

status of R&D must be known and analyzed. Without comprehensive business R&D statistics, it would be impossible to evaluate the health of science and technology in the United States or to make comparisons between the technological progress of our country and that of other nations.

BERD is a joint statistical project between the National Center for Science and Engineering Statistics (NCSES) within the National Science Foundation (NSF) and the Census Bureau.

NCSES has published annual R&D statistics collected from the Survey of Industrial Research and Development (1953–2007), the Business R&D and Innovation Survey (2008–2016), the Business Research and Development Survey (2017 and 2018), and the Business Enterprise Research and Development Survey (2019 and 2020) for 67 years. The results of the surveys are used to assess trends in R&D expenditures by industry sector, investigate productivity determinants, formulate science and tax policy, and compare individual company performance with industry averages. This survey is the Nation's primary source for international comparative statistics on business R&D spending.

BERD will continue to collect the following types of information:

- R&D expense based on accepted accounting standards.
- Worldwide R&D of domestic companies.
- Business segment detail.
- R&D related capital expenditures.
- Detailed data about the R&D workforce.
- R&D strategy and data on the potential impact of R&D on the market.

Beginning in 2020, in an effort to reduce burden, BERD began rotating select content off the survey in alternating years. In 2020, questions related to detail of R&D performed by others, activities with academia, industries of business and specific federal agency funding R&D, and areas of application for R&D were removed from BERD. In 2021, all of those questions will be reintroduced to the survey and the Intellectual Property and Technology Transfer Section will be removed from the survey. BERD plans to continue rotating this content in alternating years.

Beginning in 2021, the BERD will revise its existing Capital Expenditures section to collect additional information on assets. Cognitive testing on these questions conducted by the Census Bureau in 2018 revealed that these questions pose no substantive impact on burden (the data requested are all readily available in most companies'

books) and would provide context on capital stock of R&D active companies not currently available in any other data source. After collecting two consecutive years of data (for 2021 and 2022), BERD plans to collect the additional assets questions in alternating years, similar to the other rotating content. So, in 2023, BERD would have the smaller [previously collected] Capital Expenditures section, and in 2024 would reinstate the more robust Assets section and so on.

Information from BERD will continue to support NCSES' responsibility to collect information on Research and Development for overall support for Federal policy discussions, as required under the America COMPETES Reauthorization Act of 2010.

Policy officials from many Federal agencies rely on these statistics for essential information. Businesses and trade organizations rely on BERD data to benchmark their industry's performance against others. For example, total U.S. R&D expenditures statistics are used by the Bureau of Economic Analysis (BEA) for incorporating R&D as fixed investment in updates to the National Income and Product Accounts (NIPAs). Also, NCSES, BEA and the Census Bureau periodically seek to use BERD data to augment global R&D investment information that is obtained from BEA's Foreign Direct Investment (FDI) and U.S. Direct Investment Abroad (USDIA) surveys. Further, the Census Bureau links data collected by BERD with other statistical files. At the Census Bureau, historical company-level R&D data are linked to a file that contains information on the outputs and inputs of companies' manufacturing plants. Researchers can analyze the relationships between R&D funding and other economic variables by using micro-level data.

Individuals and organizations access the survey statistics via the internet in annual InfoBriefs published by NCSES that announce the availability of statistics from each cycle of BERD and detailed statistical table reports that contain all of the statistics NCSES produces from BERD. Information about the kinds of projects that rely on statistics from BERD is available from internal records of Census' Center for Economic Studies. In addition, survey statistics are regularly cited in trade publications and many researchers use the survey statistics from these secondary sources without directly contacting NCSES or the Census Bureau.

Affected Public: Business or other for-profit organizations.

Frequency: Annually.

Respondent's Obligation: Mandatory.

Legal Authority: The survey is conducted under the authority of Title 13, United States Code, Sections 8(b), 131, and 182; Title 42, United States Code, Sections 1861–76 (National Science Foundation Act of 1950, as amended); and Section 505 within the America COMPETES Reauthorization Act of 2010.

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function and entering either the title of the collection or the OMB Control Number 0607–0912.

BILLING CODE 3510–07–P

DEPARTMENT OF COMMERCE

Census Bureau

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Current Population Survey, Annual Social and Economic Supplement

AGENCY: U.S. Census Bureau, Commerce.

ACTION: Notice of information collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act (PRA) of 1995, invites the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public comment on the proposed revision of the Annual Social and Economic Supplement (ASEC) to the Current Population Survey, prior to the submission of the information collection request (ICR) to OMB for approval.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before November 2, 2021.

ADDRESSES: Interested persons are invited to submit written comments by email to the Current Population Surveys Branch email address at dsd.cps@census.gov. Please reference the Annual Social and Economic Supplement (ASEC) in the subject line of your comments. You may also submit comments, identified by Docket Number USBC-2021-0021, to the Federal e-Rulemaking Portal: <http://www.regulations.gov>. All comments received are part of the public record. No comments will be posted to <http://www.regulations.gov> for public viewing until after the comment period has closed. Comments will generally be posted without change. All Personally Identifiable Information (for example, name and address) voluntarily submitted by the commenter may be publicly accessible. Do not submit Confidential Business Information or otherwise sensitive or protected information. You may submit attachments to electronic comments in Microsoft Word, Excel, or Adobe PDF file formats.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or specific questions related to collection activities should be directed to Lisa Cheok, U.S. Census Bureau, (301) 763-3806 (or via the internet at dsd.cps@census.gov).

SUPPLEMENTARY INFORMATION:

I. Abstract

The Census Bureau plans to request clearance from the Office of Management and Budget (OMB) for the collection of data concerning the Annual Social and Economic Supplement (ASEC) to be conducted in conjunction with the February, March, and April Current Population Survey (CPS). The Census Bureau and the Bureau of Labor Statistics sponsor this supplement, which had its beginnings in 1942. This collection is authorized under Title 13, United States Code, Sections 141 and 182; and Title 29, United States Code, Sections 1-9. The current clearance expires December 31, 2021. The ASEC data collection questions remain largely unchanged from its most recent collection in 2021, however, there are minor changes and additions requested. The changes are limited to questions on stimulus payments, free and reduced price school lunch, pandemic school meals, and advanced child tax credit payments.

Information on work experience, personal income, noncash benefits, current and previous year health insurance coverage, employer-sponsored insurance take-up, and migration is collected through the ASEC. The work experience items in the ASEC provide a unique measure of the dynamic nature of the labor force as viewed over a one-year period. These items produce statistics that show movements in and out of the labor force by measuring the number of periods of unemployment experienced by people, the number of different employers worked for during the year, the principal reasons for unemployment, and part-/full-time attachment to the labor force. We can make indirect measurements of discouraged workers and others with a casual attachment to the labor market.

The income data from the ASEC are used by social planners, economists, government officials, and market researchers to gauge the economic well-being of the country as a whole, and selected population groups of interest. Government planners and researchers use these data to monitor and evaluate the effectiveness of various assistance programs. Market researchers use these data to identify and isolate potential customers. Social planners use these data to forecast economic conditions and to identify special groups that seem to be especially sensitive to economic fluctuations. Economists use ASEC data to determine the effects of various economic forces, such as inflation, recession, recovery, and so on, and their differential effects on various population groups.

The ASEC is the official source of national poverty estimates calculated in accordance with the Office of Management and Budget's Statistical Policy Directive 14. Two other important national estimates derived from the ASEC are real median household income and the number and percent of individuals without health insurance coverage.

The ASEC also contains questions related to: (1) Medical expenditures; (2) presence and cost of a mortgage on property; (3) child support payments; and (4) amount of child care assistance received. These questions enable analysts and policymakers to obtain better estimates of family and household income, and more precisely gauge poverty status.

II. Method of Collection

The ASEC information will be collected by both personal visit and telephone interviews in conjunction with the regular February, March and

April CPS interviewing. All interviews are conducted using computer-assisted interviewing.

III. Data

OMB Control Number: 0607-0354.

Form Number(s): None.

Type of Review: Regular submission. Revision of a Currently Approved Collection.

Affected Public: Households.

Estimated Number of Respondents: 78,000.

Estimated Time per Response: 25 minutes.

Estimated Total Annual Burden Hours: 32,500.

Estimated Total Annual Cost to Public: \$0 (This is not the cost of respondents' time, but the indirect costs respondents may incur for such things as purchases of specialized software or hardware needed to report, or expenditures for accounting or records maintenance services required specifically by the collection.)

Respondent's Obligation: Voluntary.

Legal Authority: Title 13, United States Code, Sections 141 and 182; and Title 29, United States Code, Sections 1-9.

IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have practical utility; (b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include, or summarize, each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we

cannot guarantee that we will be able to do so.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Chief Information Officer, Commerce Department.

DEPARTMENT OF COMMERCE

Economic Development Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Requirements for Approved Construction Investments

AGENCY: Economic Development Administration, Department of Commerce.

ACTION: Notice of information collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public comment preceding submission of the collection to OMB.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before November 2, 2021.

ADDRESSES: Interested persons are invited to submit written comments to Sydney Milner, Program Analyst, Performance, Research and National Technical Assistance Division, Economic Development Administration, U.S. Department of Commerce, via email at smilner@eda.gov. You may also submit comments to PRAcomments@doc.gov. Please reference OMB Control Number 0610-0096 in the subject line of your comments. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or specific questions related to collection activities should be directed to Sydney Milner, Program Analyst, Performance, Research and National Technical Assistance Division, Economic Development Administration, U.S. Department of Commerce, via email at

smilner@eda.gov via phone at (202) 365-4040.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Economic Development Administration (EDA) leads the Federal economic development agenda by promoting innovation and competitiveness, preparing American regions for growth and success in the worldwide economy. Guided by the basic principle that sustainable economic development should be locally-driven, EDA works directly with communities and regions to help them build the capacity for economic development based on local business conditions and needs. The Public Works and Economic Development Act of 1965 (PWEDA) (42 U.S.C. 3121 *et seq.*) is EDA's organic authority and is the primary legal authority under which EDA awards financial assistance. Under PWEDA, EDA provides financial assistance to both rural and urban distressed communities by fostering entrepreneurship, innovation, and productivity through investments in infrastructure development, capacity building, and business development to attract private capital investments and new and better jobs to regions experiencing economic distress. Further information on EDA programs and financial assistance opportunities can be found at www.eda.gov.

To effectively administer and monitor its economic development assistance programs, EDA collects certain information from applications for, and recipients of, EDA investment assistance. EDA may award assistance for construction projects through its Public Works and Economic Adjustment Assistance (EAA) programs. Public Works program investments help support the construction or rehabilitation of essential public infrastructure and facilities necessary to generate or retain private sector jobs and investments, attract private sector capital, and promote vibrant economic ecosystems, regional competitiveness, and innovation. The EAA program provides a wide range of technical, planning, and infrastructure assistance in regions experiencing adverse economic changes that may occur suddenly or over time.

EDA seeks comments from the public and other Federal agencies on a proposed revision and extension of the series of checklists and templates that constitute EDA's post-approval tool for construction projects. These checklists and templates, as well as any special conditions incorporated into the terms and conditions at the time of award,

supplement the requirements that apply to EDA-funded construction projects.

II. Method of Collection

The checklists and templates are collected via both paper and electronic submissions. These checklists and templates, as well as any special conditions incorporated into the terms and conditions at the time of award, supplement the requirements that apply to EDA-funded construction projects.

As a part of this renewal process, EDA plans to make clarifying edits to the series of checklists and templates, thereby facilitating timely completion by the award recipient and approval by EDA. None of the edits are expected to increase the time burden on the respondent nor do the modifications change the type of collected information.

III. Data

OMB Control Number: 0610-0096.

Form Number(s): None.

Type of Review: Regular submission; Revision and extension of a currently approved collection.

Affected Public: Recipients of EDA construction (Public Works or Economic Assistance Adjustment) awards, including (1) cities or other political subdivisions of a state, including a special purpose unit of state or local government engaged in economic or infrastructure development activities, or a consortium of political subdivisions; (2) states; (3) institutions of higher education or a consortium of institutions of higher education; (4) public or private non-profit organizations or associations; (5) District Organizations; and (6) Indian Tribes or a consortia of Indian Tribes.

Estimated Number of Respondents: 3,500.

Estimated Time per Response: 2 hours.

Estimated Total Annual Burden Hours: 7,000 hours.

Estimated Total Annual Cost to Public: \$407,330 (cost assumes application of U.S. Bureau of Labor Statistics first quarter 2021 mean hourly employer costs for employee compensation for professional and related occupations of \$58.19).

Respondent's Obligation: Mandatory.

Legal Authority: The Public Works and Economic Development Act of 1965 (42 U.S.C. 3121 *et seq.*)

IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department,
