DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2012-0024]

Petition for Extension of Waiver of Compliance

Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that on August 10, 2021, the Everett Railroad Company (EV) petitioned the Federal Railroad Administration (FRA) for an extension of a special approval/waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR parts 215 (Railroad Freight Car Safety Standards), 223 (Safety Glazing Standards—Locomotives, Passenger Cars and Caboosees), and 224 (Reflectorization of Rail Freight Rolling Stock). The relevant FRA Docket Number is FRA-2012-0024.

Specifically, EV requested to extend its special approval pursuant to 49 CFR 215.203, *Restricted cars*, for one caboose (EV 91517) that is more than 50 years from the date of original construction. EV also requests to extend its existing relief from 49 CFR 215.303, *Stenciling of restricted cars*; 223.15, *Requirements for existing cabooses*; and 224.101, *General requirements*. In support of its request, EV states that the relief would allow the caboose's historical appearance to be preserved for excursion, historical, and public relations purposes, and that installing FRA-certified glazing would be costly and difficult.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov.

Interested parties are invited to participate in these proceedings by

submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment and a public hearing, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

Petition for Waiver of Compliance

Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that on August 16, 2021, the Steam Locomotive Heritage Association (SLHA) petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR 230.16, *Annual inspection*. FRA assigned the petition Docket Number FRA–2021–0086.

Specifically, SLHA requested relief for steam locomotive #1003, which is owned by 1003 Operations, LLP, and leased to SLHA to use for educational purposes. SLHA requests that #1003's annual inspection be delayed from its current due date of October 17, 2021, to December 31, 2021, so SLHA can use #1003 in several planned events during the month of November. In support of its request, SLHA states that #1003 would accumulate a total of 12 service days and 178 miles traveled since the previous annual inspection on October 17, 2020.
