

reasonably designed to cover its credit exposures to its participants by establishing a risk-based margin system that, at a minimum, is monitored by management on an ongoing basis and is regularly reviewed, tested, and verified by, among other things: (A) Conducting backtests of its margin model at least once each day using standard predetermined parameters and assumptions; and (B) conducting a sensitivity analysis of its margin model and a review of its parameters and assumptions for backtesting on at least a monthly basis, and considering modifications to ensure the backtesting practices are appropriate for determining the adequacy of ICC's margin resources.¹⁴

Consistent with such back-testing requirements, the proposed rule change would not modify ICC Risk's current back-testing practices of performing daily, weekly, monthly, and quarterly portfolio-level back-testing analyses, performing monthly parameter reviews and parameter sensitivity analyses, and remediating poor back-testing results under the Back-Testing Framework.¹⁵ For the reasons discussed below, the Commission finds that the proposed rule change would enhance such back-testing practices to help ICC monitor its credit exposures to its clearing participants and maintain the ongoing effectiveness of its risk-based margin system and overall risk management framework. As described above, proposed new Subsection 2.1 (Lookback Period for Back-Testing of the Production Model with Clearing Participant Portfolios), in adding a detailed description of the maximum back-testing sample size, or lookback period, and an alternative statistical test for enhanced analysis and verification of the accuracy of risk model performance, would clarify and strengthen ICC's back-testing analysis for CP related portfolios. Proposed Subsection 2.1, in establishing the minimum back-testing window length for the Margin Period of Risk (MPOR) model analysis, subjecting the MPOR model to the performance of additional analyses for portfolios with an insufficient number of available observations, and clarifying the reporting of back-testing results for such portfolios, would help ensure that the back-testing practices for MPOR models are appropriate for determining the accuracy of ICC's margin resources. If red-zone results appear from overlapping back-testing periods, Section 4, as amended, would require

ICC Risk to assess the sufficiency of the number of observations on the portfolio-level back-testing analysis, which would supplement its complementary back-testing analysis without overlapping periods. The Commission therefore finds that these aspects of the proposed rule change, taken together, are consistent with Rule 17Ad-22(e)(6)(vi).¹⁶

IV. Conclusion

On the basis of the foregoing, the Commission finds that the proposal is consistent with the requirements of the Act, and in particular, with the requirements of Section 17A(b)(3)(F) of the Act¹⁷ and Rules 17Ad-22(e)(2)(i) and (v), and 17Ad-22(e)(6)(vi) thereunder.¹⁸

It is therefore ordered pursuant to Section 19(b)(2) of the Act¹⁹ that the proposed rule change (SR-ICC-2021-018) be, and hereby is, approved.²⁰

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.²¹

1. *Request for Waiver of Overpayment Recovery and Request for Change in Overpayment Recovery Rate—20 CFR 404.502, 404.506-404.512, 416.550-416.558, 416.570-416.571—0960-0037.*

When Social Security beneficiaries and Supplemental Security Income (SSI) recipients receive an overpayment, they must return the extra money. These beneficiaries and recipients can use Form SSA-632-BK, Request for Waiver of Overpayment Recovery, to request a waiver from repaying their overpayment. Beneficiaries and recipients can also use Form SSA-634, Request for Change in Overpayment Recovery, to request a change to the monthly recovery rate of their overpayment. The respondents must provide financial information to help the agency determine how much the overpaid person can afford to repay each month. The respondents are individuals who are overpaid Social Security or SSI payments who are requesting:

(1) A waiver of recovery of an overpayment, or (2) a lesser rate of withholding.

Type of Request: Revision of an OMB-approved information collection.

Modality of completion	Number of respondents	Frequency of response	Average burden per response (minutes)	Estimated total annual burden (hours)	Average theoretical hourly cost amount (dollars) *	Average wait time in field office or for teleservice centers (minutes) **	Total annual opportunity cost (dollars) ***
SSA-632—Request for Waiver of Overpayment Recovery (If completing entire paper form, including the AFI authorization)	400,000	1	120	800,000	*\$10.95	** 21	*** \$10,293,000
SSA-634—Request for Change in Overpayment Recovery Rate (Completing paper form)	100,000	1	45	75,000	* 10.95	** 21	*** 1,204,500
Totals	500,000	875,000	*** 11,497,500

* We based this figure on the average DI payments based on SSA's current FY 2021 data (<https://www.ssa.gov/legislation/2021FactSheet.pdf>).

** We based this figure on averaging both the average FY 2021 wait times for field offices and teleservice centers, based on SSA's current management information data.

*** This figure does not represent actual costs that SSA is imposing on recipients of Social Security payments to complete this application; rather, these are theoretical opportunity costs for the additional time respondents will spend to complete the application. *There is no actual charge to respondents to complete the application.*

2. *Statement of Claimant or Other Person—20 CFR 404.702 & 416.570—0960-0045.* SSA uses Form SSA-795, Statement of Claimant or Other Person, in special situations where there is no authorized form or questionnaire, yet we require a signed statement from the applicant, claimant, or other individuals who have knowledge of facts, in connection with claims for Social

Security benefits or SSI. The information we request on the SSA-795 is of sufficient importance that we need both a signed statement and a penalty clause. SSA uses this information to process, in addition to claims for benefits, issues about continuing eligibility; ongoing benefit amounts; use of funds by a representative payee; fraud investigation; and a myriad of other

program-related matters. The most common respondents are applicants for Social Security, SSI, or recipients of these programs. However, respondents also include friends and relatives of the involved parties, coworkers, neighbors, or anyone else in a position to provide information pertinent to the issue(s).

Type of Request: Revision of an OMB-approved information collection.
