DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[RTID 0648-XB341]

Endangered and Threatened Species; Take of Anadromous Fish

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), U.S. Department of Commerce.

ACTION: Notice of receipt.

SUMMARY: Notice is hereby given that NMFS has received an application from Stillwater Sciences to renew their U.S. Endangered Species Act (ESA) scientific enhancement permit (permit 20085-2R) involving invasive species removal from a southern California watershed (Chorro Creek) in San Luis Obispo County. Proposed activities within the permit application are expected to affect the threatened South Central California Coast (SCCC) Distinct Population Segment (DPS) of steelhead (*Oncorhynchus mykiss*). The public is hereby notified that the application for Permit 20085-2R is available for review and comment before NMFS either approves or disapproves the application.

DATES: Written comments on the permit application must be received at the appropriate email address (see

ADDRESSES) on or before September 20, 2021.

ADDRESSES: Written comments on the permit application should be submitted to NMFS' section 10(a)1(A) steelhead permit coordinator for southern California, Matt McGoogan, via email (matthew.mcgoogan@noaa.gov). The permit application is available for review online at the Authorizations and Permits for Protected Species website: https://apps.nmfs.noaa.gov/preview/preview_open_for_comment.cfm.

FOR FURTHER INFORMATION CONTACT: Matt McGoogan (phone: 562 980-4026; email: matthew.mcgoogan@noaa.gov).

SUPPLEMENTARY INFORMATION:

ESA-Listed Species Covered in This Notification

Threatened South Central California Coast Distinct Population Segment of steelhead (*Oncorhynchus mykiss*).

Authority

Scientific research and enhancement permits are issued in accordance with section 10(a)(1)(A) of the ESA (16 U.S.C. 1531 *et seq.*) and regulations governing listed fish and wildlife permits (50 CFR 222-227). NMFS issues permits based on findings that such permits: (1) Are applied for in good faith, (2) would not operate to the disadvantage of the listed species, which are the subject of the permits, and (3) are consistent with the purposes and policies set forth in section 2 of the ESA. Authority to take listed species is subject to conditions set forth in the permits.

This notification is provided pursuant to section 10(c) of the ESA. NMFS will evaluate the application, associated documents, and any comment submitted to determine whether the application meets the requirements of section 10(a) of the ESA and Federal regulations. The final permit decisions will not be made until after the end of the 30-day comment period and consideration of any comment submitted therein. NMFS will publish notification of the final action on the subject permit application in the **Federal Register**.

Those individuals requesting a hearing on the application listed in this notification should provide the specific reasons why a hearing on the application would be appropriate (see **ADDRESSES**). Such a hearing is held at the discretion of the Assistant Administrator for Fisheries, NOAA.

All statements and opinions contained in the permit action summary are those of the applicant and do not necessarily reflect the views of NMFS.

Permit Application Received:

Permit 20085-2R

Stillwater Sciences (environmental consulting firm) has applied to renew their section 10(a)1(A) scientific enhancement permit (permit 20085-2R) involving an invasive species management effort focused on the removal of Sacramento pikeminnow (*Ptychocheilus grandis*) from the Chorro Creek watershed in San Luis Obispo County, California. The primary objectives of this effort involve: (1) Determining the distribution, abundance, size, and age structures of both pikeminnow and SCCC steelhead; (2) suppressing or eliminating pikeminnow from the watershed; (3) developing a plan for long-term pikeminnow management in the watershed; and (4) documenting changes in SCCC steelhead abundance and distribution in response to pikeminnow removal. Proposed enhancement activities include: (1) Conducting snorkel surveys to assess abundance and distribution of pikeminnow and SCCC steelhead; (2) using backpack electrofishing equipment, seine-nets, hook-and-line sampling, and spearfishing to capture pikeminnow; (3) anesthetizing any juvenile steelhead captured during electrofishing and seining activities prior to measuring weight and length; (4) returning any captured steelhead to Chorro Creek; and (5) humanely euthanizing and disposing of pikeminnow. Field activities for the proposed enhancement effort will occur during the summer and fall for ten years between October 2021, and December 2031. The annual take Stillwater Sciences is requesting for this effort is as follows: (1) Non-lethal capture and release of up to 1,500 juvenile steelhead while electrofishing, (2) non-lethal capture and release of up to 150 juvenile steelhead while seining, (3) non-lethal capture and release up to 10 juvenile steelhead while hook-and-line fishing, and (4) non-lethal observation of up to 2000 juvenile and 10 adult steelhead during instream snorkel surveys. The potential annual unintentional lethal take resulting from the proposed enhancement activities is up to 33 juvenile steelhead. Overall, no intentional lethal take of steelhead is proposed or expected as a result of these enhancement activities.

This proposed scientific enhancement effort is expected to support steelhead recovery in the Chorro Creek watershed and is consistent with recommendations and objectives outlined in NMFS' South Central California Steelhead Recovery Plan. See the application for Permit 20085-2R for greater details on the

scientific enhancement proposal and related methodology.

Dated: August 16, 2021.

Angela Somma,

Chief, Endangered Species Division, Office of Protected Resources, National Marine Fisheries Service.

[RTID 0648-XB342]

Pacific Fishery Management Council; Public Meetings

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meetings.

SUMMARY: The Pacific Fishery Management Council's (Pacific Council) and its advisory entities will hold online public meetings.

DATES: The Pacific Council and its advisory entities will meet online September 8–11 and 13–15, 2021, noting there will be no meetings held on Sunday, September 12, 2021. The Pacific Council meeting will begin on Thursday, September 9, 2021, at 8 a.m. Pacific Daylight Time (PDT), reconvening at 8 a.m. on Friday, September 10 through Saturday, September 11, 2021. The Council will reconvene Monday, September 13, through Wednesday, September 15. All meetings are open to the public, except for a Closed Session held from 8 a.m. to 10 a.m., Thursday, September 9, to address litigation and personnel matters. The Pacific Council will meet as late as necessary each day to complete its scheduled business.

ADDRESSES: Meetings of the Pacific Council and its advisory entities will be webinar only. Specific meeting information, including directions on joining the meeting, connecting to the live stream broadcast, and system requirements will be provided in the meeting announcement on the Pacific Council's website (see www.pcouncil.org). You may send an email to Mr. Kris Kleinschmidt (kris.kleinschmidt@noaa.gov) or contact him at (503) 820-2412 for technical assistance.

Council address: Pacific Fishery Management Council, 7700 NE Ambassador Place, Suite 101, Portland, OR 97220-1384.

FOR FURTHER INFORMATION CONTACT: Mr. Chuck Tracy, Executive Director, Pacific Council; telephone: (503) 820-2415 or (866) 806-7204 toll-free, or access the Pacific Council website, www.pcouncil.org for the proposed agenda and meeting briefing materials.

SUPPLEMENTARY INFORMATION: The September 9–11 and 13–15, 2021 meeting of the Pacific Council will be streamed live on the internet. The broadcasts begin initially at 10 a.m. PDT Thursday, September 9, 2021, and continue at 8 a.m. Friday, September 10 through Wednesday, September 15, 2021, except no meetings are scheduled for Sunday, September 12. Broadcasts end when business for the day is complete. Only the audio portion and presentations displayed on the screen at the Pacific Council meeting will be broadcast. The audio portion for the public is listen-only except that an opportunity for oral public comment will be provided prior to Council Action on each agenda item. Additional information and instructions on joining or listening to the meeting can be found on the Pacific Council's website (see www.pcouncil.org).

The following items are on the Pacific Council agenda, but not necessarily in this order. Agenda items noted as "Final Action" refer to actions requiring the Council to transmit a proposed fishery management plan, proposed plan amendment, or proposed regulations to the U.S. Secretary of Commerce, under Sections 304 or 305 of the Magnuson-Stevens Fishery Conservation and Management Act. Additional detail on agenda items, Council action, and advisory entity meeting times, are described in Agenda Item A.5, Proposed Council Meeting Agenda, and will be in the advance September 2021 briefing materials and posted on the Pacific Council website at www.pcouncil.org no later than Friday, August 20, 2021.

A. Call to Order

1. Opening Remarks
2. Council Member Appointments
3. Roll Call
4. Executive Director's Report
5. Approve Agenda

B. Open Comment Period

1. Comments on Non-Agenda Items

C. Groundfish Management

1. National Marine Fisheries Service Report
2. Stock Assessment Methodology Review
3. Pacific Whiting Utilization in the At-Sea Sectors
4. Electronic Monitoring—Final Action
5. Sablefish Gear Switching
6. Adopt Stock Assessments

7. Inseason Adjustments—Final Action

8. Initial Harvest Specifications and Management Measure Actions for 2023–24 Management

D. Highly Migratory Species Management

1. National Marine Fisheries Service Report
2. International Management Activities
3. Exempted Fishing Permits

E. Administrative Matters

1. Marine Planning
2. Fiscal Matters
3. Legislative Matters
4. Approval of Council Meeting Record
5. Standardized Bycatch Reporting Methodology
6. Membership Appointments and Council Operating Procedures
7. Future Council Meeting Agenda and Workload Planning

F. Salmon Management

1. National Marine Fisheries Service Report
2. Methodology Review—Final Topic Selection
3. Southern Oregon/Northern California Coast Coho Endangered Species Act Consultation

G. Pacific Halibut Management

1. 2022 Catch Sharing Plan and Annual Regulations
2. Commercial-Directed Fishery Regulations for 2022

H. Ecosystem Management

1. Fishery Ecosystem Plan Five-Year Review
2. Climate and Communities Initiative

I. Habitat Issues

1. Current Habitat Issues

Advisory Body Agendas

Advisory body agendas will include discussions of relevant issues that are on the Pacific Council agenda for this meeting and may also include issues that may be relevant to future Council meetings. Proposed advisory body agendas for this meeting will be available on the Pacific Council website www.pcouncil.org no later than Friday, August 20, 2021.

Schedule of Ancillary Meetings

Day 1—Wednesday, September 8, 2021

Coastal Pelagic Species Advisory Subpanel 8 a.m.
Enforcement Consultants 8 a.m.
Groundfish Advisory Subpanel 8 a.m.
Groundfish Management Team 8 a.m.
Habitat Committee 8 a.m.
Scientific and Statistical Committee 8 a.m.
Budget Committee 10 a.m.
Legislative Committee 1 p.m.
