Title: Application for Antenna Structure Registration.

Form Number: FCC Form 854.

Type of Review: Extension of a currently approved collection.

Respondents: Individuals or households, business or other for-profit entities, not-for-profit institutions, and State, local, or Tribal governments.

Number of Respondents and Responses: 2,400 respondents; 57,100 responses.

Estimated Time per Response: .33 hours to 2.5 hours.

Frequency of Response: On occasion reporting requirement, recordkeeping requirement and third-party disclosure reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in sections 1, 2, 4(i), 303, and 309(j) of the Communications Act of 1934, as amended, 47 U.S.C. 151, 152, 154(i), 303, and 309(j), section 102(C) of the National Environmental Policy Act of 1969, as amended, 42 U.S.C. 4332(C), and section 1506.6 of the regulations of the Council on Environmental Quality, 40 CFR 1506.6.

Total Annual Burden: 25,682 hours.

Total Annual Cost: \$1,176,813.

Needs and Uses: The purpose of FCC Form 854 (Form 854) is to register antenna structures that are used for radio communication services which are regulated by the Commission; to make changes to existing antenna structure registrations or pending applications for registration; or to notify the Commission of the completion of construction or dismantlement of such structures, as required by Title 47 of the Code of Federal Regulations, Chapter 1, Sections 1.923, 1.1307, 1.1311, 17.1, 17.2, 17.4, 17.5, 17.6, 17.7, 17.57 and 17.58.

Any person or entity proposing to construct or alter an antenna structure that is more than 60.96 meters (200 feet) in height, or that may interfere with the approach or departure space of a nearby airport runway, must notify the Federal Aviation Administration (FAA) of proposed construction. The FAA determines whether the antenna structure constitutes a potential hazard and may recommend appropriate painting and lighting for the structure. The Commission then uses the FAA's recommendation to impose specific painting and/or lighting requirements on radio tower owners and subject licensees. When an antenna structure owner for one reason or another does not register its structure, it then becomes the responsibility of the tenant

licensees to ensure that the structure is registered with the Commission.

Section 303(q) of the Communications Act of 1934, as amended, gives the Commission authority to require painting and/or illumination of radio towers in cases where there is a reasonable possibility that an antenna structure may cause a hazard to air navigation. In 1992, Congress amended Sections 303(q) and 503(b)(5) of the Communications Act to make radio tower owners, as well as Commission licensees and permittees responsible for the painting and lighting of radio tower structures, and to provide that non-licensee radio tower owners may be subject to forfeiture for violations of painting or lighting requirements specified by the Commission.

The Wireless Telecommunications (WTB) and Public Safety and Homeland Security Bureaus (PSHSB) of the FCC periodically conduct audits of the construction and/or operational status of various Wireless radio stations in its licensing database that are subject to rule-based construction and operational requirements. The Commission's rules for these Wireless services require construction within a specified timeframe and require a station to remain operational in order for the license to remain valid. The information will be used by FCC personnel to assure that licensees' stations are constructed

and currently operating in accordance with the parameters of the current FCC authorization and rules.

FEDERAL DEPOSIT INSURANCE CORPORATION

Notice of the FDIC's Response to Exception Requests Pursuant to Recordkeeping for Timely Deposit Insurance Determination

AGENCY: Federal Deposit Insurance Corporation (FDIC).

ACTION: Notice of the FDIC's response to exception requests pursuant to the recordkeeping for timely deposit insurance determination rule.

SUMMARY: In accordance with its rule regarding recordkeeping for timely deposit insurance determination, the FDIC is providing notice that it has granted time-limited exception relief to two covered institutions from the information technology system and recordkeeping requirements applicable to deposits reflected on loan systems, including deposits resulting from credit balances on an account for debt owed to the covered institution and deposits held in escrow by a covered institution. The two covered institutions are in the process of converting or upgrading their loan systems.

DATES: The FDIC's grant of exception relief is effective as of September 14, 2021.

FOR FURTHER INFORMATION CONTACT: Cassandra Knighton, Acting Section Chief, Division of Complex Institution Supervision and Resolution; CKnighton@FDIC.gov; 972–761–2802.

SUPPLEMENTARY INFORMATION: The FDIC granted a time-limited exception request to two covered institutions pursuant to the FDIC's rule entitled "Recordkeeping for Timely Deposit Insurance Determination," codified at 12 CFR part 370 (part 370).¹ Part 370 generally requires covered institutions to implement the information technology system and recordkeeping capabilities needed to quickly calculate the amount of deposit insurance coverage available for each deposit account in the event of failure. Pursuant to § 370.8(b)(1), one or more covered institutions may submit a request in the form of a letter to the FDIC for an exception from one or more

¹ 12 CFR part 370.

of the requirements of part 370 if circumstances exist that would make it impracticable or overly burdensome to meet those requirements. Pursuant to § 370.8(b)(2), the FDIC publishes a notice of its response to each exception request in the **Federal Register**. Pursuant to § 370.8(b)(3), a covered institution may rely upon another covered institution's exception request which the FDIC has previously granted by notifying the FDIC that it will invoke relief from certain part 370 requirements and demonstrating that the covered institution has substantially similar facts and circumstances to those of the covered institution that has already received the FDIC's approval. The notification letter must also include the information required under § 370.8(b)(1) and cite the applicable notice published pursuant to § 370.8(b)(2). Unless informed otherwise by the FDIC within 120 days after the FDIC's receipt of a complete notification for exception, the exception will be deemed granted subject to the same conditions set forth in the FDIC's published notice.

These grants of relief will be subject to ongoing FDIC review, analysis, and verification during the FDIC's routine part 370 compliance tests. The FDIC presumes each covered institution is meeting all the requirements set forth in the Rule unless relief has otherwise been granted. These grants of relief may be rescinded or modified upon: Discovery of misrepresentation; material change of circumstances or conditions related to the subject accounts; or failure to satisfy conditions applicable to each. The following exceptions were granted by the FDIC as of September 14, 2021.

I. Certain Deposits Reflected on Loan Systems for Which the Covered Institutions Is Not Capable of Completing Deposit Insurance Calculation Process Because Additional Time Is Required for System Upgrades or Conversions

The FDIC granted time-limited exception relief from part 370's information technology system requirements set forth in § 370.3 and recordkeeping requirements set forth in § 370.4 applicable to deposits reflected on loan systems, including deposits resulting from credit balances on an account for debt owed to the covered institution and deposits held in escrow by the covered institution. Such relief was granted to two covered institutions for up to 18 months after their compliance date. One covered institution requested exception relief from the recordkeeping requirements because it has multiple lending systems in need of recordkeeping upgrades and

technical coding fixes without which it cannot produce the requisite data within the timeframe and in the format required by § 370.4(d). The covered institution requested exception relief in order to complete its IT solution to integrate data into its part 370 calculation system and perform relevant testing. The other covered institution requested exception relief from the information technology system and recordkeeping requirements because it requires additional time to complete the conversion of its commercial loan servicing platform and make system upgrades. The FDIC granted both covered institutions a time-limited exception for up to 18 months from their respective compliance dates.

In connection with the FDIC's grants of relief, these covered institutions represented that they will maintain the capability to place holds on the deposit accounts subject to the exception in the event of failure until deposit insurance can be calculated using data manually extracted from the current loan systems. As conditions of relief, these covered institutions must submit a status report to part370@fdic.gov at the midpoint of the exception relief period and immediately bring to the FDIC's attention any change of circumstances or conditions.
