

Secretary, Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, Maryland 20852. All filings must clearly identify the project name and docket number on the first page: Winooski 8 Hydroelectric Project (P-6470-008).

The Commission's Rules of Practice and Procedure require all interveners filing documents with the Commission to serve a copy of that document on each person on the official service list for the project. Further, if an intervener files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

k. This application has been accepted for filing, but is not ready for environmental analysis at this time.

l. The Winooski 8 Hydroelectric Project consists of the following constructed facilities: (1) A 222.5-foot-long, 26-foot-high concrete gravity dam impounding a reservoir with a storage capacity of approximately 20 acre-feet at an elevation of 615 feet mean sea level; (2) a 148-foot-long spillway with 4-foot-high flashboards built into the crest of the dam; (3) a 24-foot-long, hydraulically operated crest gate; (4) a 1,100-square-foot forebay located adjacent to the project impoundment; (5) three hydraulically operated trashracks; (6) a 1,550-square-foot powerhouse that contains two semi-Kaplan turbines and one fixed propeller turbine for a total installed capacity of 856 kilowatts; (7) a 100-foot-long tailrace; (8) a 1,000 kilovolt-amp station transformer; (9) a 30-foot long, 13-kilovolt transmission line and (10) appurtenant facilities. The project generates an average of 3,507 megawatt-hours annually.

WHC proposes to continue to operate the project in an automated run-of-river mode. WHC also proposes to add 3.6 acres to the existing project boundary to enclose a 4,100-foot-long dirt road currently used by WHC to access the dam and powerhouse and to enclose an existing unimproved recreation site that provides access to the river for boating and fishing activities downstream of the dam.
