SUPPLEMENTARY INFORMATION:

I. Introduction

On August 25, 2021, the NRC granted
 one exemption in response to a request
 submitted by one licensee dated July 29,
 2021, as supplemented by letter dated
 August 12, 2021. The exemption
 temporarily allows the licensee to
 deviate from certain requirements of
 chapter I of title 10 of the *Code of
 Federal Regulations* (10 CFR), part 50,
 appendix E, “Emergency Planning and
 Preparedness for Production and
 Utilization Facilities,” section IV.F,
 “Training.”

The exemption grants Wolf Creek
 Nuclear Operating Corporation (for Wolf
 Creek Generating Station, Unit 1), a
 schedular exemption from the offsite
 biennial emergency preparedness (EP)
 exercise requirement, allowing it to
 postpone the calendar year 2021 full-
 participation biennial EP exercise until
 November 30, 2022, or when the
 required exercise is conducted in
 calendar year 2022, whichever occurs
 first. The exemption affords this
 licensee temporary relief from the
 requirements of 10 CFR part 50,
 appendix E, regarding offsite response
 organization (ORO) participation in the
 biennial EP exercise. The exemption
 will not adversely affect the emergency
 response capability of the facility
 because the licensee has conducted
 numerous drills, exercises, and other
 training activities that have exercised
 the licensee’s emergency response
 strategies since the last evaluated
 biennial EP exercise and that State,
 county, and local OROs have
 participated therein.

The table in this notice provides
 transparency regarding the number and
 type of exemptions the NRC has issued.
 Additionally, the NRC publishes tables
 of approved regulatory actions related to
 the COVID-19 PHE on its public
 website at [https://www.nrc.gov/about-
 nrc/covid-19/reactors/licensing-
 actions.html](https://www.nrc.gov/about-nrc/covid-19/reactors/licensing-actions.html).

II. Availability of Documents

The table in this notice provides the
 facility name, docket number, document
 description, and ADAMS accession
 number for the exemption issued.
 Additional details on the exemption
 issued, including the exemption request
 submitted by the licensee and the NRC’s
 decision, are provided in the exemption
 approval listed in the table in this
 notice. For additional directions on
 accessing information in ADAMS, see
 the **ADDRESSES** section of this document.
