

consists of 792 total reporters—727 domestically chartered banks and 65 foreign-related institutions³—covering all 12 Federal Reserve Districts. The panel accounts for about 89 percent of the total assets of U.S. commercial banks, as well as a high level of coverage for most reported items. While the number of panel respondents tends to run below the authorized size due to mergers among reporters and loss of respondents due to the voluntary nature of the collection, the current number of respondents is unusually low relative to the authorized size because the recruitment of new respondents was temporarily paused with the onset of the COVID-19 pandemic in 2020.

Quarterly Call Reports are used to benchmark the universe estimates of small domestically chartered banks⁴ and foreign-related institutions. Average revisions to the estimates of small banks over the last 16 benchmarks—from March 2017 to December 2020—were somewhat larger than those over the previous renewal cycle, while those for the foreign-related institutions shrank considerably. While the average revisions are not overly large, they are still significant. Even so, the Board proposes reducing the authorized panel size from 875 to 850 in light of the continuing consolidation in the commercial bank universe as well as the ongoing difficulty in attracting and maintaining respondents due to the voluntary nature of this collection.

Legal authorization and confidentiality: The FR 2644 is authorized by section 2A of the Federal Reserve Act (FRA), which states that the Board “shall maintain long run growth of the monetary and credit aggregates commensurate with the economy’s long run potential to increase production, so as to promote effectively the goals of maximum employment, stable prices, and moderate long-term interest rates” (12 U.S.C. 225a.) and by section 11(a)(2) of the FRA, which authorizes the Board to require a depository institution to provide “reports of its liabilities and assets as the Board may determine to be necessary or desirable to enable the Board to discharge its responsibility to monitor and control monetary and credit aggregates” (12 U.S.C. 248(a)(2)). Section 7(c)(2) of the International Banking Act of 1978 makes U.S. branches and agencies of foreign banks subject to the reporting requirements of section 11(a)(2) of the FRA (12 U.S.C.

3105(c)(2)). The FR 2644 is voluntary, although the Board would have the authority to require depository institutions to file these reports.

Although the Board releases aggregate data derived from the FR 2644 in the weekly H.8 Statistical Release, individual bank information provided by each respondent is treated as confidential because that information constitutes nonpublic commercial or financial information, which is both customarily and actually treated as private by the respondent, and thus may be kept confidential by the Board pursuant to exemption 4 of the Freedom of Information Act (5 U.S.C. 552(b)(4)).
