[Docket No. EL21-92-000]

Carolinas Clean Energy Business Association v. PJM Interconnection, L.L.C. and Duke Energy Progress, LLC; Notice of Withdrawal

September 3, 2021.

On August 25, 2021, pursuant to Rule 216 of the Commission's Rules of Practice and Procedure,¹ the Carolinas Clean Energy Business Association (CCEBA) filed a motion to withdraw its complaint against PJM Interconnection, L.L.C. (PJM) and Duke Energy Progress, LLC (DEP), requesting expedited treatment of the motion to withdraw. On August 31, 2021, the Commission issued a notice shortening the comment period on the motion to withdraw to September 2, 2021.

CCEBA states that PJM and DEP have committed to work with CCEBA to consider the issues raised in the complaint through settlement and to file any resulting amendments to PJM and DEP's joint operating agreement with the Commission under section 205 of the Federal Power Act no later than mid-December 2021.² CCEBA further states that such settlement will most expeditiously resolve the issues identified in the complaint, making withdrawal preferable. CCEBA asserts that its withdrawal is without prejudice to CCEBA's right to re-file the complaint. CCEBA also states that PJM and DEP have authorized CCEBA to state that they do not oppose withdrawal of the complaint.

Upon consideration, notice is hereby given that CCEBA's requested motion to withdraw is granted, effective as of the date of this notice.

Dated: September 3, 2021.

Secretary.

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; NSPS for Lime Manufacturing (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency has submitted an information collection request (ICR), "NSPS for Lime Manufacturing (EPA ICR Number 1167.13, OMB Control Number 2060-0063), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through December 31, 2021. Public comments were previously requested, via the **Federal Register**, on February 8, 2021 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may neither conduct nor sponsor, and a person is not required to respond to, a collection of information unless it displays a currently-valid OMB control number.

DATES: Additional comments may be submitted on or before October 12, 2021.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OAR-2020-0632 online using www.regulations.gov (our preferred method) or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that the EPA

will be collecting, are available in the public docket for this ICR. The docket can be viewed online at <https://www.regulations.gov>, or in person at the EPA Docket Center, WJC West Building, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit: <http://www.epa.gov/dockets>.

Abstract: The New Source Performance Standards (NSPS) for Lime Manufacturing (40 CFR part 60, subpart HH) apply to existing and new rotary lime kilns used in the manufacturing of lime. Owners and operators of affected facilities are required to submit initial notifications, performance tests, and periodic reports. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are used by EPA to determine compliance with the standards.

Form Numbers: None.

Respondents/affected entities: Lime production facilities.

Respondent's obligation to respond: Mandatory (40 CFR part 60, subpart HH).

Estimated number of respondents: 41 (total).

Frequency of response: Initially and semiannually.

Total estimated burden: 3,820 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$514,000 (per year), which includes \$61,500 in annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: There is no change in the total estimated respondent burden compared with the ICR currently approved by OMB. This situation is due to two considerations: (1) The regulations have not changed over the past three years and are not anticipated to change over the next three years; and (2) the growth rate for this industry is very low or non-existent, so there is no significant change in the overall burden. Since there are no changes in the regulatory requirements and there is no significant industry growth, there are also no changes in the capital/startup or operation and maintenance (O&M) costs.

Courtney Kerwin,

Director, Regulatory Support Division.
