

experience in seismic analysis. The candidates must also have at least 20 years of education and experience and a distinguished record of achievement in one or more areas of nuclear science and technology or related engineering disciplines. Candidates with pertinent graduate level experience will be given additional consideration.

Consistent with the requirements of the Federal Advisory Committee Act, the Commission seeks candidates with diverse backgrounds, so that the membership on the Committee is fairly balanced in terms of the points of view represented and functions to be performed by the Committee.

Candidates will undergo a thorough security background check to obtain the security clearance that is mandatory for all ACRS members. The security background check will involve the completion and submission of paperwork to the NRC.

Candidates for ACRS appointment may be involved in or have financial interests related to NRC-regulated aspects of the nuclear industry. However, because conflict-of-interest considerations may restrict the participation of a candidate in ACRS activities, the degree and nature of any such restriction on an individual's activities as a member will be considered in the selection process. Each qualified candidate's financial interests must be reconciled with applicable Federal and NRC rules and regulations prior to final appointment. This might require divestiture of securities or discontinuance of certain contracts or grants. Information regarding these restrictions will be provided upon request. As a part of the Stop Trading on Congressional Knowledge Act of 2012, which bans insider trading by members of Congress, their staff, and other high-level federal employees, candidates for appointments will be required to disclose additional financial transactions.

A resume describing the educational and professional background of each candidate, including any special accomplishments, publications, and professional references should be provided. Candidates should provide their current address, telephone number, and email address. All candidates will receive careful consideration. Appointment will be made without regard to factors such as race, color, religion, national origin, sex, age, or disabilities. Candidates must be citizens of the United States and be able to devote approximately 100 days per year to Committee business, but may not be compensated for more than 130 calendar days. As a part of ACRS'

transformative practice, appointees may be able to virtually devote some of the 130 days to Committee business. Resumes will be accepted until December 7, 2021.

Dated: September 1, 2021.

For the Nuclear Regulatory Commission.

## **NUCLEAR REGULATORY COMMISSION**

**[Docket Nos. 52-025 and 52-026; NRC-2008-0252]**

### **Southern Nuclear Operating Company, Inc; Vogtle Electric Generating Plant, Units 3 and 4; Inspections, Tests, Analyses, and Acceptance Criteria**

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Determination of the successful completion of inspections, tests, and analyses.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC) staff has determined that specified inspections, tests, and analyses have been successfully completed, and that specified acceptance criteria are met for the Vogtle Electric Generating Plant (VEGP), Units 3 and 4. The NRC staff is also rescinding a prior determination of the successful completion of particular inspections, tests, analyses, and acceptance criteria (ITAAC) for VEGP Units 3 and 4.

**DATES:** Determinations of the successful completion of inspections, tests, and analyses for VEGP Units 3 and 4 are effective on the dates indicated in the NRC staff's verification evaluation forms for the ITAAC. The NRC staff's rescission of its prior determination of the successful completion of particular ITAAC for VEGP Units 3 and 4 was effective on August 12, 2021.

**ADDRESSES:** Please refer to Docket ID NRC-2008-0252 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:

- **Federal Rulemaking Website:** Go to <https://www.regulations.gov> and search for Docket ID NRC-2008-0252. Address questions about Docket IDs in *Regulations.gov* to Stacy Schumann; telephone: 301-415-0624; email: [Stacy.Schumann@nrc.gov](mailto:Stacy.Schumann@nrc.gov). For technical questions, contact the individual listed

in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- **NRC's Agencywide Documents Access and Management System (ADAMS):** You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to [pdr.resource@nrc.gov](mailto:pdr.resource@nrc.gov). The ADAMS accession number for each document referenced in this document (if that document is available in ADAMS) is provided the first time that a document is referenced.

- **Attention:** The PDR, where you may examine and order copies of public documents, is currently closed. You may submit your request to the PDR via email at [pdr.resource@nrc.gov](mailto:pdr.resource@nrc.gov) or call 1-800-397-4209 or 301-415-4737, between 8:00 a.m. and 4:00 p.m. (ET), Monday through Friday, except Federal holidays.

**FOR FURTHER INFORMATION CONTACT:** Cayetano Santos, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-7270, email: [Cayetano.Santos@nrc.gov](mailto:Cayetano.Santos@nrc.gov).

### **SUPPLEMENTARY INFORMATION:**

#### **I. Licensee Notification of Completion of ITAAC**

Southern Nuclear Operating Company, Inc. (SNC) (hereafter called the licensee) has submitted ITAAC closure notifications (ICNs) under section 52.99(c)(1) of title 10 of the *Code of Federal Regulations* (10 CFR), informing the NRC that the licensee has successfully performed the required inspections, tests, and analyses, and that the acceptance criteria are met for:

#### *VEGP Unit 3 ITAAC*

2.1.02.09c (44), 2.1.02.12a.iii (55), 2.1.02.13a (63), 2.1.02.13b (64), 2.1.02.14 (66), 2.2.01.01 (90), 2.2.04.09a.ii (241), 2.2.05.02a (253), 2.3.02.08a.i (301), 2.3.02.14 (317), 2.3.04.05 (332), 2.3.06.11a (382), 2.3.07.05.i (396), 2.3.13.08 (470), 2.3.29.02 (489), 2.4.01.02 (493), 2.5.01.03a (511), 2.5.01.04 (519), C.2.5.04.04a (561), 2.5.06.02 (574), 2.6.03.05d.i (613), C.2.6.09.05a (664), C.2.6.09.06 (666), 2.7.03.03 (710), 2.7.07.02 (732), 3.2.00.04 (751), 3.3.00.02a.i.a (760), and 2.3.10.12 (879).

#### *VEGP Unit 4 ITAAC*

2.2.03.08c.iv.01 (183), 2.2.03.08c.iv.02 (184), 2.2.03.08c.iv.03 (185),

2.3.07.07b.ii (403), and 3.3.00.02a.ii.f (769).

The ITAAC for VEGP Unit 3 are in Appendix C of the VEGP Unit 3 combined license (ADAMS Accession No. ML14100A106). The ITAAC for VEGP Unit 4 are in Appendix C of VEGP Unit 4 combined license (ADAMS Accession No. ML14100A135).

## II. Licensee ITAAC Post-Closure Notifications (IPCNs)

Since the last **Federal Register** notice of the NRC staff's determinations of successful completion of inspections, tests, and analyses for VEGP Units 3 and 4 (86 FR 23756; May 4, 2021), the NRC staff has not made additional determinations of the successful completion of inspections, tests, and analyses based on licensee IPCNs submitted under 10 CFR 52.99(c)(2).

## III. NRC Staff Determination of Completion of ITAAC

The NRC staff has determined that the specified inspections, tests, and analyses have been successfully completed, and that the specified acceptance criteria are met. The documentation of the NRC staff's determination is in the ITAAC Closure Verification Evaluation Form (VEF) for each ITAAC. The VEF is a form that represents the NRC staff's structured process for reviewing ICNs and IPCNs.

Each ICN presents a narrative description of how the ITAAC was completed. The NRC's ICN review process involves a determination on whether, among other things: (1) Each ICN provides sufficient information, including a summary of the methodology used to perform the ITAAC, to demonstrate that the inspections, tests, and analyses have been successfully completed; (2) each ICN provides sufficient information to demonstrate that the acceptance criteria of the ITAAC are met; and (3) any NRC inspections for the ITAAC have been completed and any ITAAC findings associated with that ITAAC have been closed. The NRC's review process for IPCNs is similar to that for ICNs but focuses on how the licensee addressed the new, material information giving rise to the IPCN.

The NRC staff's determination of the successful completion of these ITAAC is based on information available at this time and is subject to the licensee's ability to maintain the condition that the acceptance criteria are met. If the NRC staff receives new information that suggests the NRC staff's determination on any of these ITAAC is incorrect, then the NRC staff will determine whether to reopen that ITAAC (including

withdrawing the NRC staff's determination on that ITAAC). The NRC staff's determination will be used to support a subsequent finding, pursuant to 10 CFR 52.103(g), at the end of construction that all acceptance criteria in the combined license are met. The ITAAC closure process is not finalized for these ITAAC until the NRC makes an affirmative finding under 10 CFR 52.103(g). Any future updates to the status of these ITAAC can be found by selecting the link "ITAAC Status Report" on the NRC's websites: <https://www.nrc.gov/reactors/new-reactors/col-holder/vog3.html> and <https://www.nrc.gov/reactors/new-reactors/col-holder/vog4.html>.

This notice fulfills the NRC staff's obligations under 10 CFR 52.99(e)(1) to publish a notice in the **Federal Register** of the NRC staff's determination of the successful completion of inspections, tests, and analyses.

**Note:** As of August 12, 2021, NRC staff rescinds its previous determination of the successful completion of ITAAC 2.5.05.03b (570) for both VEGP Units 3 and 4 due to the subsequent determination by NRC staff that this ITAAC is not met for both units. The NRC's prior determination of the successful completion of ITAAC 2.5.05.03b (570) was originally published in the **Federal Register** (85 FR 67017) on October 21, 2020. The licensee will resubmit the ICNs related to ITAAC 2.5.05.03b (570) for both Units.

### *Vogtle Electric Generating Plant Unit 3, Docket No. 5200025*

A complete list of the review status for VEGP Unit 3 ITAAC, including the submission date and ADAMS accession number for each ICN received, the ADAMS accession number for each VEF, and the ADAMS accession numbers for the inspection reports associated with these specific ITAAC can be found by selecting the link "ITAAC Status Report" at the NRC's website <https://www.nrc.gov/reactors/new-reactors/col-holder/vog3.html>.

### *Vogtle Electric Generating Plant Unit 4, Docket No. 5200026*

A complete list of the review status for VEGP Unit 4 ITAAC, including the submission date and ADAMS accession number for each ICN and IPCN received, the ADAMS accession number for each VEF, and the ADAMS accession numbers for the inspection reports associated with these specific ITAAC, can be found by selecting the link "ITAAC Status Report" at the NRC's website <https://www.nrc.gov/reactors/new-reactors/col-holder/vog4.html>.

Dated: September 1, 2021.

For the Nuclear Regulatory Commission.

**Philip J. McKenna,**

*Acting Chief, Vogtle Project Office, Office of Nuclear Reactor Regulation.*

## OFFICE OF PERSONNEL MANAGEMENT

### Federal Employees' Group Life Insurance Program; Premium

**AGENCY:** Office of Personnel Management.

**ACTION:** Notice.

**SUMMARY:** The Office of Personnel Management (OPM) is announcing changes in premium rates for certain Federal Employees' Group Life Insurance (FEGLI) categories. These include changes to premium rates for Employee Basic Insurance, Option A (most age bands), Option B (most age bands), Option C (most age bands), and Post-Retirement Basic Insurance. These rates will be effective the first pay period beginning on or after October 1, 2021.

**DATES:** These rates will be effective the first pay period beginning on or after October 1, 2021.

**FOR FURTHER INFORMATION CONTACT:** Marthine Mason-Martin, *FEGLI@opm.gov*, (202) 606-1413.

**SUPPLEMENTARY INFORMATION:** This notice announces changes to FEGLI Employee Basic, Option A (most age bands), Option B (most age bands), Option C (most age bands), and Post-Retirement Basic Insurance.

FEGLI premium rates are assessed based on Program experience in accordance with FEGLI statutes at 8711(b), 8714a(e), 8714b(e), and 8714c(e), and OPM's Annual FEGLI Rate Review Process. The premium rates in the FEGLI program represent estimates of premium income necessary to pay future expected benefits costs. The rates for all coverage categories are specific to the experience of the FEGLI group and are not based on mortality rates within the general population. Actuarial analysis of changing mortality rates makes periodic premium adjustments necessary.

OPM has completed a study of funding and claims experience within the FEGLI Program. Based on this updated actuarial analysis of actual claims experience, OPM has determined that changes are required to Employee Basic, Option A, Option B, Option C and Post-Retirement Basic Insurance premiums. These changes reflect
