

on *Ensuring Order on Ensuring Adequate COVID Safety Protocols for Federal Contractors*, compliance with COVID-19-related safety protocols improves economy and efficiency by reducing absenteeism and decreasing labor costs for contractors and subcontractors working on or in connection with a Federal Government contract. Section 2(c) of E.O. 14042 requires that, before Federal contractors and subcontractors must adhere to any guidance from the Safer Federal Workforce Task Force pursuant to Executive Order No. 14042, the Director of the Office of Management and Budget must determine that such guidance will promote economy and efficiency in Federal contracting if adhered to by Government contractors and subcontractors. Based on my review of the Safer Federal Workforce Task Force's COVID-19 Workplace Safety: Guidance for Federal Contractors and Subcontractors, scheduled for issuance on September 24, 2021, and exercising the President's authority under the Federal Property and Administrative Services Act (see 3 U.S.C. 3011) delegated to me through Executive Order No. 14042, I have determined that compliance by Federal contractors and subcontractors with the COVID-19-workplace safety protocols detailed in that guidance will improve economy and efficiency by reducing absenteeism and decreasing labor costs for contractors and subcontractors working on or in connection with a Federal Government contract.
