AGENCY FOR INTERNATIONAL DEVELOPMENT

Agency Information Collection Activities: Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request

AGENCY: U.S. Agency for International Development.

ACTION: Notice of information collection.

SUMMARY: The U.S. Agency for International Development (USAID), as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on continuing information collections, as required by the Paperwork Reduction Act of 1995. Comments are requested concerning whether the proposed or continuing collections of information are necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; the accuracy of the burden estimates; ways to enhance the quality, utility, and clarity of the information collected; and ways to minimize the burden of the collection of the information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

ADDRESSES: Interested persons are invited to submit written comments regarding the proposed information collection to the Office of Information and Regulatory Affairs, Office of

Management and Budget (OMB), 725 7th Street NW, Washington, DC 20543. Attention: Desk Officer for USAID.

FOR FURTHER INFORMATION CONTACT: Alexandra Riboul, U.S. Agency for International Development, Office of Human Capital and Talent Management, Office of Workforce Planning, Policy, and Systems Management (PPSM)—Washington, DC 20523; tel. 202–712–1234, option #2.

SUPPLEMENTARY INFORMATION:

I. Abstract

The purpose of this collection is to determine if a candidate is eligible to receive Physician and Dentist Pay under the provisions of Title 38. This information will be maintained by USAID and made available to the Internal Revenue Service for tax and withholding purposes and to the U.S. Office of Personnel Management. Disclosure is voluntary. However, without the requested information, USAID will not be able to process a candidate's request to receive Physician and Dentist Pay. Authority to collect this information is contained in 5 U.S.C. 1104 and 5 U.S.C. 5371. The Office of U.S. Office of Personnel Management delegated authority to USAID to use provisions of Title 38, U.S.C. until June 30, 2022.

Section 7(f) of the USGSA authorizes the Secretary to designate a qualified applicant to provide official services in a specified area after determining that the applicant is better able than any other applicant to provide such official services (7 U.S.C. 79(f)). A designated agency may provide official inspection services and/or Class X or Class Y weighing services at locations other than port locations. Under section 7(g) of the USGSA, designations of official agencies are effective for no longer than five years, unless terminated by the Secretary, and may be renewed according to the criteria and procedures prescribed in section 7(f) of the USGSA. See also, 7 CFR 800.196 for further information and guidance. Please note that sampling, weighing, and inspections conducted under the Agricultural Marketing Act of 1946 are conducted through cooperative agreements with AMS under the auspices of current official agency

designation. See 7 U.S.C. 1621 *et seq.*, as amended for further information.

Submission for OMB Review; Comment Request

October 18, 2021.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments are requested regarding: Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques and other forms of information technology.

Comments regarding this information collection received by November 22, 2021 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function. An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Forest Service

Title: National Woodland Owner Survey.

OMB Control Number: 0596–0078.

Summary of Collection: The Forest and Rangeland Renewable Resources Planning Act of 1974 (Pub. L. 93–278 Sec. 3) and the Forest and Rangeland Renewable Resources Research Act of 1978 (Pub. L. 307 Sec. 3) are the legal authorities for conducting the National Woodland Owner Survey. There are an estimated 823 million acres of forestland across the United States. Of this forestland, over half is owned by

millions of corporations, families, individuals, and other private groups. Understanding the attitudes and behaviors of these private ownerships is critical for understanding the current and future state of the nation's forests. The Forest Service conducts the National Woodland Owner Survey (NWOS) to increase our understanding of:

- Who owns and manages the forestland of the United States;
- Why they own/manage it;
- How they have used it; and
- How they intend to use it.

This information is used by policy analysts, foresters, educators, and researchers to facilitate planning and implementation of forest policies and programs.

The Forest Service's direction and authority to conduct the NWOS is from the Resources Planning Act of 1974 and the Forest and Rangeland Renewable Resources Research Act of 1978. These acts assign responsibility for inventory and assessment of forest and related renewable resources to the Secretary of Agriculture, and these responsibilities are subsequently delegated to the Forest Service. Additionally, the importance of an ownership survey in this inventory and assessment process has been highlighted in the 2014 Farm Bill, the Agricultural Research, Extension, and Education Reform Act of 1998, and the recommendations of the 1998 Second Blue Ribbon Panel on the Forest Inventory and Analysis program. Previous iterations of the NWOS were conducted in 1978, 1993, 2002–2006, 2011–2013, and 2017–2018. Data collection for the current iteration is planned for 2019–2023. Initial approval for the current data collection cycle of the NWOS expires on October 31, 2021. If renewed, the current NWOS data collection cycle will be completed in 2023.

Need and Use of the Information: The NWOS will utilize a mixed-mode survey technique involving cognitive interviews, focus groups, self-administered questionnaires, and telephone interviews. Cognitive interviews will be used to test specific questions. Focus groups will be used to provide more in-depth understanding of the responses and to explore new areas of inquiry. This information collection will generate scientifically-based, statistically-reliable, up-to-date information about the owners of forestland in the United States. Results of these efforts will provide more reliable information on this important and dynamic segment of the United States population, thus facilitating more complete assessments of the country's
