

any changes to the HomVEE evidence review through this notice.

Following the publication of this notice, the associated comment period, and publication of a final model eligibility review process, HRSA anticipates assessing all models that have been determined to meet the HHS criteria for evidence of effectiveness, as determined by HomVEE review, against the statutory requirements for model implementation through the MIECHV Program. HRSA intends to contact model developers and request they provide information about model characteristics, resources, and processes using a standard set of survey questions. HRSA will assess information and resources provided by models against the standards for each requirement, described above, to determine eligibility for implementation through the MIECHV Program. Following this initial review, all models determined to be eligible for implementation through the MIECHV Program will be reassessed against the statutory requirements for a model every 3 years.

As the HomVEE review determines that new models meet HHS criteria for evidence of effectiveness, HRSA intends to assess these models against the MIECHV statutory requirements. Any such model that does not meet statutory requirements for implementation through the MIECHV Program will be reassessed annually until the model either meets remaining statutory requirements or a model developer indicates that they no longer want the model to be assessed for implementation through the MIECHV program.

HRSA anticipates applying the updated process for assessing model eligibility against MIECHV statutory requirements beginning in Fiscal Year (FY) 2024. Specifically, the updated process will apply to all HomVEE-

approved models to determine eligibility for implementation through the MIECHV Program beginning in the FY 2024 MIECHV Notice of Funding Opportunity.

3.0 Request for Information

Through this notice, HRSA is soliciting information from a broad array of stakeholders on the proposed process for assessing home visiting models against the MIECHV statutory requirements for a model to determine eligibility for implementation through the MIECHV Program.

Responses to this notice will inform HRSA’s ongoing discussion with the aim of publishing a final process for assessing home visiting models against statutory requirements. This notice is for information and planning purposes only and should not be construed as a solicitation or as an obligation on the part of HRSA or HHS.
