

individuals in the areas of expertise described above. Nominations should be submitted in electronic format to ERG via email: [peerreview@erg.com](mailto:peerreview@erg.com) (subject line: EPA PFAS assessments peer review). To receive full consideration, nominations should include all of the information requested below. ERG requests contact information about the person making the nomination; contact information about the nominee; the nominee's disciplinary and specific areas of expertise; the nominee's resume or curriculum vitae; sources of recent grant and/or contract support; and a biographical sketch of the nominee indicating current position, educational background, research activities, and recent service on other national advisory committees or national professional organizations. Persons having questions about the nomination procedures, or who are unable to submit nominations via email, should contact Laurie Waite, ERG, as noted above. ERG will acknowledge receipt of nominations. The names and biosketches of qualified nominees identified by respondents to this **Federal Register** Notice along with additional experts identified by ERG will be posted on the IRIS website and will be available for public comment. The process for public comment on the pool of nominees will be announced in a subsequent **Federal Register** Notice, on the IRIS website, and through the IRIS Listserv.

### Cross-Media Electronic Reporting: Authorized Program Revision Approval, Gila River Indian Community

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** This notice announces EPA's approval of the Gila River Indian Community's request to revise/modify certain of its EPA-authorized programs to allow electronic reporting.

**DATES:** EPA approves the authorized program revisions/modifications as of August 23, 2021.

**FOR FURTHER INFORMATION CONTACT:**

Shirley M. Miller, U.S. Environmental Protection Agency, Office of Information

Management, Mail Stop 2824T, 1200 Pennsylvania Avenue NW, Washington, DC 20460, (202) 566-2908, [miller.shirley@epa.gov](mailto:miller.shirley@epa.gov).

**SUPPLEMENTARY INFORMATION:** On October 13, 2005, the final Cross-Media Electronic Reporting Rule (CROMERR) was published in the **Federal Register** (70 FR 59848) and codified as part 3 of title 40 of the CFR. CROMERR establishes electronic reporting as an acceptable regulatory alternative to paper reporting and establishes requirements to assure that electronic documents are as legally dependable as their paper counterparts. Subpart D of CROMERR requires that state, tribal or local government agencies that receive, or wish to begin receiving, electronic reports under their EPA-authorized programs must apply to EPA for a revision or modification of those programs and obtain EPA approval. Subpart D provides standards for such approvals based on consideration of the electronic document receiving systems that the state, tribe, or local government will use to implement the electronic reporting. Additionally, section 3.1000(b) through (e) of 40 CFR part 3, subpart D provides special procedures for program revisions and modifications to allow electronic reporting, to be used at the option of the state, tribe or local government in place of procedures available under existing program-specific authorization regulations. An application submitted under the subpart D procedures must show that the state, tribe or local government has sufficient legal authority to implement the electronic reporting components of the programs covered by the application and will use electronic document receiving systems that meet the applicable subpart D requirements.

On March 12, 2021, the Gila River Indian Community (GRIC) submitted an application titled IMPACT for revisions/modifications to its EPA-approved programs under title 40 CFR to allow new electronic reporting. EPA reviewed GRIC's request to revise/modify its EPA-authorized programs and, based on this review, EPA determined that the application met the standards for approval of authorized program revisions/modifications set out in 40 CFR part 3, subpart D. In accordance with 40 CFR 3.1000(d), this notice of EPA's decision to approve GRIC's request to revise/modify its following EPA-authorized programs to allow electronic reporting under 40 CFR is being published in the **Federal Register**:

Part 52: Approval and Promulgation of Implementation Plans (SIP/Clean Air

Act Title II) Reporting under CFR 50-52

Part 60: Standards of Performance for New Stationary Sources (NSPS/CAR/Clean Air Act Title III) Reporting under CFR 60 & 65

Part 63: National Emission Standards for Hazardous Air Pollutants for Source Categories (NESHAP MACT/Clean Air Act Title III) Reporting under CFR 61, 63 & 65

Part 70: State Operating Permit Programs (Clean Air Act Title V) Reporting under CFR 64 & 70

GRIC was notified of EPA's determination to approve its application with respect to the authorized programs listed above.

Dated: August 10, 2021.

### Chemical Data Reporting; Guidance for Preparing and Submitting a Petition; Notice of Availability

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** The Environmental Protection Agency (EPA) is announcing the availability of and soliciting public comment on guidance on the processes applicable to the Toxic Substances Control Act (TSCA) Chemical Data Reporting (CDR) regulations: Petitions for full exemption of byproduct substances that are recycled or otherwise used within site-limited, physically enclosed systems and Petitions for partial exemption of chemicals for which the CDR processing and use information has been determined to be of "low current interest" by the Agency. This guidance is designed to elucidate the process and requirements of CDR-specific petitions and is consistent with both existing regulations and guidance. The CDR regulations require manufacturers (including importers) of certain chemical substances included on the TSCA Chemical Substance Inventory (TSCA Inventory) to report data on the manufacturing, processing, and use of the chemical substances.

**DATES:** Comments must be received on or before December 21, 2021.
