SUPPLEMENTARY INFORMATION:

TSA published a **Federal Register** notice, with a 60-day comment period soliciting comments, of the following collection of information on June 30, 2021, 86 FR 34776.

Comments Invited

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The ICR documentation will be made available at <http://www.reginfo.gov> upon its submission to OMB. Therefore, in preparation for OMB review and approval of the following information collection, TSA is soliciting comments to—

(1) Evaluate whether the proposed information requirement is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Information Collection Requirement

Title: Critical Facility Information of the Top 100 Most Critical Pipelines.

Type of Request: Extension of a currently approved collection.

OMB Control Number: 1652-0050.

Form(s): Critical Facility Security Review; TSA Pipeline Cybersecurity Self-Assessment form.

Affected Public: Pipeline companies.

Abstract: The 9/11 Act specifically tasked TSA to develop and implement a plan for reviewing the pipeline security plans and inspecting critical facilities of the 100 most critical pipeline operators. *See* sec. 1557 of the 9/11 Act (Pub. L. 110-53; 121 Stat. 266, 475, Aug. 3, 2007; codified at 6 U.S.C. 1207(b)). TSA visits critical pipeline facilities and collects site-specific information from pipeline operators on

facility security policies, procedures, and physical security measures. TSA uses the information to determine strengths and weaknesses at the nation's critical pipeline facilities, areas to target for risk reduction strategies, pipeline industry implementation of the TSA Pipeline Security Guidelines, and operator implementation of recommendations made during TSA critical facility visits.

The collection of information is being revised to align the Critical Facility Security Review question set with the revised Pipeline Security Guidelines (with Change 1 (April 2021)), and to capture additional criticality criteria. In addition, on May 26, 2021, OMB approved the emergency request, requiring owner/operators of a critical hazardous liquid and natural gas pipeline or liquefied natural gas facility to review Section 7 of TSA's Pipeline Security Guidelines (with Change 1 (April 2021)), and assess current activities, using the TSA Pipeline Cybersecurity Self-Assessment form, to address cyber risk, and identify remediation measures that will be taken to fill those gaps and a timeframe for achieving those measures.

Number of Respondents: 260.

Estimated Annual Burden Hours: An estimated 1400 hours annually.¹

Dated: October 8, 2021.

Christina A. Walsh,

*TSA Paperwork Reduction Act Officer,
Information Technology.*

BILLING CODE 9110-05-P

DEPARTMENT OF HOMELAND SECURITY**Transportation Security Administration****Extension of Agency Information Collection Activity Under OMB Review: Pipeline Operator Security Information**

AGENCY: Transportation Security Administration, DHS.

ACTION: 30-Day notice.

SUMMARY: This notice announces that the Transportation Security Administration (TSA) has forwarded the Information Collection Request (ICR), Office of Management and Budget (OMB) control number 1652-0055, abstracted below, to OMB for review and approval of an extension of the

¹ The number of respondents and annual burden hours have been updated since the publication of the 60-day notice, which reported 160 respondents and 720 annual burden hours. The update was necessary due to the emergency revision of the collection to include the mandatory requirements.

currently approved collection under the Paperwork Reduction Act (PRA). The ICR describes the nature of the information collection and its expected burden. Specifically, the collection involves the submission of data concerning pipeline security incidents.

DATES: Send your comments by November 15, 2021. A comment to OMB is most effective if OMB receives it within 30 days of publication.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under Review—Open for Public Comments" and by using the find function.

SUPPLEMENTARY INFORMATION:

TSA published a **Federal Register** notice, with a 60-day comment solicitation period, of the following collection of information on June 30, 2021, 86 FR 34777.

Comments Invited

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The ICR documentation will be available at <http://www.reginfo.gov> upon its submission to OMB. Therefore, in preparation for OMB review and approval of the following information collection, TSA is soliciting comments to—

(1) Evaluate whether the proposed information requirement is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Information Collection Requirement

Title: Pipeline Operator Security Information.

Type of Request: Extension of a currently approved collection.

OMB Control Number: 1652–0055.

Forms(s): CISA Reporting System form.

Affected Public: Pipeline system operators.

Abstract: In addition to TSA's broad responsibility and authority for "security in all modes of transportation" under 49 U.S.C. 114(d), TSA is statutorily required to develop and transmit to pipeline operators security recommendations for natural gas and hazardous liquid pipelines and pipeline facilities. See sec. 1557 of the Implementing Recommendations of the 9/11 Commission Act of 2007, Public Law 110–53 (121 Stat. 266; August 3, 2007), codified at 6 U.S.C. 1207. Consistent with these requirements, TSA produced Pipeline Security Guidelines in December 2010, and April 2011, with updates published in March 2018 and April 2021. Among the recommendations, TSA encourages pipeline operators to notify TSA of all (1) incidents that may indicate a deliberate attempt to disrupt pipeline operations; and (2) activities that could be precursors to such an attempt.

In addition, on May 26, 2021, OMB approved TSA's request for an emergency revision of this information collection based on TSA's issuance of a Security Directive (SD) with requirements for TSA-specified critical pipeline owner/operators of hazardous liquid and natural gas pipelines and liquefied natural gas facilities to report cybersecurity incidents or potential cybersecurity incidents on their information and operational technology systems to the Cybersecurity and Infrastructure Security Agency (CISA) within 12 hours of identification of a cybersecurity incident using the CISA Reporting System. The SD also requires critical pipeline owner/operators to appoint cybersecurity coordinators, who must be available to TSA and CISA 24/7 to coordinate cybersecurity practices and address any incidents that arise, and to provide contact information for the coordinators to TSA.¹

Number of Respondents: 100.

¹ The additional requirement in the SD to conduct a cybersecurity assessment is covered under a separate OMB control number 1652–0050 Critical Facility Information of the Top 100 Most Critical Pipelines.

Estimated Annual Burden Hours: An estimated 4,033 hours annually.²

BILLING CODE 9110–05–P

INTERNATIONAL TRADE COMMISSION

[Investigation No. 337–TA–1221]

Certain Electronic Stud Finders, Metal Detectors and Electrical Scanners; Notice of Request for Submissions on the Public Interest

AGENCY: U.S. International Trade Commission.

ACTION: Notice.

SUMMARY: Notice is hereby given that on October 7, 2021, the presiding administrative law judge ("ALJ") issued an Initial Determination on Violation of Section 337. The ALJ also issued a Recommended Determination on remedy and bonding should a violation be found in the above-captioned investigation. The Commission is soliciting submissions on public interest issues raised by the recommended relief should the Commission find a violation. This notice is soliciting comments from the public only.

FOR FURTHER INFORMATION CONTACT:

Benjamin S. Richards, Esq., Office of the General Counsel, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436, telephone (202) 708–5453. Copies of non-confidential documents filed in connection with this investigation may be viewed on the Commission's electronic docket (EDIS) at <https://edis.usitc.gov>. For help accessing EDIS, please email EDIS3Help@usitc.gov. General information concerning the Commission may also be obtained by accessing its internet server at <https://www.usitc.gov>. Hearing-impaired persons are advised that information on this matter can be obtained by contacting the Commission's TDD terminal on (202) 205–1810.

SUPPLEMENTARY INFORMATION: Section 337 of the Tariff Act of 1930 provides that, if the Commission finds a violation, it shall exclude the articles concerned from the United States:

unless, after considering the effect of such exclusion upon the public health and welfare, competitive conditions in the United

States economy, the production of like or directly competitive articles in the United States, and United States consumers, it finds that such articles should not be excluded from entry.

19 U.S.C. 1337(d)(1). A similar provision applies to cease and desist orders. 19 U.S.C. 1337(f)(1).

The Commission is soliciting submissions on public interest issues raised by the recommended relief should the Commission find a violation, specifically: A limited exclusion order directed to certain electronic stud finders, metal detectors and electrical scanners imported, sold for importation, and/or sold after importation by respondents Stanley Black & Decker, Inc. and Black & Decker (U.S.) Inc. Parties are to file public interest submissions pursuant to 19 CFR 210.50(a)(4).

The Commission is interested in further development of the record on the public interest in this investigation. Accordingly, members of the public are invited to file submissions of no more than five (5) pages, inclusive of attachments, concerning the public interest in light of the ALJ's Recommended Determination on Remedy and Bonding issued in this investigation on October 7, 2021. Comments should address whether issuance of the recommended remedial order in this investigation, should the Commission find a violation, would affect the public health and welfare in the United States, competitive conditions in the United States economy, the production of like or directly competitive articles in the United States, or United States consumers.

In particular, the Commission is interested in comments that:

- (i) Explain how the articles potentially subject to the recommended remedial order are used in the United States;
- (ii) identify any public health, safety, or welfare concerns in the United States relating to the recommended order;
- (iii) identify like or directly competitive articles that complainant, its licensees, or third parties make in the United States which could replace the subject articles if they were to be excluded;
- (iv) indicate whether complainant, complainant's licensees, and/or third-party suppliers have the capacity to replace the volume of articles potentially subject to the recommended order within a commercially reasonable time; and
- (v) explain how the recommended order would impact consumers in the United States.

² TSA has updated the burden to the collection since the publication of the 60-day notice, which reported the annual burden hours as 4,066 hours.
