*Title:* SNAP Mobile Payment Pilots (MPPs) and Request for Volunteers (RFV).

*Form Number:* None.

*OMB Number:* 0584–NEW.

*Expiration Date:* Not Yet Assigned.

*Type of Request:* New collection.

*Abstract:* Section 4006(e) of the Agricultural Act of 2018 (Pub. L. 115–334) authorizes the Food and Nutrition Service (FNS) to allow up to five Mobile Payment Pilots (MPPs) to allow the use of personal mobile devices, such as cellular phones, tablets and smart watches in place of SNAP Electronic Benefit Transfer (EBT) cards to conduct SNAP transactions. Respondents (SNAP State agencies (State agencies) and their SNAP business partners) will conduct pilots to test the use of mobile payment technologies for the redemption of SNAP benefits by SNAP households at participating retailers, in order to determine their feasibility and implications for program integrity. FNS will conduct these projects to evaluate whether allowing mobile payments is in the best interest of the Program, and to therefore, recommend allowing their use to the Secretary. The information collected in the pilot evaluation (to be submitted for OMB approval under a separate information collection request) will help FNS determine the success of and best practices for the use of mobile payment technologies to redeem SNAP benefits. This information will inform Program design, standards, rulemaking, and guidance for approval of SNAP mobile payment technologies as well as Departmental decisions and recommendations to Congress with respect to requiring all State EBT systems to accept mobile payment technologies in the future.

To achieve these objectives, FNS requests OMB approval to: (1) Issue a Request for Volunteers (RFV) to solicit applications from up to 53 SNAP State agencies to participate in these MPPs; and (2) select up to 5 State agencies that apply to implement a MPP in their State. This information collection request seeks OMB approval only for the RFV application process and implementation of MPP by State agencies. Under the Paperwork Reduction Act, FNS will seek a separate OMB approval to evaluate the results of completed MPPs under a separate 60-day **Federal Register** Notice and information collection request.

### 1. Assumptions

It is impossible for FNS to know in advance the design and structure of pilots that may be proposed or the specific activities each State and associated partners will undertake in their preparation of the RFV application or in conducting an MPP. Therefore, we have provided general estimates based on an assumed pilot model. Actual pilots may vary widely from this model and include a variety of potential stakeholders; this information collection does not intend to establish a standard model; this model will be used throughout this notice simply for ease of estimation. If there is substantive changes to this data collection request, the agency will seek OMB approval to revise this information collection request following the Paperwork Reduction Act process. The estimates below are based on a model in which one State agency partners with an average of four (4) stakeholder businesses (2 retailers, 1 EBT processor, and 1 mobile payment vendor) and recruits 1,000 SNAP participants per pilot proposal. It is important to note for burden estimation purposes that while there are numerous retailer and mobile payment vendors the States may choose to partner with, there are only 4 EBT processors nationally. Therefore, EBT processors may partner with multiple pilot proposals submitted by the various State agencies; this has been considered in our estimation.

### 2. RFV Application Process

FNS will issue a RFV to solicit an estimate of 53 applications for an up to eighteen (18) month pilot. In order to participate in the Mobile Payment Pilot, interested States first need to submit a letter of intent as discussed in the RFV, followed by an RFV application. This response will include all documents required in the RFV, such as a detailed work plan (as outlined in Appendix AA), the Application Checklist (Appendix A), which ensures completeness, and the Assurances (Appendix B), which ensures State Applicant compliance with pilot requirements. In preparation for completing the RFV Application, State agencies are expected to coordinate with business partner stakeholders, including EBT processors, retailers, and other contractors. FNS estimates that up to 53 State SNAP agencies may apply through the RFV process, and that each State agency will require 20 hours to prepare and submit their RFV application electronically to FNS. In addition, FNS estimates that each of the 53 State agencies may require 80 hours of

coordination and planning activities with each of their business partner organizations before submitting an application. The information collected through the RFV application process will help FNS determine each State agency's eligibility to participate in a MPP, evaluate their proposed pilots, and select candidates to participate in the pilot. FNS will verify that Applicant States/Territories with mobile payment capability meet requirements laid out in the RFV Application. Those that pass the verification process will be rated based on a structured evaluation process described in the RFV. Up to five (5) of the best rated Applicant States will be invited to participate in the pilot; as defined in RFV Section 3.2 Participant Selection. Ideally, selected State agency participants will represent a variety of different types of mobile payment technologies. Following selection of State agency participants, the pilot period will last a total of eighteen (18) months, and Pilot Participants (State agencies and associated business partner organizations) will join on a rolling basis with the condition that they must each participate for a minimum of nine (9) months.

### 3. Mobile Payment Pilot Implementation

Per the requirement in Section 4006(e) of the Agricultural Act of 2018 (Pub. L. 115–334) FNS will limit the number of MPPs selected to 5, and each MPP will operate for a maximum of 12 months. FNS estimates that, based on the assumed model in this notice, each State agency may require 80 hours to conduct the following activities during each month of implementation of an MPP (as applicable). These activities include;

1. Design of mobile payment integration and changes to EBT systems and functionality to accommodate mobile payments,
2. Testing of EBT systems to ensure compatibility,
3. Provision of technical assistance and support to SNAP households that participate in an MPP, and/or
4. Coordination with EBT processors, SNAP retailers, and mobile payment contractors.

FNS estimates that, based on the assumed model in this notice, each of the 5 State agencies may issue 1 recruitment notice for the MPP to 5,000 individuals who are members of SNAP households in each State for a total of 25,000 individuals. These notices may be issued to SNAP households electronically or via mail, depending on the State. Generation and issuance of each notice by the State agency is

expected to take approximately 3 minutes (0.05 hours). FNS also estimates that each of the 25,000 individual household members will require up to 3 minutes (0.05 hours) to read the recruitment notice for participation in the pilot. FNS estimates that approximately 5,000 of the recruited participants will opt to participate in the pilot (1,000 per State) and that each of the 5,000 participants will require 15 minutes to enroll in an MPP. Potential enrollment activities for SNAP household respondents are based on the assumed model in this information collection may include calling or emailing the State agency to indicate interest, reviewing instructions, downloading an application (as known as app), technical assistance, and/or enrolling in the app.
