

proposed SBIR/STTR project to the appropriate NSF Program Director (PD) for review and possible proposal submission invitation. This Project Pitch is to be submitted by the applying small business (as “proposer”) to the relevant NSF SBIR/STTR Phase I technology topic. The Project Pitch outlines solicitation-specific aspects of the project (such as the proposed technology innovation and project objectives with associated level of technical risk). In the past, this Project Pitch (previously referred to as the Executive Summary) was an optional submission via email as an attached two to three-page (maximum) document and was often in varying formats or missing some parts of the required document elements, which in turn caused delays or additional corrections on behalf of the proposer. The NSF SBIR/STTR Phase I Project Pitch form captures the same requested information, as outlined in the NSF SBIR/STTR Phase I Program solicitation, but all within one secure, web-based form. In specific, the form collects submitting proposer company and team information; the proposed technology innovation; the technical objectives and challenges; and the market opportunity. The form also allows the proposer to choose (from a drop-down menu) the most relevant NSF SBIR/STTR Phase I technical topic area, ensuring that the submitted Project Pitch goes to the most appropriate Program Director.

**Respondents:** Small businesses who submit proposals to NSF’s SBIR/STTR Phase I Program.

**Estimated Number of Annual Respondents:** 2000.

**Burden on the Public:** 2 hours (per response) for an annual total of 4000 hours.

Dated: September 28, 2021.

**Suzanne H. Plimpton,**

## NATIONAL SCIENCE FOUNDATION

### Advisory Committee for Biological Sciences; Notice of Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92–463, as amended), the National Science Foundation (NSF) announces the following meeting:

**Name and Committee Code:** Advisory Committee for Biological Sciences (#1110).

**Date and Time:** November 3, 2021, 10:00 a.m.–4:30 p.m. EST; November 4, 2021, 10:00 a.m.–12:45 p.m. EST.

**Place:** National Science Foundation, 2415 Eisenhower Avenue, Alexandria, VA 22314.

Due to ongoing social distancing best practices because of COVID–19, the meeting will be held virtually among the Advisory Committee members. Livestreaming will be accessible through this page: <https://nsf.gov/bio/advisory.jsp>.

**Type of Meeting:** Open.

**Contact Person:** Karen Cone, National Science Foundation, 2415 Eisenhower Avenue, Alexandria, VA 22314 Telephone: (703) 292–8400.

**Purpose of Meeting:** The Advisory Committee (AC) for the Directorate for Biological Sciences (BIO) provides advice, recommendations, and oversight concerning major program emphases, directions, and goals for the research-related activities of the divisions that make up BIO.

**Agenda:** Agenda items will include a directorate business update, update on BIO’s broadening participation portfolio, a joint session with the Mathematical and Physical Sciences Advisory Committee (MPS AC) to discuss the MPS AC subcommittee report on “MPS and the Living World”, update on Technology, Innovation and Partnerships, updates from the BIO AC liaisons to the Committee on Equal Opportunities in Science and Engineering and to the AC for Environmental Research and Education, discussion with the NSF Director, and discussion of BIO’s response to the Division of Biological Infrastructure Committee of Visitors report.

Dated: September 27, 2021.

**Crystal Robinson,**

*Committee Management Officer.*

## NUCLEAR REGULATORY COMMISSION

[Docket No. 70–7019; NRC–2021–0182]

### Oregon State University

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** License amendment application; opportunity to request a hearing and to petition for leave to intervene.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC) staff has received an application from Oregon State University (OSU or the licensee) to renew special nuclear materials (SNM) license number SNM–2013. The renewed license would authorize the applicant to continue research on used research and test reactor fuel rods that contain greater than critical mass amounts of special nuclear material. The license renewal would allow OSU to continue licensed activities for 10 years beyond its current license.

**DATES:** A request for a hearing or petition for leave to intervene must be filed by November 30, 2021.

**ADDRESSES:** Please refer to Docket ID NRC–2021–0182 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:

- **Federal Rulemaking Website:** Go to <https://www.regulations.gov> and search for Docket ID NRC–2021–0182. Address questions about Docket IDs in *Regulations.gov* to Stacy Schumann; telephone: 301–415–0624; email: [Stacy.Schumann@nrc.gov](mailto:Stacy.Schumann@nrc.gov). For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- **NRC’s Agencywide Documents Access and Management System (ADAMS):** You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC’s Public Document Room (PDR) reference staff at 1–800–397–4209, 301–415–4737, or by email to [pdr.resource@nrc.gov](mailto:pdr.resource@nrc.gov). The Oregon State University Application for Renewal of SNM–2013 is available in ADAMS under Accession No. ML21235A325.

- **Attention:** The PDR, where you may examine and order copies of public documents, is currently closed. You may submit your request to the PDR via email at [pdr.resource@nrc.gov](mailto:pdr.resource@nrc.gov) or call 1–800–397–4209 or 301–415–4737, between 8:00 a.m. and 4:00 p.m. (ET), Monday through Friday, except Federal holidays.

### FOR FURTHER INFORMATION CONTACT:

Jenny Tobin, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001, telephone: 301–415–2328, email: [Jennifer.Tobin@nrc.gov](mailto:Jennifer.Tobin@nrc.gov).

### SUPPLEMENTARY INFORMATION:

#### I. Introduction

The NRC has received, by letter dated July 31, 2021 (ADAMS Accession Number ML21235A325), an application from OSU to renew special nuclear materials license number SNM–2013, which authorizes OSU to conduct non-destructive research on used fuel rods from five research and test reactors. The license renewal would allow OSU to continue licensed activities for 10 years. Paragraph 70.38(a) of title 10 of the *Code of Federal Regulations* (10 CFR) states that a specific license expires at the end of the day on the expiration date stated in the license unless the licensee has filed an application for renewal under § 70.33 not less than 30 days

before the expiration date stated in the existing license. The term of the current license expired on August 31, 2021; however, the application for renewal was made at least 30 days prior to the expiration, and thus, the current license is still in effect. The licensee is authorized to use SNM under 10 CFR part 70.

An NRC administrative completeness review, dated September 15, 2021 (ADAMS Accession No. ML21257A435), found the application acceptable for a technical review. During the technical review, the NRC will be reviewing the application in areas that include, but are not limited to, radiation safety, chemical safety, fire safety, security, environmental protection, and material control/accountability. Prior to approving the request to renew special nuclear materials license number SNM-2013, the NRC will need to make the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the NRC's regulations. The NRC's findings will be documented in a safety evaluation report.

## II. Opportunity To Request a Hearing and Petition for Leave To Intervene

Within 60 days after the date of publication of this notice, any person (petitioner) whose interest may be affected by this action may file a request for a hearing and petition for leave to intervene (petition) with respect to the renewal of the special nuclear materials license. Petitions shall be filed in accordance with the Commission's "Agency Rules of Practice and Procedure" in 10 CFR part 2. Interested persons should consult 10 CFR 2.309. If a petition is filed within 60 days, the presiding officer will rule on the petition and, if appropriate, a notice of a hearing will be issued.

Petitions must be filed no later than 60 days from the date of publication of this notice in accordance with the filing instructions in the "Electronic Submissions (E-Filing)" section of this document. Petitions and motions for leave to file new or amended contentions that are filed after the deadline will not be entertained absent a determination by the presiding officer that the filing demonstrates good cause by satisfying the three factors in 10 CFR 2.309(c)(1)(i) through (iii).

A State, local governmental body, Federally recognized Indian Tribe, or designated agency thereof, may submit a petition to the Commission to participate as a party under 10 CFR 2.309(h), no later than 60 days from the date of publication of this notice. Alternatively, a State, local governmental body, Federally

recognized Indian Tribe, or agency thereof may participate as a non-party under 10 CFR 2.315(c).

For information about filing a petition and about participation by a person not a party under 10 CFR 2.315, see ADAMS Accession No. ML20340A053 (<https://adamswebsearch2.nrc.gov/webSearch2/main.jsp?AccessionNumber=ML20340A053>) and on the NRC website at <https://www.nrc.gov/about-nrc/regulatory/adjudicatory/hearing.html#participate>.

## III. Electronic Submissions (E-Filing)

All documents filed in NRC adjudicatory proceedings, including documents filed by an interested State, local governmental body, Federally recognized Indian Tribe, or designated agency thereof that requests to participate under 10 CFR 2.315(c), must be filed in accordance with 10 CFR 2.302. The E-Filing process requires participants to submit and serve all adjudicatory documents over the internet, or in some cases, to mail copies on electronic storage media, unless an exemption permitting an alternative filing method, as discussed below, is granted. Detailed guidance on electronic submissions is located in the Guidance for Electronic Submissions to the NRC (ADAMS Accession No. ML13031A056) and on the NRC website at <https://www.nrc.gov/site-help/e-submittals.html>.

To comply with the procedural requirements of E-Filing, at least 10 days prior to the filing deadline, the participant should contact the Office of the Secretary by email at [hearing.docket@nrc.gov](mailto:hearing.docket@nrc.gov), or by telephone at 301-415-1677, to (1) request a digital identification (ID) certificate, which allows the participant (or its counsel or representative) to digitally sign submissions and access the E-Filing system for any proceeding in which it is participating; and (2) advise the Secretary that the participant will be submitting a petition or other adjudicatory document (even in instances in which the participant, or its counsel or representative, already holds an NRC-issued digital ID certificate). Based upon this information, the Secretary will establish an electronic docket for the proceeding if the Secretary has not already established an electronic docket.

Information about applying for a digital ID certificate is available on the NRC's public website at <https://www.nrc.gov/site-help/e-submittals/getting-started.html>. After a digital ID certificate is obtained and a docket created, the participant must submit adjudicatory documents in Portable

Document Format. Guidance on submissions is available on the NRC's public website at <https://www.nrc.gov/site-help/electronic-sub-ref-mat.html>. A filing is considered complete at the time the document is submitted through the NRC's E-Filing system. To be timely, an electronic filing must be submitted to the E-Filing system no later than 11:59 p.m. Eastern Time on the due date. Upon receipt of a transmission, the E-Filing system timestamps the document and sends the submitter an email confirming receipt of the document. The E-Filing system also distributes an email that provides access to the document to the NRC's Office of the General Counsel and any others who have advised the Office of the Secretary that they wish to participate in the proceeding, so that the filer need not serve the document on those participants separately. Therefore, applicants and other participants (or their counsel or representative) must apply for and receive a digital ID certificate before adjudicatory documents are filed to obtain access to the documents via the E-Filing system.

A person filing electronically using the NRC's adjudicatory E-Filing system may seek assistance by contacting the NRC's Electronic Filing Help Desk through the "Contact Us" link located on the NRC's public website at <https://www.nrc.gov/site-help/e-submittals.html>, by email to [MSHD.Resource@nrc.gov](mailto:MSHD.Resource@nrc.gov), or by a toll-free call at 1-866-672-7640. The NRC Electronic Filing Help Desk is available between 9 a.m. and 6 p.m., Eastern Time, Monday through Friday, excluding government holidays.

Participants who believe that they have good cause for not submitting documents electronically must file an exemption request, in accordance with 10 CFR 2.302(g), with their initial paper filing stating why there is good cause for not filing electronically and requesting authorization to continue to submit documents in paper format. Such filings must be submitted in accordance with 10 CFR 2.302(b)-(d). Participants filing adjudicatory documents in this manner are responsible for serving their documents on all other participants. Participants granted an exemption under 10 CFR 2.302(g)(2) must still meet the electronic formatting requirement in 10 CFR 2.302(g)(1), unless the participant also seeks and is granted an exemption from 10 CFR 2.302(g)(1).

Documents submitted in adjudicatory proceedings will appear in the NRC's electronic hearing docket, which is publicly available at <https://adams.nrc.gov/ehd>, unless excluded pursuant to an order of the presiding officer. If you do not have an NRC-

issued digital ID certificate as described above, click “cancel” when the link requests certificates and you will be automatically directed to the NRC’s electronic hearing dockets where you will be able to access any publicly available documents in a particular hearing docket. Participants are requested not to include personal privacy information such as social security numbers, home addresses, or personal phone numbers in their filings unless an NRC regulation or other law requires submission of such information. With respect to copyrighted works, except for limited excerpts that serve the purpose of the adjudicatory filings and would constitute a Fair Use application, participants should not include copyrighted materials in their submission.

Dated: September 27, 2021.

For the Nuclear Regulatory Commission.

**Jacob I. Zimmerman,**

## NUCLEAR REGULATORY COMMISSION

[Docket No. EA–21–014; NRC–2021–0177]

### Order Suspending General License Authority To Export Radioactive Material and Deuterium to China General Nuclear (CGN), CGN Subsidiaries, or Related Entities

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Order; issuance.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC) is issuing an Order suspending the general license authority under NRC regulations to export radioactive material and deuterium to China General Nuclear (CGN), CGN subsidiaries, or related entities.

**DATES:** This Order takes effect immediately.

**ADDRESSES:** Please refer to Docket ID NRC–2021–0177 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:

- *Federal Rulemaking Website:* Go to <https://www.regulations.gov> and search for Docket ID NRC–2021–0177. Address questions about Docket IDs in *Regulations.gov* to Stacy Schumann; telephone: 301–415–0624; email:

*Stacy.Schumann@nrc.gov*. For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC’s Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC’s Public Document Room (PDR) reference staff at 1–800–397–4209, 301–415–4737, or by email to *pdr.resource@nrc.gov*.

- *Attention:* The PDR, where you may examine and order copies of public documents, is currently closed. You may submit your request to the PDR via email at *pdr.resource@nrc.gov* or call 1–800–397–4209 or 301–415–4737, between 8:00 a.m. and 4:00 p.m. (ET), Monday through Friday, except Federal holidays.

**FOR FURTHER INFORMATION CONTACT:** Office of International Programs, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001, telephone: 301–287–9241, email: *IP.Resource@nrc.gov*.

**SUPPLEMENTARY INFORMATION:** The text of the Order is attached.

Dated: September 27, 2021.

For the Nuclear Regulatory Commission.

**Nader L. Mamish,**

*Director, Office of International Programs.*

**Attachment—Order**

**In the Matter of General License Holders—EA–21–014**

### Order Suspending General License Authority To Export Radioactive Material and Deuterium to China General Nuclear (CGN), CGN Subsidiaries, or Related Entities (Effective Immediately)

The licensees that are subject to this order are authorized by the NRC through the general license granted in sections 110.21 through 110.24 of title 10 of the *Code of Federal Regulations* (CFR), pursuant to Sections 54, 64, 82, and 109b of the Atomic Energy Act of 1954, as amended (AEA), to export radioactive material and deuterium to CGN, CGN subsidiaries, or related entities. The Executive Branch has determined that suspending general license authority under 10 CFR part 110 for exports to CGN, CGN subsidiaries, and related entities is necessary to further the national security interests of the United States and to enhance the United States common defense and security consistent with the Atomic

Energy Act of 1954, as amended. This determination is an extension of the licensing framework for civil nuclear exports from the United States to China established by the Executive Branch in 2018. For this reason, the Executive Branch has recommended that the NRC suspend the general license authority in 10 CFR 110.21 through 110.24 for any exports of radioactive material and deuterium to CGN, CGN subsidiaries, and related entities.

Accordingly, pursuant to Sections 161b., 161i., 183, and 186 of the AEA, and 10 CFR 110.20(b) and (f) and 10 CFR 110.50(a)(1) and (2), NRC general license authority to export radioactive material and deuterium to CGN, CGN subsidiaries, or related entities under Sections 54, 64, 82 and 109b of the AEA and 10 CFR 110.21 through 110.24 is suspended, effective immediately. This suspension will remain in effect until further notice.

Dated: September 27, 2021.

For the Nuclear Regulatory Commission.

**Nader L. Mamish,**

*Director, Office of International Programs.*

## NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50–454 and 50–455; NRC–2020–0259]

### Exelon Generation Company, LLC; Byron Station, Unit Nos. 1 and 2

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** License amendment application; withdrawal by applicant.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC) has granted the request of Exelon Generation Company, LLC (Exelon, the licensee) to withdraw its application dated September 24, 2020, for proposed amendments to Renewed Facility Operating License Nos. NPF–37 and NPF–66 for Byron Station, Unit Nos. 1 and 2 (Byron), respectively. The proposed amendments would have made changes to technical specifications (TSs) definitions and administrative controls for the permanently defueled condition.

**DATES:** October 1, 2021.

**ADDRESSES:** Please refer to Docket ID NRC–2020–0259 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:
