Order Scheduling Prehearing Conference

This proceeding commenced with the filing of a complaint on July 14, 2021. The complaint was published in the **Federal Register** on July 21, 2021. 86 FR 38,450. On August 23, 2021, the Acting Chairman of the Consumer Product Safety Commission appointed me as the presiding officer for this proceeding. An interagency agreement for the loan of my services to the CPSC was finalized on September 22, 2021.

Under 16 CFR 1025.21, an initial prehearing conference shall be held within fifty days of the publication of the complaint in the **Federal Register** unless "unusual circumstances would render it impractical or valueless" to do so. Due to the timing of my appointment and the interagency agreement, holding a prehearing conference within fifty days of publication is impossible, and therefore impractical. A prehearing conference shall be held as follows:

Date: Friday, October 15, 2021

Time: 2:30 p.m. Eastern Time

Means: Video teleconference

Before the prehearing conference, the parties must confer and discuss the issues listed in 16 CFR 1025.21(a)(1) through (14). The parties should also discuss a plan for discovery and whether there are issues as to preservation, retrieval, review, disclosure, or production of discoverable information, including issues as to the disclosure or discovery of electronically stored information. The parties must submit by October 12, 2021, a joint letter summarizing the result of their discussion and proposing the procedures for resolving this proceeding, including proposed deadlines. If the parties are unable to reach agreement about proposed procedures and deadlines, their letter should describe their disagreements. The parties should also report whether they have discussed settlement and, if so, whether they believe settlement is possible or likely.

The Consumer Products Safety Commission should arrange for a court reporter for the prehearing conference. I direct that notice of this conference be

published in the **Federal Register**. 16 CFR 1025.21(b).

SUPPLEMENTARY INFORMATION: The Department is rescinding the Hotline Complaint Files of the Inspector General system of records notice in order to consolidate the records that were previously maintained in that system with the Investigative Files of the Inspector General system of records.

The main reason the Department has modified the Investigative Files of the Inspector General system of records is to add a routine use entitled “Whistleblower Reprisal Disclosure” in order to expand the circumstances in which the OIG may disclose records to fulfil the whistleblower reprisal investigation reporting requirements of 41 U.S.C. 4712(b)(1). This routine use will allow the OIG to non-consensually disclose records to a public or private entity that employs or employed a complainant and that, at the time of the alleged reprisal, is a contractor, subcontractor, grantee, or subgrantee of the Department.

Additionally, the Department modified this system of records to reflect the inclusion of the records previously covered by the system of records notice entitled “Hotline Complaint Files of the Inspector General,” which is being rescinded by this notice.

The Department modified the section entitled “SECURITY CLASSIFICATION” from “none” to “unclassified” to comply with the requirements of Office of Management and Budget (OMB) Circular A–108 entitled “Federal Agency Responsibilities for Review, Reporting, and Publication under the Privacy Act.”

The Department modified the section entitled “SYSTEM LOCATION” to reflect the current name and location of the OIG in Potomac Center Plaza, and the data center and alternate site where records are maintained. The section entitled “SYSTEM MANAGER(S)” has also been updated to reflect the current location of the Office of Inspector General in Potomac Center Plaza.

The section entitled “PURPOSE(S) OF THE SYSTEM” has been updated to include the purposes for maintaining the records previously maintained in the Hotline Complaint Files of the Inspector General system of records. These purposes included maintaining records of complaints and allegations, documenting the outcome of the disposition of those complaints and allegations, and maintaining records for the purpose of reporting to entities responsible for oversight of Federal funds. This section also has been

updated to reflect the entity to which the Inspectors General must report their activities as the Council of Inspectors General for Integrity and Efficiency (CIGIE). Finally, this section has been updated to include conducting activities to prevent and detect fraud and abuse in programs and operations of the Department, such as fraud awareness and detection training, as a purpose for the records maintained in the system.

The section entitled “CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM” has been updated to include complainants as a category of individuals covered by the system. This section has also been updated to explain that complainants, witnesses, and subjects include individuals who are sources of information or have made complaints to the OIG Hotline, individuals who allegedly have knowledge regarding wrongdoing affecting the programs and operations of the Department, and individuals about whom complaints and allegations have been made.

The section entitled “CATEGORIES OF RECORDS IN THE SYSTEM” has been updated to include hotline complaint files as a category of records in the system and to explain that the information contained in investigation and hotline complaint files will include, among other things, evidence obtained by subpoena, search warrant, or other process. This section has also been updated to include additional information about the specific data elements that may be maintained in hotline complaint files. The section has also been updated to include records needed to calculate and report statistical information on investigation efforts and manage property resources used in investigation activities.

The section entitled “RECORD SOURCE CATEGORIES” has been updated to include the sources of records from which a complaint may be received. This section has also been updated to include recipients and subjects of subpoenas, search warrants, or other processes as sources of records maintained in the system. Finally, this section has been updated to indicate that information may also be obtained from other persons or entities from which information is obtained under a routine use.

The section entitled “ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND PURPOSES OF SUCH USES,” has been modified, as described below.

The Department modified routine use (1), entitled “Disclosure for Use by Other Law Enforcement Agencies,” to

align it with language used by the Department to permit disclosures of records for the same purpose in the system of records notice entitled “The Office of Inspector General Data Analytics System (ODAS)” (18–10–02).

The Department modified routine use (3), previously entitled “Disclosure for Use in Employment, Employee Benefit, Security Clearance, and Contracting Decisions,” to standardize it with other language used by the Department to permit disclosures of records in Department systems of records.

The Department modified routine use (4), previously entitled “Disclosure to Public and Private Sources in Connection with the Higher Education Act of 1965, as Amended (HEA),” to change the word “Sources” in the title to “Entities” to more accurately reflect that this disclosure is to entities participating in programs authorized by the HEA.

The Department modified routine use (5), previously entitled “Litigation Disclosure,” to standardize it with other language used by the Department to permit disclosures of records in Department systems in the context of judicial and administrative litigation and alternative dispute resolution.

The Department modified routine use (6), previously entitled “Disclosure to Contractors and Consultants,” to remove “consultants” from the title and to remove the reference to “Privacy Act safeguards, as required under 5 U.S.C. 552a(m)” to now require that all contractors agree to establish and maintain safeguards to protect the security and confidentiality of the disclosed records. The Department is also removing language that indicated that the Department would require these safeguards “before entering into such a contract” to instead indicate that they will be included “as part of such a contract.”

The Department modified routine use (9), entitled “Congressional Member Disclosure,” to standardize it with other language used by the Department to permit disclosures of records to a congressional member in response to inquiries from such member made at the written request of the individual whose records are being disclosed.

The Department modified routine use (14), entitled “Disclosure to Federal Entities Responsible for Oversight of Federal Funds,” to remove obsolete references to the former Recovery Accountability and Transparency Board (RATB), and any successor entity, and the Government Accountability and Transparency Board (GATB), and any successor entity, and state, local, and foreign agencies; and, to add disclosures

to Federal boards responsible for coordinating and conducting oversight of Federal funds or for assisting in the enforcement, investigation, prosecution, or oversight of violations of administrative, civil, or criminal law or regulation.

Pursuant to the requirements in OMB Memorandum M–17–12 entitled “Preparing for and Responding to a Breach of Personally Identifiable Information,” the OIG added an additional routine use (16) to permit the Department to disclose records from this system of records in the course of assisting another Federal agency or entity in responding to a breach of personally identifiable information, as well as modified routine use (15), permitting the Department to disclose records from this system of records in responding to a breach of personally identifiable information in this system of records.

The Department added routine use (17), entitled “Whistleblower Reprisal Disclosure,” to permit the OIG to disclose records in this system of records not only to a complainant alleging whistleblower reprisal, but also to a public or private entity that employs or employed a complainant and that, at the time of the alleged reprisal, was a contractor, subcontractor, grantee, or subgrantee of the Department, to the extent necessary to fulfill the whistleblower reprisal investigation reporting requirements of 41 U.S.C. 4712(b)(1), or any other whistleblower reprisal law that requires disclosure to a complainant or to an entity covered by the whistleblower reprisal law that employs or employed the complainant.

The Department added routine use (18), entitled “Fraud Awareness and Prevention Disclosure,” to permit the OIG to disclose records to participants in Department programs and any public or private agency responsible for oversight of the participants in order to conduct activities authorized by Section 4(a)(3) of the Inspector General Act of 1978, as amended, to prevent and detect fraud and abuse in the programs and operations of the Department, including fraud awareness and detection training.

The Department added routine use (19), entitled “Victim Assistance,” to permit the OIG to provide complainants, victims, or alleged victims with information and explanations about the progress or results of the investigation or case arising from the matters about which they complained and/or in which they may have been a victim.

The Department added routine use (20), entitled “Disclosure to Former Employees Pursuant to 5 U.S.C. 3322,”

to permit the OIG to disclose records to a former employee of the Department who resigns from Federal service prior to the resolution of a personnel investigation in order to fulfill the personnel record notation requirements of 5 U.S.C. 3322.

The Department modified the section entitled “POLICIES AND PRACTICES FOR STORAGE OF RECORDS” to remove reference to bar-lock file cabinets and replace it with a description of the current storage method in safes and cabinets in secured rooms.

The Department modified the section entitled “POLICIES AND PRACTICES FOR RETENTION AND DISPOSAL OF RECORDS” to specify the current applicable Department records and disposition schedules covering records in this system.

The Department modified the section entitled “ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS” to include additional details on physical security, storage, and access to electronic records.

The Department also added a section entitled “HISTORY,” as required by OMB Circular A–108, entitled “Federal Agency Responsibilities for Review, Reporting, and Publication under the Privacy Act.”

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND PURPOSES OF SUCH USES:

Federal Energy Regulatory Commission

[Docket No. CP20-493-000]

Tennessee Gas Pipeline Company, L.L.C.; Notice of Availability of the Final Environmental Impact Statement for the Proposed; East 300 Upgrade Project

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared a final environmental impact statement (EIS) for the East 300 Upgrade Project, proposed by Tennessee Gas Pipeline Company, L.L.C. (Tennessee) in the above-referenced docket. Tennessee requests authorization to modify two existing compressor stations and construct one new compressor station in Pennsylvania and New Jersey to create 115 million cubic feet per day of firm transportation capacity on Tennessee's existing 300 Line for Consolidated Edison Company of New York, Inc.

The final EIS assesses the potential environmental effects of the construction and operation of the East 300 Upgrade Project in accordance with the requirements of the National Environmental Policy Act (NEPA). The EIS is not a decision document. It presents Commission staff's independent analysis of the environmental issues for the Commission to consider when addressing the merits of all issues in this proceeding.

The final EIS responds to comments that were received on the Commission's February 19, 2021 environmental assessment (EA) and July 2, 2021 draft EIS¹ and discloses downstream greenhouse gas emissions for the project. With the exception of climate change impacts, the FERC staff concludes that approval of the proposed project, with the mitigation measures recommended in this EIS, would not result in significant environmental impacts. FERC staff continues to be unable to determine significance with regards to climate change impacts.

The final EIS incorporates the above-referenced EA, which addressed the potential environmental effects of the construction and operation of the following project facilities:

- Modifications at existing Compressor Station 321 in Susquehanna County, Pennsylvania, including the installation of one Solar Taurus 70

¹ The project's EA is available on eLibrary under accession no. 20210219-3034 and the draft EIS is available under accession no. 20210702-3037.
