Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA-2021-0471; Airspace Docket No. 21-AGL-25]

RIN 2120-AA66

Revocation of Class E Airspace and Amendment of Class E Airspace; Peebles and West Union, OH

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action revokes the Class E extending upward from 700 feet above

the surface at Peebles, OH; and amends the Class E airspace extending upward from 700 feet above the surface at Alexander Salamon Airport, West Union, OH. This action is the result of airspace reviews caused by the decommissioning of the West Union non-federal non-directional beacon (NDB). The geographic coordinates of the Alexander Salamon Airport are also being updated to coincide with the FAA's aeronautical database.

DATES: Effective 0901 UTC, December 2, 2021. The Director of the Federal Register approves this incorporation by reference action under 1 CFR part 51, subject to the annual revision of FAA Order 7400.11 and publication of conforming amendments.

ADDRESSES: FAA Order 7400.11E, Airspace Designations and Reporting Points, and subsequent amendments can be viewed online at https://www.faa.gov/air_traffic/publications/. SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it revokes the Class E extending upward from 700 feet above the surface at Peebles, OH; and amends the Class E airspace extending upward from 700 feet above the surface at Alexander Salamon Airport, West

Union, OH, to support instrument flight rule operations at these airports.

History

The FAA published a notice of proposed rulemaking (NPRM) in the **Federal Register** (86 FR 35420; July 6, 2021) for Docket No. FAA-2021-0471 to revoke the Class E extending upward from 700 feet above the surface at Peebles, OH; and amend the Class E airspace extending upward from 700 feet above the surface at Alexander Salamon Airport, West Union, OH. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

Class E airspace designations are published in paragraph 6005 of FAA Order 7400.11E, dated July 21, 2020, and effective September 15, 2020, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the order.

Availability and Summary of Documents for Incorporation by Reference

This document amends FAA Order 7400.11E, Airspace Designations and Reporting Points, dated July 21, 2020, and effective September 15, 2020. FAA Order 7400.11E is publicly available as listed in the **ADDRESSES** section of this document. FAA Order 7400.11E lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Rule

This amendment to 14 CFR part 71: Revokes the Class E airspace extending upward from 700 feet above the surface at Peebles, OH;

And amends the Class E airspace extending upward from 700 feet above the surface to within a 6.4-mile (decreased from a 7.7-mile) radius of Alexander Salamon Airport, West Union, OH; removes the name associated with the airport to comply with changes to FAA Order 7400.2N, Procedures for Handling Airspace Matters; and updates the geographic coordinates of the airport to coincide with the FAA's aeronautical database.

This action is due to airspace reviews caused by the decommissioning of the West Union non-federal NDB, and the closure of the airport and cancellation of the instrument procedures at Peebles, OH.

FAA Order 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures,” paragraph 5–6.5.a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.
