Federal Aviation Administration

[Docket No. FAA-2021-0861]

**Agency Information Collection
Activities: Requests for Comments;
Clearance of Renewed Approval of
Information Collection: Fractional
Aircraft Ownership Programs**

AGENCY: Federal Aviation Administration (FAA), Transportation (DOT).

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request Office of Management and Budget (OMB) approval to renew an information collection. Fractional Ownership is a program that offers increased flexibility in aircraft ownership. Owners purchase shares of an aircraft and agree to share their aircraft with others having an ownership share in that same aircraft. Owners agree to put their aircraft into a "pool" of other shared aircraft and to lease their aircraft to another owner in that pool. This collection is necessary to ensure compliance with relevant safety regulations.

DATES: Written comments should be submitted by November 22, 2021.

ADDRESSES: Please send written comments:

SUPPLEMENTARY INFORMATION:

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA's performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

OMB Control Number: 2120-0684.

Title: Fractional Aircraft Ownership Programs.

Form Numbers: There are no FAA forms associated with this collection.

Type of Review: This is a renewal of an existing information collection.

Background: Each fractional ownership program manager and each fractional owner must comply with the requirements of 14 CFR part 91, subpart K. Information is used to determine if these entities are operating in accordance with the minimum safety standards of these regulations. The FAA will use the information it reviews and collects to evaluate the effectiveness of the program and make improvements as needed, and ensure compliance with and adherence to regulations.

Respondents: Nine fractional ownership operators with 557 aircraft.

Frequency: On occasion.

Estimated Average Burden per Response: 1 hour, 20 minutes.

Estimated Total Annual Burden: 14,367 hours, or 1,596 per operator.

Issued in Washington, DC, on September 16, 2021.

Dwayne C. Morris,

*Project Manager, Flight Standards Service,
General Aviation and Commercial Division.*

**Agency Information Collection
Activities: Requests for Comments;
Clearance of a Renewed Approval of
Information Collection: Disclosure of
Seat Dimensions To Facilitate the Use
of Child Safety Seats on Airplanes
During Passenger-Carrying Operations**

AGENCY: Federal Aviation Administration (FAA), Transportation (DOT).

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request the Office of Management and Budget (OMB) approval to renew an information collection. The collection involves each passenger carrying air carrier operating under the Code of Federal Regulations to post on the internet website of the air carrier the maximum dimensions of a child safety seat that can be used on those aircraft. The information to be collected will be used to facilitate the use of child restraint systems onboard airplanes and is required by section 412 of the FAA Modernization and Reform Act of 2012.

DATES: Written comments should be submitted by November 22, 2021.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA's performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information. OMB Control Number: 2120–0760.

Title: Disclosure of Seat Dimensions to Facilitate the Use of Child Safety Seats on Airplanes During Passenger-Carrying Operations.

Form Numbers: N/A.

Type of Review: Renewal of an information collection.

Background: Section 412 of the FAA Modernization and Reform Act of 2012 (Pub. L. 112–95) specifically required the Federal Aviation Administration (FAA) to conduct rulemaking “[T]o require each air carrier operating under part 121 of title 14, Code of Federal Regulations to post on the internet website of the air carrier the maximum dimensions of a child safety seat that can be used on each aircraft operated by the air carrier to enable passengers to determine which child safety seats can be used on those aircraft.” As a result, the FAA amended 14 CFR 121.311, which requires passenger carrying air carriers to make available on their websites the width of the widest passenger seat in each class of service for each make, model and series of airplane used in passenger-carrying operations (80 FR 58575). Section 412 of Public Law 112–95 requires that all air carriers provide this required information on their internet websites. The vast majority of this burden occurred on a one-time basis as air carriers initially provided information on their websites in order to comply with the regulation. After initial implementation, the only time air carriers need to update their websites after initial implementation is when a new airplane make, model, or series is introduced to an air carrier’s fleet, or when an air carrier replaces the widest or narrowest seats installed on an existing airplane make, model, or series with wider or narrower seats. The purpose of this collection is to facilitate the use of child restraint systems onboard airplanes by providing greater information to caregivers to help them determine whether a particular child restraint system will fit in an airplane seat.

Respondents: Approximately 44 operators.

Frequency: As required by regulation.

Estimated Average Burden per Response: Varies per requirement.

Estimated Total Annual Burden: 327 Hours.

Issued in Washington, DC on September 14, 2021.

Sandra L. Ray,

Aviation Safety Inspector, AFS–260.

[Docket No. DOT–OST–2021–0038]

Agency Request for Renewal and Revision of a Previously Approved Information Collection: Information Associated With the Aviation Manufacturing Jobs Protection (AMJP) Program

AGENCY: U.S. Department of Transportation.

ACTION: Notice and request for comments.

SUMMARY: The Department of Transportation (DOT) invites public comments about our intention to request the Office of Management and Budget (OMB) approval to renew and revise an information collection. The DOT is seeking public comment under normal Paperwork Reduction Act procedures to continue the collection entitled “Aviation Manufacturing Jobs Protection,” which was approved under an emergency clearance approval by OMB through November 30, 2021. The purpose of the original information collection was to enable eligible business entities to apply for payroll assistance under the “Aviation Manufacturing Jobs Protection” program, established by the American Rescue Plan Act of 2021. The continued information collection is necessary to ensure that eligible recipients continue to meet eligibility requirements and are compliant with use of funds to provide payroll support for the established eligible employee group. The continued information collection will also seek voluntary demographic information for program evaluation purposes. We are required to publish this notice in the **Federal Register** by the Paperwork Reduction Act of 1995.

DATES: Written comments should be submitted by November 22, 2021.

ADDRESSES: You may submit comments identified by Federal Docket Management System (FDMS) Docket Number DOT–OST–2021–0038 using any of the following methods:
