Notice for Comment on Two Strategic Plans for the Subcommittee on Aquaculture Science Planning and Regulatory Efficiency Task Forces and on Updating the National Aquaculture Development Plan

AGENCY: Agricultural Research Service, USDA.

ACTION: Notice and request for comments.

SUMMARY: In October 2018, the SCA established a Science Planning Task Force charged with documenting Federal science and technology opportunities and priorities for aquaculture by revising and updating the National Strategic Plan for Federal Aquaculture Research (2014–2019). Similarly, in February 2019, the SCA established a Regulatory Efficiency Task Force charged with developing a new plan for interagency science and technology coordination to improve regulatory efficiency, research and technology development, and economic growth. The Task Forces are seeking public comment on Science and Regulatory Efficiency strategic plans to determine if their respective topics are adequately covered. See **SUPPLEMENTARY INFORMATION** for more details.

DATES: In the **Federal Register** of September 1, 2021, FR Doc. 2021–18723, on Page 48973, under dates should read as follows: Comments must be received by October 4, 2021 to be assured of consideration.

SUPPLEMENTARY INFORMATION: The Subcommittee on Aquaculture (SCA) is a statutory subcommittee that operates under the Committee on Environment of the National Science and Technology Council (NSTC) under the Office of Science and Technology Policy in the Executive Office of the President [National Aquaculture Act of 1980 (Pub.

L. 96–362, 94 Stat. 1198, 16 U.S.C. 2801, *et seq.*) and the National Aquaculture Improvement Act of 1985 (Pub. L. 99–198, 99 Stat. 1641)].

In addition, in May of 2020, the SCA established an Economic Development Task Force charged with developing a strategic plan for economic development through aquaculture. Separately from SCA, the National Aquaculture Act of 1980 requires select federal agencies to develop a National Aquaculture Development Plan (NADP). Last completed in 1983, the NADP describes aquaculture associated technologies, problems, and opportunities in the United States and its territories.

It recommends actions to solve problems and analyzes the social, environmental, and economic impacts of growth in aquaculture. The SCA plans to update the NADP using the Science and Regulatory Efficiency plans described here, with the addition of the Economic Development plan currently in process.

Submission for OMB Review; Comment Request

September 13, 2021.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments are requested regarding; whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic,

mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by October 18, 2021 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Food and Nutrition Service

Title: Team Nutrition Database.

OMB Control Number: 0584–0642.

Summary of Collection: The collection of this information aims to help the mission of USDA's Team Nutrition initiative, which is to support national efforts to promote lifelong healthy food choices and physical activity by improving the nutrition practices of the Child Nutrition Programs. The collected information helps to build and maintain a stronger network among organizations participating in the Child and Adult Care Food Program (CACFP) and schools participating in the National School Lunch Program (NSLP) and School Breakfast Program (SBP) committed to providing healthy meals and environments for their program participants. It helps to keep these entities up-to-date with the available resources developed under the Team Nutrition initiative to support the nutrition standards of their respective Child Nutrition Programs. The Team Nutrition initiative of the United States Department of Agriculture's Food and Nutrition Service falls under SEC. 19. [42 U.S.C. 1788] TEAM NUTRITION NETWORK, Child Nutrition Act of 1966.

Need and Use of the Information: The purposes of the team nutrition network
