Such accessible document formats include Microsoft Word or equivalent and Portable Document Format with OCR. Submissions using these formats facilitate DOL's compliance with Section 508 of the Rehabilitation Act of 1973 (29 U.S.C. 794d), as amended.

FOR FURTHER INFORMATION CONTACT:

Matthew Fraterman. Please see contact information above.

SUPPLEMENTARY INFORMATION: The 2020 Findings on the Worst Forms of Child Labor report (TDA report), published on September 29, 2021, assesses efforts of 131 countries to eliminate the worst forms of child labor in 2020 and assesses whether countries made significant, moderate, minimal, or no advancement during that year. It also suggests actions foreign countries can take to eliminate the worst forms of child labor through legislation, enforcement, coordination, policies, and social programs. The 2020 edition of the List of Goods Produced by Child Labor or Forced Labor (TVPRAList), published on September 30, 2020, and updated on June 23, 2021, makes available to the public a list of goods from countries that ILAB has reason to believe are produced by child labor or forced labor in violation of international standards. Finally, the List of Products

Produced by Forced or Indentured Child Labor (E.O. List), most recently updated on March 25, 2019, provides a list of products, identified by country of origin, that DOL, in consultation and cooperation with the Departments of State (DOS) and Homeland Security (DHS), has a reasonable basis to believe might have been mined, produced, or manufactured with forced or indentured child labor. Relevant information submitted by the public will be used by DOL in preparing the next edition of the TDA report, to be published in 2022; the next edition of the TVPRAList, which will also be published in 2022; and for possible updates to the E.O. List as needed.

This notice is also a request for information and/or comment on Comply Chain: Business Tools for Labor Compliance in Global Supply Chains (Comply Chain). ILAB is seeking information on current practices of firms, business associations, and other private sector groups to reduce the likelihood of child labor and forced labor in the production of goods. This information and/or comment is sought to fulfill ILAB's mandate under the Trafficking Victims Protection Reauthorization Act of 2005 (TVPRA) to work with persons who are involved in the production of goods made with forced labor or child labor. Comply Chain seeks to address this mandate through the creation of a standard set of practices that will reduce the likelihood that such persons will produce goods using forced labor or child labor. Comply Chain also achieves a much broader purpose by actively supporting the efforts of companies that seek to address these issues within their own supply chains. Relevant information and/or comment submitted to ILAB will be used to improve and update Comply Chain to better meet the mandates of the TVPRA and help companies and industry groups seeking to develop robust social compliance systems for their global production.

I. The Trade and Development Act of 2000 (TDA), Public Law 106–200 (2000), established eligibility criterion for receipt of trade benefits under the Generalized System of Preferences (GSP). The TDA amended the GSP reporting requirements of Section 504 of the Trade Act of 1974, 19 U.S.C. 2464, to require that the President's annual report on the status of internationally recognized worker rights include “findings by the Secretary of Labor with respect to the beneficiary country's implementation of its international commitments to eliminate the worst forms of child labor.”
