

- *Federal eRulemaking Portal*: Go to www.regulations.gov. Enter APHIS–2021–0037 in the Search field. Select the Documents tab, then select the Comment button in the list of documents.

- *Postal Mail/Commercial Delivery*: Send your comment to Docket No. APHIS–2021–0037, Regulatory Analysis and Development, PPD, APHIS, Station 3A–03.8, 4700 River Road, Unit 118, Riverdale, MD 20737–1238.

Supporting documents and any comments we receive on this docket may be viewed at www.regulations.gov or in our reading room, which is located in room 1620 of the USDA South Building, 14th Street and Independence Avenue SW, Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 799–7039 before coming.

FOR FURTHER INFORMATION CONTACT: Ms. Claudia Ferguson, Senior Regulatory Policy Specialist, Regulatory Coordination and Compliance, PPQ, APHIS, 4700 River Road, Unit 133, Riverdale, MD 20737–1231; (301) 851–2352; Claudia.Ferguson@usda.gov.

SUPPLEMENTARY INFORMATION:

Background

Under the regulations in “Subpart L–Fruits and Vegetables” (7 CFR 319.56–1 through 319.56–12, referred to below as the regulations), the Animal and Plant Health Inspection Service (APHIS) prohibits or restricts the importation of fruits and vegetables into the United States from certain parts of the world to prevent plant pests from being introduced into or disseminated within the United States.

Section 319.56–4 contains a performance-based process for approving the importation of fruits and vegetables that, based on the findings of a pest risk analysis, can be safely imported subject to one or more of the five designated phytosanitary measures listed in paragraph (b) of that section.

APHIS received a request from the national plant protection organization (NPPO) of Mexico to allow the importation of fresh leaves and stems of garland chrysanthemum (*Glebionis coronarium*) from Mexico into the continental United States, Hawaii, Puerto Rico, and the U.S. Virgin Islands. As part of our evaluation of Mexico’s request, we have prepared a pest risk assessment (PRA) to identify the pests of quarantine significance that could follow the pathway of the importation of fresh leaves and stems of garland chrysanthemum (*Glebionis coronarium*)

into the continental United States, Hawaii, Puerto Rico, and the U.S. Virgin Islands from Mexico. Based on the PRA, a risk management document (RMD) was prepared to identify phytosanitary measures that could be applied to the fresh leaves and stems of garland chrysanthemum (*Glebionis coronarium*) to mitigate the pest risk.

Therefore, in accordance with § 319.56–4(c), we are announcing the availability of our PRA and RMD for public review and comment. Those documents, as well as a description of the economic considerations associated with the importation of fresh leaves and stems of garland chrysanthemum (*Glebionis coronarium*) from Mexico, may be viewed on the Regulations.gov website or in our reading room (see **ADDRESSES** above for a link to Regulations.gov and information on the location and hours of the reading room). You may request paper copies of the PRA and RMD by calling or writing to the person listed under **FOR FURTHER INFORMATION CONTACT**. Please refer to the subject of the analysis you wish to review when requesting copies.

After reviewing any comments we receive, we will announce our decision regarding the import status of fresh leaves and stems of garland chrysanthemum (*Glebionis coronarium*) from Mexico in a subsequent notice. If the overall conclusions of our analysis and the Administrator’s determination of risk remain unchanged following our consideration of the comments, then we will authorize the importation of fresh leaves and stems of garland chrysanthemum (*Glebionis coronarium*) from Mexico into the continental United States, Hawaii, Puerto Rico, and the U.S. Virgin Islands subject to the requirements specified in the RMD.

Authority: 7 U.S.C. 1633, 7701–7772, and 7781–7786; 21 U.S.C. 136 and 136a; 7 CFR 2.22, 2.80, and 371.3.

Done in Washington, DC, this 13th day of October 2021.

Mark Davidson,

Acting Administrator, Animal and Plant Health Inspection Service.

BILLING CODE 3410–34–P

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

[Docket No. APHIS–2021–0056]

Notice of Request for Revision to and Extension of Approval of an Information Collection; Animal Disease Traceability

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Revision to and extension of approval of an information collection; comment request.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the Animal and Plant Health Inspection Service’s intention to request a revision to and extension of approval of an information collection associated with animal disease traceability.

DATES: We will consider all comments that we receive on or before December 20, 2021.

ADDRESSES: You may submit comments by either of the following methods:

- *Federal eRulemaking Portal*: Go to www.regulations.gov. Enter APHIS–2021–0056 in the Search field. Select the Documents tab, then select the Comment button in the list of documents.

- *Postal Mail/Commercial Delivery*: Send your comment to Docket No. APHIS–2021–0056, Regulatory Analysis and Development, PPD, APHIS, Station 3A–03.8, 4700 River Road, Unit 118, Riverdale, MD 20737–1238.

Supporting documents and any comments we receive on this docket may be viewed at regulations.gov or in our reading room, which is located in Room 1620 of the USDA South Building, 14th Street and Independence Avenue SW, Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 799–7039 before coming.

FOR FURTHER INFORMATION CONTACT: For information on animal disease traceability, contact Dr. Alexander K. Turner, Assistant Director, Animal Disease Traceability and Veterinary Accreditation, Strategy and Policy, VS, APHIS, 2150 Centre Ave., Building B, Fort Collins, CO 80526; (970) 494–7353. For more information on the information collection reporting process, contact Mr. Joseph Moxey, APHIS’ Paperwork Reduction Act Coordinator, at (301) 851–2483; joseph.moxey@usda.gov.

SUPPLEMENTARY INFORMATION:

Title: Animal Disease Traceability.

OMB Control Number: 0579-0327.

Type of Request: Revision to and extension of approval of an information collection.

Abstract: Under the Animal Health Protection Act (7 U.S.C. 8301 *et seq.*), the Animal and Plant Health Inspection Service (APHIS) of the U.S. Department of Agriculture is authorized, among other things, to prevent the introduction into and the dissemination within the United States of any pest or disease of livestock or poultry.

Within APHIS, Veterinary Services safeguards U.S. animal health through a variety of activities, including disease control. One important part of disease control is animal disease traceability. Animal disease traceability provides the ability to document the movement history of an animal throughout its life. Knowing where diseased and at-risk animals have been and are located, as well as when they have been there, is indispensable during an emergency response and important for ongoing disease programs.

Epidemiologists use this information to determine the potential spread of a disease. In fact, having the ability to plot locations within a radius of an infected premises helps to determine the potential magnitude of a contagious disease and the resources needed to contain it. Furthermore, as diseases are controlled or eradicated, it is important to document areas, States, or regions of the country that are free from disease. Traceability helps APHIS determine those disease-free zones, thus enhancing the marketability of U.S. livestock.

The regulations for animal disease traceability are located in 9 CFR part 86. Under the regulations, unless specifically exempted, livestock moved interstate must be officially identified and accompanied by an interstate certificate of veterinary inspection. The regulations specify approved forms of official identification for each species but allow livestock to be moved between any two States or Tribes with another form of identification as agreed upon by animal health officials in the two jurisdictions. This identification requirement improves APHIS' ability to trace livestock if a disease is detected. Development and implementation of the animal disease traceability framework continues to be a partnership involving APHIS, States, Tribes, and industry. In fact, States and Tribes enter into cooperative agreements with APHIS to implement their traceability activities.

Other activities in this information collection include official identification device (ID) distribution; administration

of official ID devices; approval of official ID devices; premises ID registration; official ID applications; applications for and approval of approved tagging sites; interstate certificate of veterinary inspection; cooperative agreement quarterly reports; cooperative agreement road maps and submission for approval; and Tribal tag distribution.

We are asking the Office of Management and Budget (OMB) to approve these information collection activities, as described, for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public burden for this collection of information is estimated to average 0.613 hours per response.

Respondents: State, Tribal, and territorial animal health officials; accredited veterinarians; breed and registry associations; producers; livestock market operators; and harvest facility employees.

Estimated annual number of respondents: 273,587.

Estimated annual number of responses per respondent: 9.

Estimated annual number of responses: 2,475,812.

Estimated total annual burden on respondents: 1,518,459 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 14th day of October 2021.

Mark Davidson,

Acting Administrator, Animal and Plant Health Inspection Service.

BILLING CODE 3410-34-P

DEPARTMENT OF COMMERCE**Census Bureau****2020 Census Tribal Consultation; Virtual Public Meeting**

AGENCY: Census Bureau, Department of Commerce.

ACTION: Notice of virtual public meeting.

SUMMARY: The Census Bureau will conduct a tribal consultation on the next set of 2020 Census Data Products on November 18, 2021, through a national webinar. The tribal consultation meeting reflects the Census Bureau's continuous commitment to strengthen government-to-government relationships with federally recognized tribes. The Census Bureau's procedures for outreach, notice, and consultation ensure involvement of tribes, to the extent practicable and permitted by law, before making decisions or implementing policies, rules, or programs that affect federally recognized tribal governments. These meetings are open to citizens of federally and state recognized tribes by invitation.

DATES: The Census Bureau will conduct the tribal consultation webinar on Thursday, November 18, 2021, from 3:00 p.m. to 4:30 p.m. EST. Any questions or topics to be considered in the tribal consultation meetings must be received in writing via email by Monday, November 15, 2021.

ADDRESSES: The Census Bureau tribal consultation webinar meeting will be held via the WebEx platform at the following presentation link: <https://uscensus.webex.com/uscensus/onstage/g.php?MTID=e780a0783827fbb98bb9fa07ca2b01ce1>.

If the webinar requires a password, type: Census#1. For audio, please call the following number: 1-877-601-4484 OR 1-630-395-0021. When prompted, please use the following Participant Code: 2160257.

Submit your comments by email. Send comments to: Dee.A.Alexander@census.gov or OCIA.TAO@census.gov. **FOR FURTHER INFORMATION CONTACT:** Dee Alexander, Tribal Affairs Coordinator, Office of Congressional and Intergovernmental Affairs, Intergovernmental Affairs Office, U.S.
