ACTION: Notice.

SUMMARY: On March 2, 2021, the Secretary of State, acting under authority delegated pursuant to Executive Order 12851, determined pursuant to section 306(a) of the Chemical and Biological Weapons Control and Warfare Elimination Act of 1991 (CBW Act), 22 U.S.C. 5604(a), that the Government of the Russian Federation used chemical or biological weapons in violation of international law or lethal chemical or biological weapons against its own nationals. Notice of this determination was published on March 18, 2021 in the **Federal Register**, under Public Notice 11374, which resulted in sanctions against Russia. Section 307(b) of the CBW Act, requires a decision within three months of March 2, 2021 regarding whether Russia has met certain conditions described in the law. Additional sanctions on Russia are required if these conditions are not met. Russia has not met the CBW Act's conditions and the Deputy Secretary of State has decided to impose additional sanctions on Russia on August 20, 2021.

2. *Bank Loans:* The United States Government shall prohibit any United States bank from making any loan or providing any credit to the Government of the Russian Federation, except for loans or credits for the purpose of purchasing food or other agricultural commodities or products.

The Deputy Secretary of State has determined that it is essential to the national security interests of the United States to waive the application of this sanction in all respects, except that the authority of Executive Order 13883 shall be used by the Department of the Treasury to prohibit United States banks from (1) participating in the primary market for non-ruble denominated bonds issued by the Russian sovereign issued after the enactment of these sanctions; and (2) providing non-ruble denominated loans to the Russian sovereign after the enactment of these sanctions, in both cases as further described in a **Federal Register** Notice issued by the Department of the Treasury and implemented through the Directive and guidance published on the Office of Foreign Assets Control's website (<http://www.treasury.gov/ofac>).

Title: Formal Complaints Collection.

Form Numbers: N/A.

Type of Review: New clearance of an existing information collection.

Background: The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on August 4, 2020 (85 FR 47288). Prior to that, the FAA issued a notice of proposed rulemaking (NPRM) to revise 14 CFR part 13. The NPRM was published in the **Federal Register** on February 12, 2019 (84 FR 3614). The NPRM proposed to update the procedural rules governing FAA investigations and enforcement actions. The proposed revisions include updates to statutory and regulatory references, updates to agency organizational structure, elimination of inconsistencies, clarification of

ambiguity, increases in efficiency, and improved readability. Section 13.5, currently and as proposed in the NPRM, allows any person to file a formal complaint with the FAA Administrator regarding a person’s violation of 49 U.S.C. subtitle VII, 49 U.S.C. chapter 51, or any rule, regulation, or order issued under those statutes. Thus, the overall burden associated with submission and processing of these complaints is not new. It is also optional, as there is no obligation for any individual to file a formal complaint.

As revised in proposed 14 CFR 13.5(b), a formal complaint must: (1) Be submitted to the FAA in writing; (2) be identified as a complaint seeking an appropriate order or other enforcement action; (3) identify the subjects of the complaint; (4) state the specific statute, rule, regulation, or order that each subject allegedly violated; (5) contain a concise but complete statement of the facts relied upon to substantiate each allegation; (6) include the name, address, telephone number, and email of the person filing the complaint; and (7) be signed by the person filing the complaint or an authorized representative. After the FAA confirms that the complaint meets these requirements, it sends a copy of the complaint to the subjects of the complaint and gives them an opportunity to submit a written answer. If a complaint does not meet these requirements, it is considered a report of violation under proposed 14 CFR 13.2 (current 14 CFR 13.1).

The FAA uses the information in the complaint and answer to determine if there are reasonable grounds for investigating the complaint. If the FAA determines there are reasonable grounds, the FAA proceeds with an investigation. If not, the FAA may dismiss the complaint and give the reason for dismissal in writing to both the person who filed the complaint and the subjects of the complaint.

Respondents: Formal complaints are typically submitted by an individual or organization. Almost all formal complaints are evenly split between three basic categories (complainant listed first): Individual vs. individual, individual vs. organization, and organization vs. organization.

Frequency: The FAA estimates this collection of information would result in about seven formal complaints per year based on FAA data.

Estimated Average Burden per Response: The estimated average burden on the public for each complaint and response under § 13.5 is eight hours, broken down as follows: It would take an individual about four hours to write
