Title: FCC Authorization for Radio Service License—3.45 GHz Band Service.

Form Number: N/A.

Type of Review: New collection.

Respondents: Business or other for-profit entities, state, local, or tribal government, and not for profit institutions.

Number of Respondents and Responses: 56 respondents, 8,201 responses.

Estimated Time per Response: 5–20 hours.

Frequency of Response: Third party disclosure requirement; on occasion reporting requirement and periodic reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for these collections are contained in 47 U.S.C. 151, 152, 154, 154(i), 155(c), 157, 201, 202, 208, 214, 301, 302a, 303, 307, 308, 309, 310, 311, 314, 316, 319, 324, 331, 332, 333, 336, 534, 535, and 554 of the Communications Act of 1934.

Total Annual Burden: 9,200 hours.

Total Annual Cost: \$10,353,000.

Needs and Uses: On March 17, 2021, the Federal Communications Commission (“Commission” or “FCC”) adopted a Second Report and Order, FCC 21–32, GN Docket No. WT–19–348 (Second Report and Order) that establishes rules for flexible-use wireless access to the 100 megahertz in the 3450–3550 MHz (3.45 GHz) band, creating the new 3.45 GHz Service. The rules will create additional capacity for wireless broadband allowing full-power operations across the band in the entire contiguous United States, while also ensuring full protection of incumbent Federal operations remaining in particular locations. As part of this process, the Commission also adopted rules related to the relocation of incumbent non-Federal radiolocation operations, the selection of a third-party reimbursement clearinghouse, and reimbursement of expenses related to such relocation.

Sections 2.016 and 27.1603 require a 3.45 GHz Service licensee whose license area overlaps with a Cooperative Planning Area or Periodic Use Area, as defined in those sections, to coordinate deployments pursuant to those licenses in those areas with relevant Federal agencies. This coordination may take the form of a mutually acceptable operator-to-operator coordination

agreement between the licensee and the relevant Federal agency. In the absence of such an agreement, this coordination will include a formal request for access through a Department of Defense online portal, which will include the submission of information related to the technical characteristics of the base stations and associated mobile units to be used in the covered area. It does not require a revision to the FCC Form 601.

Section 27.1605 provides for the selection of a reimbursement clearinghouse and requires non-Federal, secondary radiolocation operations which are relocating from the 3.45 GHz band to alternate spectrum to clear the band for new flexible-use wireless operations to submit certain information to the clearinghouse in order to ensure their relocation costs are fairly reimbursed. It does not require a revision to the FCC Form 601.

Section 27.1607 requires 3.45 GHz Service licensees to share certain information about their network operations in that band with operators in the adjacent Citizens Broadband Radio Service in order to enable the latter to synchronize their operations to reduce the risk of harmful interference. In response to a request by a Citizens Broadband Radio Service operator, a 3.45 GHz Service licensee must provide information to enable Time Division Duplex synchronization. The exact nature of the information to be provided will be determined by a negotiation between the two entities, conducted on a good faith basis. The 3.45 GHz Service licensee must keep the information current as its network operations change. This does not require a revision to the FCC Form 601.

Section 27.14(w) requires 3.45 GHz Service licensees to provide information on the extent to which they provide service in their license areas. Licensees are required to file two such reports: The first four (4) years after its initial license grant and the second eight (8) years after such grant, unless they failed to meet the first set of performance requirements, in which case the second report is due seven (7) years after the initial grant. These reports are filed alongside the Form 601 and require no revisions to it.
