

every three years and comply with the same requirements as for initial self-certification. This requirement will enable the Bureau to ensure the ongoing accuracy and reliability of a given CIS at a particular facility. Section 20.23(b)(7) requires that a CIS operator retain records for at least five years and provide them upon request to the Bureau, which will support the Bureau's efforts to identify issues with CIS operations, resolve interference issues, and resolve complaints related to misidentification of contraband devices.

The new collections in 47 CFR 20.23(c)(1)–(2) include the requirement that individuals that seek to be recognized on the Commission's DCFO list must send a letter to the Contraband Ombudsperson in order for the Commission to approve that person for the qualified DCFO list and provide certainty to wireless providers that disabling requests are made by duly authorized individuals. Qualifying requests that include the required information will be used by wireless carriers to prevent use of contraband devices on their network and on other wireless provider networks.

The new collections 47 CFR 20.23(c)(3)(iii)–(iv) provide that, upon receiving a disabling request from a DCFO, the wireless provider must verify the request, may reject the request and must notify the DCFO whether it is accepting or rejecting the request. This process ensures that a wireless provider responds to a DCFO within a reasonable timeframe—while giving the provider an opportunity to determine if there is an error—and to give the DCFO time to respond quickly if the request has been rejected. The wireless provider may contact the customer of record to notify them of the disabling and involve them in the process.

The new collections in 47 CFR 20.23(c)(4) provide that a wireless provider may reverse a disabled device where it determines that the device was erroneously identified as contraband, and the wireless provider must notify the DCFO of the reversal. The wireless provider may choose to involve the DCFO in the review and reversal process. The DCFO must also provide notice to the Contraband Ombudsperson of the number of erroneously disabled devices. This process ensures the integrity of the contraband device disabling process by giving the wireless provider the opportunity to reverse a disabled device—with the ability to extend review to the DCFO—and by creating safeguards to make sure that the process is efficient and reliable.

The new collections in 47 CFR 20.23(d) regarding notification from

CMRS licensees to MAS operators of technical changes to their network are required so that MAS operators are given sufficient time to make necessary adjustments to maintain the effectiveness of their interdiction systems. In order to ensure that issues regarding notification to solutions providers of more frequent, localized wireless provider network changes are appropriately considered, CMRS licensees and MAS operators must negotiate in good faith to reach an agreement for notification for those types of network adjustments not covered by the notice requirement. CMRS licensees must provide notice of technical changes associated with an emergency immediately after the exigency to ensure that MAS operators continue to be notified of network changes that could impact MAS effectiveness.

BILLING CODE 6712–01–P

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060–XXXX; FR ID 50167]

Information Collection Being Submitted for Review and Approval to Office of Management and Budget

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal Agencies to take this opportunity to comment on the following information collection. Pursuant to the Small Business Paperwork Relief Act of 2002, the FCC seeks specific comment on how it might “further reduce the information collection burden for small business concerns with fewer than 25 employees.” The Commission may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written comments and recommendations for the proposed information collection should be submitted on or before November 1, 2021.

ADDRESSES: Comments should be sent to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function. Your comment must be submitted into www.reginfo.gov per the above instructions for it to be considered. In addition to submitting in www.reginfo.gov also send a copy of your comment on the proposed information collection to Nicole Ongele, FCC, via email to PRA@fcc.gov and to Nicole.Ongele@fcc.gov. Include in the comments the OMB control number as shown in the **SUPPLEMENTARY INFORMATION** below.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection, contact Nicole Ongele at (202) 418–2991. To view a copy of this information collection request (ICR) submitted to OMB: (1) Go to the web page <http://www.reginfo.gov/public/do/PRAMain>, (2) look for the section of the web page called “Currently Under Review,” (3) click on the downward-pointing arrow in the “Select Agency” box below the “Currently Under Review” heading, (4) select “Federal Communications Commission” from the list of agencies presented in the “Select Agency” box, (5) click the “Submit” button to the right of the “Select Agency” box, (6) when the list of FCC ICRs currently under review appears, look for the Title of this ICR and then click on the ICR Reference Number. A copy of the FCC submission to OMB will be displayed.

SUPPLEMENTARY INFORMATION: As part of its continuing effort to reduce paperwork burdens, as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501–3520), the FCC invited the general public and other Federal Agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimates; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or

other forms of information technology. Pursuant to the Small Business Paperwork Relief Act of 2002, Public Law 107-198, see 44 U.S.C. 3506(c)(4), the FCC seeks specific comment on how it might “further reduce the information collection burden for small business concerns with fewer than 25 employees.”

OMB Control Number: 3060-XXXX.

Title: Private Entity Robocall and Spoofing Information Submission Portal, FCC Form 5642.

Form Number: FCC Form 5642.

Type of Review: New collection.

Respondents: Business or other for-profit entities, and non-profit organizations.

Number of Respondents and Responses: 50 respondents; 50 responses.

Estimated Time per Response: 1 hour.

Frequency of Response: On occasion reporting requirement; third party disclosure requirement.

Obligation to Respond: Voluntary. Statutory authority for this information collection is contained in the TRACED Act section 10(a).

Total Annual Burden: 50 hours.

Total Annual Cost: No Cost.

Needs and Uses: Section 10(a) of the Pallone-Thune Telephone Robocall Abuse Criminal Enforcement and Deterrence Act (TRACED Act) directs the Commission to establish regulations to create a process that “streamlines the ways in which a private entity may voluntarily share with the Commission information relating to” a call or text message that violates prohibitions

regarding robocalls or spoofing set forth section 227(b) and 227(e) of the Communications Act of 1934, as amended. On June 17, 2021, the Commission adopted a *Report and Order* to implement section 10(a) by creating an online portal located on the Commission’s website where private entities may submit information about robocall and spoofing violations. The Enforcement Bureau (Bureau) will manage this portal.

A private entity is any entity other than (1) an individual natural person or (2) a public entity. A public entity is any governmental organization at the federal, state, or local level. Thus, the portal is not intended for individual consumers who already have a mechanism to submit robocall or spoofing complaints via the Commission’s informal complaint process.

The portal will request private entities to submit certain minimum information including, but not necessarily limited to, the name of the reporting private entity, contact information, including at least one individual name and means of contacting the entity (e.g., a phone number), the caller ID information displayed, the phone number(s) called, the date(s) and time(s) of the relevant calls or texts, the name of the reporting private entity’s service provider, and a description of the problematic calls or texts. Although the portal will not reject submissions that fail to include the above information, such failure will make it more difficult for the Bureau to investigate fully and take appropriate

enforcement action. Once submitted, the Bureau will review to determine whether the information presents evidence of a violation of the Commission’s rules. The Bureau may share submitted information with the Department of Justice, Federal Trade Commission, other federal agencies combatting robocalls, state attorney general offices, other law enforcement entities with which the Commission has information sharing agreements, and the registered traceback consortium.

Federal Communications Commission.

BILLING CODE 6712-01-P

FEDERAL COMMUNICATIONS COMMISSION

[FR ID 50787]

Open Commission Meeting Thursday, September 30, 2021

The Federal Communications Commission will hold an Open Meeting on the subjects listed below on Thursday, September 30, 2021, which is scheduled to commence at 10:30 a.m.

Due to the current COVID-19 pandemic and related agency telework and headquarters access policies, this meeting will be in a wholly electronic format and will be open to the public on the internet via live feed from the FCC’s web page at www.fcc.gov/live and on the FCC’s YouTube channel.

| Item No. | Bureau | Subject |
|----------|--|--|
| 1 | PUBLIC SAFETY & HOMELAND SECURITY | <i>Title:</i> Resilient Networks (PS Docket No. 21-346); Amendments to Part 4 of the Commission’s Rules Concerning Disruptions to Communications (PS Docket No. 15-80); New Part 4 of the Commission’s Rules Concerning Disruptions to Communications (ET Docket No. 04-35). <i>Summary:</i> The Commission will consider a Notice of Proposed Rulemaking to examine the Wireless Network Resiliency Cooperative Framework, the FCC’s network outage reporting rules, and strategies to address the effect of power outages on communications networks. |
| 2 | PUBLIC SAFETY & HOMELAND SECURITY AND WIRELESS TELECOMMUNICATIONS. | <i>Title:</i> Reassessing 4.9 GHz Band for Public Safety (WP Docket No. 07-100). <i>Summary:</i> The Commission will consider an Order on Reconsideration that would vacate the 2020 Sixth Report and Order, which adopted a state-by-state leasing framework for the 4.9 GHz (4940-4900 MHz) band. The Commission also will consider an Eighth Further Notice of Proposed Rulemaking that would seek comment on a nationwide framework for the 4.9 GHz band, ways to foster greater public safety use, and ways to facilitate compatible non-public safety access to the band. |
| 3 | OFFICE OF ENGINEERING & TECHNOLOGY | <i>Title:</i> Authorizing 6 GHz Band Automated Frequency Coordination Systems (ET Docket No. 21-352). <i>Summary:</i> The Commission will consider a Public Notice beginning the process for authorizing Automated Frequency Coordination Systems to govern the operation of standard-power devices in the 6 GHz band (5.925-7.125 GHz). |
| 4 | OFFICE OF ENGINEERING & TECHNOLOGY | <i>Title:</i> Spectrum Requirements for the Internet of Things (ET Docket No. 21-353). |
