

regulatory action” under Executive Order 12866; (2) is not a “significant rule” under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F,

Rue Rivière, 33500 Libourne, France. The petition proposes to amend the color additive regulations in part 73 (21 CFR 73), “Listing of Color Additives Exempt from Certification,” to provide for the safe use of blue *Galdieria* extract as a color additive at levels consistent with good manufacturing practice in: (1) Beverages and beverage bases, non-alcoholic; (2) breakfast cereals; (3) chewing gum; (4) confections and frostings; (5) dairy product analogs; (6) frozen dairy desserts and mixes; (7) fruit and water ices; (8) gelatins, puddings, and fillings; (9) hard candy and cough drops; (10) milk products; (11) processed fruits and fruit juices; (12) processed vegetables and vegetable juices; and (13) soft candy.

In addition, the petitioner has stated that, to their knowledge, no extraordinary

circumstances exist that would warrant at least an environmental assessment (see 21 CFR 25.21). If FDA determines a categorical exclusion applies, neither an environmental assessment nor an environmental impact statement is required. If FDA determines a categorical exclusion does not apply, we will request an environmental assessment and make it available for public inspection.

Dated: September 2, 2021.
