SUPPLEMENTARY INFORMATION:

I. Abstract

The Annual Survey of Foreign Ocean Carriers' Expenses in the United States (BE–29) collects data from U.S. agents of foreign ocean carriers that handled 40 or more foreign ocean carrier port calls during the year, or had total covered expenses of \$250,000 or more during the year for all foreign ocean vessels handled by the U.S. agent.

The data are needed monitor trade in transport services, to analyze the impact of U.S. trade on the U.S. and foreign economies, to compile and improve the

U.S. economic accounts, to support U.S. commercial policy on trade in transport services, to conduct trade promotion, and to improve the ability of U.S. businesses to identify and evaluate market opportunities. The data are used in estimating the transport services component of the U.S. international transactions accounts (ITAs) and national income and product accounts (NIPAs).

The Bureau of Economic Analysis (BEA) is proposing no additions or modifications to the information collected on the current BE–29. The language in the instructions and definitions will be reviewed and adjusted as necessary to clarify survey requirements.

BEA proposes to change the due date of the survey to 45 days after the close of each year from 90 days, beginning with the reporting period for the 2021 year, which will be collected in 2022. Shortening the reporting timeline will allow BEA to produce more accurate and complete trade in transport services statistics in the ITAs, which is critical information for policymakers' timely decisions on international trade policy. The earlier due date will allow BEA to validate the data and integrate it into the statistics in time for the annual update of the ITAs, improving the accuracy of both the aggregates and the country detail and reducing revisions in subsequent statistical releases.

BEA estimates there will be no change in the average number of burden hours per response, which is currently estimated to be 3 hours. The language in the instructions and definitions will be reviewed and adjusted as necessary to clarify survey requirements.

II. Method of Collection

BEA contacts potential respondents by mail in December of the preceding year. Respondents would be required to file the completed BE–29 forms within 45 days after the end of the year. Reports will be required from U.S. agents of foreign ocean carriers that handled 40 or more foreign ocean carrier port calls during the year or had covered expenses of \$250,000 or more during the year for all foreign ocean vessels handled by the U.S. agent. Entities required to report will be contacted individually by BEA. Entities not contacted by BEA have no reporting responsibilities.

BEA offers its electronic filing option, the eFile system, for use in reporting on Form BE–29. For more information about eFile, go to www.bea.gov/efile. In addition, BEA posts all its survey forms and reporting instructions on its website, www.bea.gov/ssb. These may

be downloaded, completed, printed, and submitted via fax or mail.
