DEPARTMENT OF LABOR

Office of Workers' Compensation Programs

Proposed Extension of Existing Collection; Comment Request

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95). This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Office of Workers' Compensation Programs is soliciting comments concerning the proposed collection: Authorization for Release of Medical Information (CM-936). A copy of the proposed information collection request can be obtained by contacting the office listed below in the addresses section of this Notice.

DATES: Written comments must be submitted to the office listed in the addresses section below on or before November 12, 2021.

ADDRESSES: You may submit comments by mail, delivery service, or by hand to Ms. Anjanette Suggs, U.S. Department of Labor, 200 Constitution Ave. NW, Room S-3323, Washington, DC 20210; by fax (202) 354-9660; or by Email to Suggs.Anjanette@dol.gov. Please use only one method of transmission for comments (mail/delivery, fax, or Email). Please note that comments submitted

after the comment period will not be considered.

SUPPLEMENTARY INFORMATION:

I. Background

The Black Lung Benefits Act, as amended, 30 U.S.C. 901 *et seq.*, and 20 CFR 725.405 require that all relevant medical evidence be considered before a decision can be made regarding a claimant's eligibility for benefits. By signing the CM-936 form, the claimant authorizes physicians, hospitals, medical facilities or organizations, and the National Institute for Occupational Safety and Health to release medical information about the miner to the Department of Labor's Office of Workers' Compensation Programs. The form contains information required by medical institutions and private physicians to enable them to release pertinent medical information. This information collection is currently approved for use through February 28, 2022.

II. Review Focus

The Department of Labor is particularly interested in comments which:

- * Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- * evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- * enhance the quality, utility and clarity of the information to be collected; and
- * minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submissions of responses.

III. Current Actions

The Department of Labor seeks approval for the extension of this currently-approved information collection in order to obtain claimant consent for the release of medical information for consideration by the Office of Workers' Compensation Programs in their claim for benefits. Failure to gather this information would inhibit the adjudication of black lung claims because pertinent medical data would not be available for consideration during the processing of the claim.

Anita Blaine, Program Specialist, 202–707–7658, crb@loc.gov.

SUPPLEMENTARY INFORMATION: Each year cable systems must submit royalty payments to the Register of Copyrights as required by the statutory license set forth in sec. 111 of the Copyright Act for the retransmission to cable subscribers of over-the-air television and radio broadcast signals. See 17 U.S.C. 111(d). The Copyright Royalty Judges (Judges) oversee distribution of royalties to copyright owners whose works were included in a qualifying transmission and who timely filed a claim for royalties.

Allocation of the royalties collected occurs in one of two ways. In the first instance, the Judges may authorize distribution in accordance with a negotiated settlement among all claiming parties. 17 U.S.C. 111(d)(4)(A). If all claimants do not reach agreement with respect to the royalties, the Judges must conduct a proceeding to determine the distribution of any royalties that remain in controversy. 17 U.S.C. 111(d)(4)(B). Alternatively, the Judges may, on motion of claimants and on notice to all interested parties, authorize a partial distribution of royalties, reserving on deposit sufficient funds to resolve identified disputes. 17 U.S.C. 111(d)(4)(C), 801(b)(3)(C).

On July 23, 2021, Worldwide Subsidy Group LLC dba Multigroup Claimants (MGC) filed with the Judges a motion requesting partial distributions in the amount of \$893,086 from the 2015 cable royalty fund, \$842,586 from the 2016 cable royalty fund, and \$839,111 from the 2017 cable royalty fund, pursuant to sec. 801(b)(3)(C) of the Copyright Act. 17 U.S.C. 801(b)(3)(C). Motion at 5.¹ MGC represents that the partial distribution amounts it requests are based on a formula that MGC developed that takes into consideration the amount of cable funds that have been collected for 2015, 2016, and 2017 and applying a “blended percentage of the aggregate cable funds attributable to 2010–2013 attributable to MGC’s devotional programming claims.” Motion at 4–5.²

The Settling Devotional Claimants (SDC) opposed the Motion as well as a

separate motion that MGC filed in the companion satellite docket. Settling Devotional Claimants’ Opposition to Multigroup Claimants’ Motion for Partial Distribution of 2015–2017 Cable and Satellite Royalty Funds (Opposition).³ MGC filed a Reply in support of its Motion. See Multigroup Claimants’ Reply in Support of Motion for Partial Distribution of 2015–2017 Cable Royalties (Aug. 13, 2021).⁴

Prior to ruling on a motion for partial distribution filed under § 801(b)(3)(C) of the Copyright Act, the Judges must publish a notice in the **Federal Register** to determine whether any interested claimant entitled to receive such royalty fees has a reasonable objection to the partial distribution. Accordingly, this Notice seeks comments from interested claimants on whether any reasonable objection exists that would preclude the distribution to MGC of the requested amounts from the 2015–2017 cable royalty funds. As the Judges have commenced a distribution proceeding concerning 2014–2017 cable royalties, only claimants that have filed petitions to participate in the proceeding (or are included in a petition to participate filed on their behalf) are “interested claimants” for purposes of this Notice. Interested claimants objecting to the partial distribution must advise the Judges of the existence and extent of all objections by the end of the comment period. The Judges will not consider any objections with respect to the partial distribution motion that come to their attention after the close of the comment period.⁵

Dated: September 8, 2021.

Jesse M. Feder,

Chief Copyright Royalty Judge.
