

### 3. *Open Licensing Requirements:*

Unless an exception applies, if you are awarded a grant under this competition, you will be required to openly license to the public grant deliverables created in whole, or in part, with Department grant funds. When the deliverable consists of modifications to pre-existing works, the license extends only to those modifications that can be separately identified and only to the extent that open licensing is permitted under the terms of any licenses or other legal restrictions on the use of pre-existing works. Additionally, a grantee or subgrantee that is awarded competitive grant funds must have a plan to disseminate these public grant deliverables. This dissemination plan can be developed and submitted after your application has been reviewed and selected for funding. For additional information on the open licensing requirements, please refer to 2 CFR 3474.20.

4. *Reporting:* (a) If you apply for a grant under this competition, you must ensure that you have in place the necessary processes and systems to comply with the reporting requirements in 2 CFR part 170 should you receive funding under the competition. This does not apply if you have an exception under 2 CFR 170.110(b).

(b) At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multiyear award, you must submit an annual performance report that provides the most current performance and financial expenditure information as directed by the Secretary under 34 CFR 75.118. The Secretary may also require more frequent performance reports under 34 CFR 75.720(c). For specific requirements on reporting, please go to [www.ed.gov/fund/grant/apply/appforms/appforms.html](http://www.ed.gov/fund/grant/apply/appforms/appforms.html).

5. *Performance Measures:* Under the Government Performance and Results Act of 1993 and 34 CFR 75.110, the following three performance measures will be used in assessing the performance of the National Center for Information and Technical Support for Postsecondary Students with Disabilities Program:

1. The extent to which the project serves students with disabilities, families of students with disabilities, individualized education program teams, and individualized plan for employment teams, including growth in numbers served over time, and improved user satisfaction ratings with the services received;

2. The extent to which the project provides information and technical assistance to faculty, staff, and administrators of IHEs aimed at improving accommodation, retention, and completion rates of students with disabilities, including growth in the number of persons and institutions served over time, and improved user satisfaction ratings with services received, baseline change over time in retention, and completion rates of students with disabilities at the institutions served; and

3. The extent and growth over time in utilization of the database of disability services information by IHEs, including improved user satisfaction ratings of the accessibility and utility of the information provided.

These measures constitute the Department's indicators of success for this program. Consequently, we advise an applicant for an award under this program to give careful consideration to the operationalization of the measures in conceptualizing the approach and evaluation for its proposed project.

If funded, you will be required to collect and report data in your project's annual performance report (34 CFR 75.590).

It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. *Respondents/Affected Public:* State, Local, and Tribal Governments.

*Total Estimated Number of Annual Responses:* 13.

*Total Estimated Number of Annual Burden Hours:* 26.

*Abstract:* This is a request for emergency approval of a new information collection request so that the Department can collect applications for the Project to Support America's Families and Educators (Project SAFE) Grant Program. The Project SAFE grant program is intended to improve students' safety and well-being by providing resources to local educational agencies (LEAs) that adopt and implement strategies to prevent the spread of the Novel Coronavirus Disease 2019 (COVID-19) consistent with

guidance from the Centers for Disease Control and Prevention (CDC) and that are financially penalized for doing so by their State educational agency (SEA) or other State entity. Under the new Project SAFE grant program, applications will be submitted on a rolling basis before the end of fiscal year 2021 and throughout fiscal year 2022. Upon receipt of the applications, the intent is to quickly review and make approval decisions of awards as quickly as possible to make the award the funds before the end of this fiscal year.

*Additional Information:* The Project SAFE grant program timeline is extremely short due to the Biden Administration's direction to the Department to create the program to address urgent needs. For these reasons, we are requesting emergency approval of the Project SAFE application so that LEAs can demonstrate their eligibility and need to implement the program as intended and receive funds to address the immediate needs of their students, staff, and schools.
