

Council of the Judiciary. The previous five Magistrates were abruptly removed without legitimate cause following the May 1 seating of the newly elected Legislative Assembly. After being installed, the new Magistrates declared their installation by the Legislative Assembly to have been constitutional. The Magistrates subsequently also undermined democratic processes or institutions by approving a controversial interpretation of the Constitution authorizing re-election of the President despite an express prohibition in the Constitution forbidding consecutive terms of the Presidency.

Guatemala

Angel Arnoldo Pineda Avila, current Secretary General of Guatemala's Public Ministry (MP), obstructed investigations into acts of corruption by interfering in anti-corruption probes. The MP has opened a probe into allegations that Pineda interfered in an anti-corruption investigation. Pineda is alleged to have tipped off investigative targets about cases being built against them. In one instance, Pineda reportedly leaked confidential information to the director of Guatemala's Victim Institute about an ongoing investigation into more than 100 falsified personnel contracts at the institution.

Maria Consuelo Porras Argueta De Porres, current Attorney General of Guatemala, obstructed investigations into acts of corruption by interfering with criminal investigations in order to protect political allies and gain personal political favor. Porras' pattern of obstruction included ordering prosecutors in the MP to ignore cases based on political considerations and actively undermining investigations into political allies carried out by the Special Prosecutor Against Impunity, including by improperly firing its lead prosecutor, Juan Francisco Sandoval, and transferring and firing prosecutors who investigate the current administration or the MP itself.

AGENCY: Federal Railroad Administration (FRA), Department of Transportation (DOT).

ACTION: Notice of information collection; request for comment.

SUMMARY: Under the Paperwork Reduction Act of 1995 (PRA) and its implementing regulations, this notice announces that FRA is forwarding the Information Collection Request (ICR) abstracted below to the Office of Management and Budget (OMB) for review and comment. The ICR describes the information collection and its expected burden. On June 29, 2021, FRA published a notice providing a 60-day period for public comment on the ICR.

DATES: Interested persons are invited to submit comments on or before October 27, 2021.

ADDRESSES: Written comments and recommendations for the proposed ICR should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find the particular ICR by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT: Ms. Hodan Wells, Information Collection Clearance Officer at email: Hodan.Wells@dot.gov or telephone: (202) 493-0440.

SUPPLEMENTARY INFORMATION: The PRA, 44 U.S.C. 3501-3520, and its implementing regulations, 5 CFR part 1320, require Federal agencies to issue two notices seeking public comment on information collection activities before OMB may approve paperwork packages. See 44 U.S.C. 3506, 3507; 5 CFR 1320.8 through 1320.12. On June 29, 2021, FRA published a 60-day notice in the **Federal Register** soliciting comment on the ICR for which it is now seeking OMB approval. See 86 FR 34303. FRA received no comments in response to this 60-day notice.

Before OMB decides whether to approve the proposed collection of information, it must provide 30 days for public comment. Federal law requires OMB to approve or disapprove paperwork packages between 30 and 60 days after the 30-day notice is published. 44 U.S.C. 3507(b)-(c); 5 CFR

1320.10(b); see also 60 FR 44978, 44983 (Aug. 29, 1995). OMB believes the 30-day notice informs the regulated community to file relevant comments and affords the agency adequate time to digest public comments before it renders a decision. 60 FR 44983 (Aug. 29, 1995). Therefore, respondents should submit their respective comments to OMB within 30 days of publication to best ensure having their full effect.

Comments are invited on the following ICR regarding: (1) Whether the information collection activities are necessary for FRA to properly execute its functions, including whether the information will have practical utility; (2) the accuracy of FRA's estimates of the burden of the information collection activities, including the validity of the methodology and assumptions used to determine the estimates; (3) ways for FRA to enhance the quality, utility, and clarity of the information being collected; and (4) ways to minimize the burden of information collection activities on the public, including the use of automated collection techniques or other forms of information technology.

The summary below describes the ICR that FRA will submit for OMB clearance as the PRA requires:

Title: Hours of Service Regulations.

OMB Control Number: 2130-0005.

Abstract: FRA's hours of service recordkeeping regulations (49 CFR part 228), amended as mandated by the Rail Safety Improvement Act of 2008, include substantive hours of service requirements for train employees (*i.e.*, locomotive engineers and conductors) providing commuter and intercity rail passenger transportation (*e.g.*, maximum on-duty periods, minimum off-duty periods, and other limitations). The regulations also require railroads to evaluate passenger train employee work schedules for risk of employee fatigue and implement measures to mitigate the risk, and to submit to FRA for approval certain schedules and mitigation plans. Finally, the regulations include recordkeeping and reporting provisions requiring railroads to keep hours of service records, and report excessive service, for train employees, signal employees, and dispatching service employees on both freight and passenger railroads.

FRA uses the information collected to verify that railroads do not require or allow their employees to exceed maximum on-duty periods, and ensure that they abide by minimum off-duty periods, and adhere to other limitations in this regulation, to enhance rail safety and reduce the risk of accidents/

incidents caused, or contributed to, by train employee fatigue.

Type of Request: Extension without change (with changes in estimates) of a currently approved collection.

Affected Public: Businesses (railroads and signal contractors).

Form(s): FRA F 6180.3.

Respondent Universe: 796 railroads, signal contractors and subcontractors.

Frequency of Submission: On occasion.

Total Estimated Annual Responses: 18,660,400.

Total Estimated Annual Burden: 1,283,507 hours.

Total Estimated Annual Burden Hour Dollar Cost Equivalent: \$99,404,352.

Under 44 U.S.C. 3507(a) and 5 CFR 1320.5(b) and 1320.8(b)(3)(vi), FRA informs all interested parties that a respondent is not required to respond to, conduct, or sponsor a collection of information that does not display a currently valid OMB control number.

Authority: 44 U.S.C. 3501–3520.

Brett A. Jortland,

Acting Chief Counsel.
