by mechanical locks, card key systems, or other physical access control methods. The use of computer systems is regulated with installed security software, computer logon identifications, and operating system controls including access controls, terminal and transaction logging, and file management software.

For the voluntary employee wellness initiative, employees will create their own profile and enter their own challenge activity progress. Employees without access to U.S. Postal Service computers and employees voluntarily participating in the weight loss challenges may opt-in to a manual process to have their profile created and entries updated by a designated wellness challenge coordinator for their geographic location.

Participant alias names will be used in all wellness program dashboard participant input and activity reporting to protect the privacy of individuals. In addition, weight loss challenge dashboards will only display the percentage of weight loss for the employee by alias names, rather than actual weights.

#### RECORD ACCESS PROCEDURES:

Requests for access must be made in accordance with the Notification Procedure above and USPS Privacy Act regulations regarding access to records and verification of identity under 39 CFR 266.5.

#### CONTESTING RECORD PROCEDURES:

See Notification Procedure and Record Access Procedures above.

#### EXEMPTIONS PROMULGATED FOR THE SYSTEM:

Records in this system relating to injury compensation that have been compiled in reasonable anticipation of a civil action or proceeding are exempt from individual access as permitted by 5 U.S.C. 552a(d)(5). The USPS has also claimed exemption from certain provisions of the Act for several of its other systems of records at 39 CFR 266.9. To the extent that copies of exempted records from those other systems are incorporated into this system, the exemptions applicable to the original primary system continue to apply to the incorporated records.
