Abstract: Regulations governing production safety systems are primarily covered in 30 CFR 250, subpart H and are the subject of this collection. In addition, BSEE also issues various Notices to Lessees (NTLs) and Operators to clarify and provide additional guidance on some aspects of the regulations, as well as forms to capture the data and information. Additional guidance pertaining to Oil-Spill Response Requirements is provided by NTLs when needed.

BSEE uses the information collected under subpart H to:

- Review safety system designs prior to installation to ensure that minimum safety standards will be met;
- evaluate equipment and/or procedures used during production operations;
- review records of erosion control to ensure that erosion control programs are effective;
- review plans to ensure safety of operations when more than one activity is being conducted simultaneously on a production facility;
- review records of safety devices to ensure proper maintenance during the useful life of that equipment; and
- verify proper performance of safety and pollution prevention equipment (SPPE).

INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 701–TA–469 and 731–TA–1168 (Second Review)]

Certain Seamless Carbon and Alloy Steel Standard, Line, and Pressure Pipe From China

Determinations

On the basis of the record¹ developed in the subject five-year reviews, the United States International Trade Commission (“Commission”) determines, pursuant to the Tariff Act of 1930 (“the Act”), that revocation of the countervailing and antidumping duty orders on certain seamless carbon and alloy steel standard, line, and pressure pipe from China would be likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.

Background

The Commission instituted these reviews on February 1, 2021 (86 FR 7740) and determined on May 7, 2021 that it would conduct expedited reviews (86 FR 36771, July 13, 2021).

The Commission made these determinations pursuant to section 751(c) of the Act (19 U.S.C. 1675(c)). It completed and filed its determinations in these reviews on September 1, 2021. The views of the Commission are contained in USITC Publication 5229 (September 2021), entitled *Certain Seamless Carbon and Alloy Steel Standard, Line, and Pressure Pipe from China: Investigation Nos. 701–TA–469 and 731–TA–1168 (Second Review)*.

By order of the Commission.

¹ The record is defined in § 207.2(f) of the Commission’s Rules of Practice and Procedure (19 CFR 207.2(f)).

Issued: September 1, 2021.

BILLING CODE 7020–02–P

DEPARTMENT OF JUSTICE

Notice of Proposed Settlement Agreement Under the Comprehensive Environmental Response, Compensation and Liability Act and the Pennsylvania Hazardous Sites Cleanup Act

Notice is hereby given that the United States of America, on behalf of the National Oceanic and Atmospheric Administration (“NOAA”), and the Department of the Interior (“DOI”), acting through the Fish and Wildlife Service, and the Commonwealth of Pennsylvania, acting through the Department of Environmental Protection, the Department of Conservation and Natural Resources, and the Fish and Boat Commission (collectively “Trustees”), are providing an opportunity for public comment on a proposed Settlement Agreement (“Settlement Agreement”) between the Trustees and a dozen public utility companies: Consolidated Edison Company of New York, Inc., Public Service Electric and Gas Company, Baltimore Gas and Electric Company, Jersey Central Power and Light Company, Long Island Lighting Company d/b/a LIPA, Metropolitan Edison Company, Orange and Rockland Utilities, Inc., PECO Energy Company, Potomac Electric Power Company, PPL Electric Utilities Corporation, Virginia Electric and Power Company, and Delmarva Power & Light Company (collectively, “Settling Defendants”).

The settlement resolves the civil claims of the Trustees against the Settling Defendants arising under their natural resource trustee authority set forth at Section 107 of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended (“CERCLA”), 42 U.S.C. 9607, and at section 507 of the Pennsylvania Hazardous Sites Cleanup Act, Act of October 18, 1988, Public Law 756, No. 108, as amended (“HSCA”), 35 P.S. 6020.507. The claims are for injury to, impairment of, destruction of, loss of, diminution of value of, and/or loss of use of natural resources, including the reasonable costs of assessing the injuries, resulting from the Settling Defendants’ alleged contribution to the release of hazardous substances at the Metal Bank Superfund

Site in Philadelphia, Pennsylvania (the "Site").

Under the proposed Settlement Agreement, the Settling Defendants agree to pay \$950,000 to resolve their liability at the Site. Of this amount, \$414,807 will compensate NOAA and DOI for their costs of assessing natural resource damages at the Site. The remaining \$535,193 will be paid into the DOI Natural Resource Damage Assessment and Restoration Fund and earmarked for future natural resource restoration projects selected by the Trustees and implemented in the vicinity of the Site to compensate the public for the injury to natural resources. A restoration plan will be developed for public comment by the Trustees.

Notice of the Settlement Agreement was previously published in the **Federal Register** on March 17, 2021 (86 FR 14646). Due to an administrative oversight, that notice provided a link to an incorrect version of the Settlement Agreement. The correct version of the Settlement Agreement contains slightly different language in Paragraphs 2 (in the definition of "Natural Resource Restoration Projects"), 3.b, and 4 clarifying that funds paid under the Settlement Agreement may be spent on any Natural Resource Restoration Projects to restore, replace, or acquire the equivalent of the Natural Resources that have been injured as a result of releases of hazardous substances at the site.

The publication of this notice opens a period for public comment limited to addressing the different language of Paragraphs 2, 3.b, and 4 of the proposed Settlement Agreement. Comments on the proposed Settlement Agreement should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to the Metal Bank Natural Resource Damages Settlement Agreement, D.J. Ref. No. 90-11-2-1183/2. All comments must be submitted no later than thirty (30) days after the publication date of this notice. Comments may be submitted either by email or by mail:
